4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meetings of 11-28-95 & 12-19-95)

Formal Hearing concerning formal complaint filed by Joseph A. Medina, Chief of Department, on November 17, 1995, against Firefighter Steven P. Rascon, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

6:13-6:26 p.m.

(Note: Commissioner Ng was excused to attend to a business matter.)

Deputy City Attorney Michele Modena-Kurpinsky represented the City. James Ahern, President, Local 798, represented Firefighter Rascon, who was present.

Mr. Ahern requested a closed session which was granted by President Ertola.

Deputy City Attorney Modena-Kurpinsky read the negotiated settlement, which was accepted by Mr. Ahern, on behalf of his client.

The negotiated settlement is summarized below:

... Termination by the Fire Commission held in abeyance for three years on the following conditions:

Firefighter Rascon shall plead guilty to the pending charge; he shall be suspended for 90 days, November 19, 1995 through February 16, 1996; he shall enroll in a department approved drug counseling program; he shall submit to random drug testing for three years; prior to returning to duty he shall contact the Department Physician to make an appointment for a physical examination, including a drug screen.

By a roll call vote of 4-0, the Fire Commission accepted the terms of the negotiated settlement.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

The Board of Supervisors of Marin County
Administration Building
Suite 315, 3501 Civic Center Drive
San Rafael, California 94903

December 19, 1995

To Members of the San Francisco Fire Department:

In October, Marin County experienced a firestorm of such magnitude, it took six days to control. It became known as the "Vision Fire." It burned 12,000 acres, destroyed forty-five homes and damaged a dozen others. The estimated cost of the damage was $40 million. The fire required the involvement of more than 2,000 firefighters. If not for your tireless efforts, the losses would have been greater.

The successful melding of a large multi-agency effort such as this is entirely dependent on the support of its members. As members of this team, your contributions are deeply appreciated.

Your cooperation and willingness to participate in the effort to diminish the effects of this disaster do not go unrecognized. It is with the utmost pride and gratitude that we, as representatives of the citizens of Marin County, would like to thank the members of the San Francisco Fire Department for your involvement in this critical emergency.

With sincere thanks,

/s/ ANNETTE ROSE, President
Supervisor, District 3
Marin County Board of Supervisors

Dear Chief Medina:

We were sad to hear about the loss of the toys you had collected through your comunity "Toys for Tots" holiday delivery fund-raiser. Please accept the toys we delivered to your station on 3rd and 4th as our donation to your valuable community service program.

American Medical Response West employees know these toys will bring smiles to the children of San Francisco during this holiday season. As partners in the EMS, it is important to work together to enhance the communities we serve. Our communities count on both of us, and count on us to work together, during difficult times and emergencies. It is great that you provide this service to the children creating happiness to those who otherwise might not receive the joy of toys during the holiday.

From all of us at San Francisco Ambulance (American Medical Response West), Happy Holidays!

Sincerely,

Dear Chief Medina:

I must commend Lieutenant David Jackson and Firefighters Ramon Barreto, John Kosta and John Rocco of Station 15 for their services on December 11 and 12, at 25 Corona Street. A very large tree in an adjacent property to my home fell due to the high winds. The tree fell across the power lines at the rear of my property that resulted in severing the lines and causing a sizable fire.

These gentlemen stayed on the scene until approximately 4:00 a.m. on the morning of the 12th to insure that the fire was contained. I am satisfied that far greater damage would have ocurred except for their immediate response to the situation.

They performed in a selfless manner and brought credit not only to themselves but to the entire department. All San Franciscans can rest assured that the San Francisco Fire Department will react in a professional and efficient manner in any emergency.

Again, my thanks, and please convey my appreciation to Captain William Long and his men of Station 15.

Sincerely,

Chief Joseph A. Medina
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Medina:

On December 6, 1995, Mrs. Cressey had an eye operation and temporary patches were placed over both eyes rendering her completely blind. The doctor directed that he'll see her the next morning at 9:00 a.m. for examination.

I was able to get her up the back stairs that afternoon but getting her down the following day was another thing. Not only was she frightened but at 89 I no longer have the strength to cope with the situation.

At 8:00 a.m., December 7, 1995, I called the Fire Department; they advised, "no problem," and sent Engine 39 which promptly arrived, surveyed the property inside and outside, checked Mrs. Cressey's temperature and blood pressure, then assisted her down the front stairs and into our car.

Mrs. Cressey joins me in thanking all who expedited and participated in our time of need. And need it was, expertly done by professionals.

This being the Season of Sharing there is enclosed a small donation which you may use in any manner deemed most important.

Again, thank you, and Merry Christmas and Happy Holidays to all of you.

My wife and I want to express our sincere thanks to Lieutenant Brendan Ward and his men at Engine 19 for responding so promptly to our serious problem of a leaking roof. It may be a minor problem considering the more serious problems your department faces every day and night; but, of course, it was a major problem to us and we do appreciate very much their effort to solve it.

Lieutenant Robert Dunne
Engine 26

Gentlemen:

I cannot find the words to adequately thank you and Firefighters Martin Condon and Randall Hendricks for the help you gave me and my wife on October 16, 1995.

The emergency call went out at 10:33 a.m. I had accidentally severed my left hand. You were there within five minutes. You, Marty and Randy were efficient, professional and calm in working with the paramedics. The efficiency of the Fire Department and the paramedics was a prime factor enabling Dr. Lee, San Francisco General, and his staff to successfully reattach my hand. You were also kind, concerned and caring in coping with me and my wife. We are extremely grateful.

Thank you also for the delicious dinner on Saturday night, December 9. Everyone at the firehouse was very friendly and caring. I enjoyed the evening very much.

Please accept my humble and heartfelt thanks for everythng. THANK YOU!

Dear Chief Medina:

On the morning of December 11, 1995, there was a two alarm fire at 11th and Folsom streets in San Francisco. An unconscious man was discovered in a smoky top floor apartment and carried down many stories to safety. The reason this man is alive today is due to the heroic efforts of two firefighters, Mark Castagnola and James Bustamante. I have seen nothing in the press regarding this rescue, and I believe these firefighters deserve recognition from the City as well as the Fire Department.

C) Personal Services Contract

Submitted for review and adoption a proposed personal services contract in the amount of $295,000 from CORE Corporation for H20 Lieutenant and H40 Battalion Chief examinations.

Commissioner Clay commented that in light of the fact that this item is a personal services contract for examinations, it might be more appropriate for the new Fire Commission to address this issue. Accordingly, he moved, seconded by Vice President Molinar, that Item 5C be continued until the next meeting of the Fire Commission - Tuesday, January 23, 1996, at 9:00 a.m.

There were no further questions or discussion and the item was continued to the meeting of January 23, 1996.

D) Formal Complaint

Submitted formal complaint against Firefighter Gordon E. Leidecker, dated January 2, 1996, for violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

President Ertola directed Secretary Connors to comply with Section 4006 of the Rules and Regulations and inform Firefighter Leidecker that the trial and hearing will be held February 13, 1996, at 6:00 p.m.

E) 1996-1997 Budget

Submitted for review and discussion budget estimates for fiscal year 1996-1997.

(Note: The budget will be submitted for adoption at the meeting of January 23, 1996, in order to meet February 12 deadline.)

Deputy Chief Slater commented that the figures in the proposed 1996-97 budget before you are not hard figures in some cases but all the lines, which is our financial plan for the coming year, are contained in this budget. The reason that some of the figures are not hard is because some of the information that we receive from other departments and the Controller's office are not yet available to us. This information will start to come in around January 15. This is early to give you the budget, but because of the City-wide budget deadlines, this budget is presented twice to the Fire Commission - once for preliminary review and once for adoption. President Ertola noted that the new

Commission will have the opportunity to review the budget before adoption. Deputy Chief Slater answered affirmatively. He noted further that there will be public comment before the Board of Supervisors in June before the department's final budget is adopted.

F) Public Comment

Marvis Phillips, Block Captain, Tenderloin - He commented that he enjoyed working with the Fire Commission and the Chief of Department over the past few years. He said the Fire Commission did a good, bang up job for the Tenderloin. He noticed a decrease in fire calls of a major proportion. I think everyone in the Department should receive credit for that.

James Ahern, President, Local 798 - He commented that on behalf of the San Francisco Fire Fighters Local 798 he thanked the Commission for their years of service. It has been a pleasure working with the Commission in a cooperative fashion on the isues that have impacted our membership, consisting of more than 1,300 men and women in the San Francisco Fire Department. We wish you all the best; and all the best in future endeavors.

Audry Lee, President, Black Firefighters Association - He commented that we have enjoyed working with you. Although we were at opposing ends at times, I feel that a lot of things were accomplished. I hope that all of you, wherever you might go are successful in your endeavors. I enjoyed working with Chief Medina, Deputy Chief Olson and Deputy Chief Slater.

Matias Cobo, Director, Los Bomberos - He thanked the Commission for all the work they have accomplished during their term. I know you spent many, many hours dedicated to the Fire Department. He thanked Chief Medina and the Deputy Chiefs, as well. He wished them every success in the future.

President Ertola commented that considering the nice remarks that have been made, this may be the time for each Commissioner to say a word or two about our tenure here as members of this Commission serving the City for the last four years. It has been a pleasure to be the President of the Fire Commission, it was a new experience, to add to the many other life experiences. The people that I met here - the men and women of the San Francisco Fire Department - were as fine a group of persons that I have ever met. They remind me of my colleagues on the court, where I served for 21 years, as well as the people I served with in World War II. I could not pay a higher compliment than that. In working with our Chief, City Attorney's office, the various employee organizations, the top brass in the Fire Department has been most enjoyable.

F) Public Comment (Continued)

I am reminded that Midsummer Night's Dream is opening with the Royal Shakespeare Company from England. It is supposed to be a great show. It reminds me of some words of the great Bard: "Free of the public haunts - may you find tongues in trees, books in the running brooks; sermons in stone and good in everything." That is my wish to fellow Commissioners and to all of you.

Vice President Molinar commented that it has been quite a learning experience. I learned a lot. I have enjoyed most of the time. I have developed good friendships in this Department. It is an experience that I wish on a good friend. It is like a family. That is what I have felt. I am going to miss you all. I have enjoyed working with the employees' associations, and with Chief Medina, and my colleagues on the Commission. She congratulated Chief Demmons and wished him the best.

Commissioner Clay commented that he can say unlike his colleagues that his tenure here was short, sweet, and fun. It was a real enjoyable experience working with everyone here at the Department. This is a very good department. You have very good individuals here, and I know that it will always be successful. I look forward to hearing about it and reading about it and congratulations to Chief Demmons. Good luck in your tenure.

Commissioner Morrow commented that he made some great friends, and that it has been a real learning experience. I hope to continue these friendships. I would like to congratulate Chief Demmons, best of luck to you, and if there is anything I can do to help please call.

Commissioner Ng commented that it is indeed an honor for him to be the first Chinese-American to serve on the Fire Commission. During my time I have learned a lot and it has been a very good experience. I wish the new Chief a lot of success, and I also hope Chief Medina is going to have a very nice time in Hawaii.

President Ertola commented that he didn't think he expressed himself earlier in regards to Chief Demmons. I, too, congratulate him on the expression of the Mayor to be the Chief of Department. I'm very pleased and hope you have a very good tenure. I hope you have as good a time in the next four years as we had.

President Ertola commented that I don't think I mentioned Ray Connors for his sublime assistance throughout these many years. At times, when things seemed intolerable and unsolvable Ray was able to come up with a solution. I know all of my colleagues appreciate his service.

President Ertola commented that we did mention the City Attorney, but did not mention for praise, Deputy City Attorney Arthur Greenberg. We have appreciated his advise, legal and otherwise, and we wish him well.

6. CLOSED SESSION

The Fire Commission will meet in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

1. On Roll Call, the following were noted present:
   Commissioner Rosemarie Fernandez-Ruel
   Commissioner Stephen A. Nakajo
   Commissioner Russell S. Roeca
   Commissioner Hadley R. Roff
   Commissioner Ted N. Soulis

   Howard L. Slater - Deputy Chief - Administration
   Frank Scales, Jr. - Assistant Deputy Chief - Support Services

   Chief Officers - Staff:

   Richard E. Condon - Fire Prevention
   Robert L. Demmons - Management Services
   Paul J. Tabacco - Training
   James R. Lynch - Prop C

   Chief Officers - Firefighting Service:

   Daniel P. Kiely - Division 2 (Acting)
   William G. Richardson - Division 3
   Arthur R. Citron - Division of Airports

1A. Election of Officers

Secretary Connors indicated that it was appropriate to make nominations for the office of Fire Commisison President. Commissioner Roff moved and Commissioner Roeca seconded that Commissioner Rosemarie Fernandez-Ruel be nominated President. Hearing no additional nominations, Secretary Connors polled the Commission. By a vote of 5-0, Commissioner Fernandez-Ruel was elected President.

President Fernandez-Ruel called for nominations for the position of Fire Commission Vice President. Commissioner Soulis moved and Commissioner Nakajo seconded that Commissioner Roff be nominated for the position of Fire Commission Vice President. President Fernandez-Ruel asked if there were additional nominations. Hearing none, she directed Secretary Connors to call the roll. By a vote of 5-0, Commissioner Roff was elected Vice President.

2. Appointment of Chief of Department - Robert L. Demmons

Secretary Connors indicated that it was appropriate to make a motion to appoint the Chief of Department. Vice President Roff moved and Commissioner Roeca seconded that Assistant Chief Robert Demmons be appointed Chief of Department, effective January 16, 1996, in accord with Charter Section 3.541. There were no further questions or discussion and the Fire Commission unanimously adopted the motion appointing Robert L. Demmons as Chief, San Francisco Fire Department.

President Fernandez-Ruel congratulated Chief Demmons on his appointment.

Chief Demmons thanked the members of the Commission for his appointment. He thanked Mayor, Willie L. Brown for recommending him for the appointment. It is, indeed, an honor to serve this great Department as Fire Chief, and particularly under this present administration which is committed to a lot of the values, goals and objectives that I have set for myself years ago. So, I think it is great to have the opportunity to serve, particularly when the theme of this administration, the Mayor's office and this Commission, is inclusiveness. It is a great privilege and honor to help bring about the goals and objectives of this administration.

Chief Demmons shook hands with each Commissioner and received their best wishes. He then introduced his wife, Willie, and his grandson, Ryan. He concluded by stating he would be making more extended comments during this morning's oath of office ceremony at Herbst Theatre.

3. Public Comment - Members of the public may address the Fire Commission on items of interest to the public which are within the subject matter jurisdiction of the Commission.

Mr. James Ahern, President, Firefighters Local 798, commented that on behalf of Firefighters Local 798, which represents 1,314 men and women in the San Francisco Fire Department, we congratulate you, as the newly installed Fire Commission. We look forward to working with you on the issues that impact our membership. Chief Demmons, Mrs. Willie Demmons and grandson, Ryan, we offer you congratulations. This is an exciting and historic day. We wish you all the best in the future during your tenure as Chief of Department. This Union is committed to working together for the efficiency of the San Francisco Fire Department, to having harmonious work relationships, whether it is in fire stations or at the fireground operations. We look forward to meeting with the Chief and the Fire Commission, from time to time, on the issues that affect us - working conditions and benefits for all firefighters. I wish all of you a good day. Thank you.

President Fernandez-Ruel thanked Mr. Ahern for his comments, and stated that on behalf of the Commission we look forward to working with Chief Demmons, the San Francisco Firefighters, the San Francisco Black Firefighters Association, and all the men and women who serve the San Francisco Fire Department so well. Thank you.

RECESS : 9:18 a.m.

President Fernandez-Ruel commented that the Fire Commission will stand in recess until 12:30 p.m. in order to attend the ceremonies at City Hall, where Willie L. Brown, Mayor, will administer the oath of office to Chief Robert L. Demmons. The ceremony, which begins at 10:00 a.m. will take place in the Herbst Theatre, first floor, 401 Van Ness Avenue. She expressed the wish to see everyone in the Commission meeting room today at the Herbst Theatre ceremony.

4. Closed Session

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

12:30-2:10 p.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned at 2:11 p.m.

Dear Chief Medina:

My sincere thanks to Engine 32 "B" Watch, for their quick response to my 911 call on Saturday, December 16, 1995. Many thanks also to the paramedics who arrived on the scene and transported me to Kaiser Hospital. If it weren't for the exemplary and swift action of these dedicated City employees, I may not have been here to enjoy another Holiday season.

Happy Holidays to you and yours and to those fine individuals who came to my assistance last Saturday.

Respectfully yours,

Chief Joseph A. Medina
San Francisco Fire Department

San Francisco, CA 94102

Dear Chief Medina:

On December 5, 1995, Muni was faced with a situation at our Flynn Maintenance Facility on Harrison Street which prevented our articulated buses from entering the building during evening pull-in. Buses were lining up in the street.

Water absorbing material that was used during the recent rainstorm had dried and become powdery. As a result the movement of our buses over this dried material created a very dusty and potentially hazardous situation. Our quickest alternative to resolve the immediate problem was to dampen the material.

Lacking the resources, we contacted Fire Department dispatch. The operator was extremely helpful and promptly dispatched Engine 37. The crew arrived within minutes and began to dampen the floor. The job was completed within 45 minutes and our buses were able to be driven into the facility.

On behalf of our Director, Philip Adams and our Deputy Director, David Stumpo, I would like to express our gratitude for the quick response. Muni has prepared a certificate thanking the Fire Department and the crew of Engine 37 for their assistance. We would appreciate your forwarding of this certificate to the crew of Engine 37.

Sincerely,

/s/ RAY FAVETTI
General Superintendent

December 27, 1995

Chief Joseph A. Medina
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Medina:

Thank you once again for the many services that the firefighters from the San Francisco Fire Department provides for the patients here at Shriners Hospital for Crippled Children during the holiday season. We would like to thank Firefighter John Voelker and the Toy Program for the use of their beautiful Santa suit that was worn by Firefighter Raymond Foley from Engine 18 on Christmas morning. Many thanks to all the members of Engine 18 who brought Santa to hand out gifts to the children here. Firefighter Foley did a wonderful job and really brightened up the day for the children who were spending Christmas in the hospital. Also special thanks to the members of Engine 21 and Firefighter Steve Moore (Smokey the Magical Firefighter) for their 18th year of Christmas Caroling, magic show and gifts for the patients. We look forward to their performance every year as it is one of the highlights of the season.

The Board of Governors and Staff of the Hospital are grateful for your thoughtfulness and for your interest in the happiness and well-being in the young patients for whom we are caring.

Our many thanks and best wishes.

Sincerely,

/s/ TOM BARISONE
Public Events Coordinator

San Francisco Fire Department

To: All the Wonderful People

Thank you so much for all the wonderful gifts, books, puzzle, toys and games. The boys were delighted about everything that they couldn't wait to play with it. It came in very handy especially when we're living in difficult times whose families are of need.

I want to thank you all so much to help this program to make a wonderful Christmas for the children. Sincerest thanks to all the wonderful companies and families who donated the imaginative fun toys.

Again, thanks to each and everyone of you, your thoughtfulness, your kindness, and your generosity.

Best Wishes to a New Year of Happiness, Peace and Good Health!

/s/ SUSAN SOO HOO & FAMILY

January 11, 1996

To Chief Medina:

On New Year's Eve, after midnight but before dawn, my family had to call 911 for me. The fire department was here almost before she hung up. They were giving me oxygen in a minute or less.

It would have been traumatic for my 2-1/2 year old grandchild to see me going out on a stretcher if it had not been for the firemen. She was intrigued by them and while some worked with me some stayed with her so she wasn't concerned about my leaving at all.

Thank God for the San Francisco Fire Department. I've never seen one that I didn't like.

4. REGULAR CALENDAR - NEW BUSINESS

E) 1996-1997 Budget (Cont'd from Meeting of 01-09-96)

Submitted for review and adoption the Fire Department's 1996-1997 budget in the amount of $143,870,660.

Commissioner Nakajo moved and Commissioner Roeca seconded.
There were no questions or discussion and the 1996-1997 budget was adopted on recommendation of Chief of Department.

F) Public Comment

Audry Lee, President, Black Firefighters Association (BFA) - He congratulated the Commission on their appointment and the Chief of Department for his appointment, and for the officers appointed here today. He raised the issue of appointments made by the past administration. I know that we have very little to say about the process, but the procedure that was used was suspect and I hope that the Commission and Chief, and everyone else involved would look into the results of this procedure.

Bernie Lee, President, Asian Firefighters Association (AFA) - He congratulated the members of the Commissin for their appointment and congratulated Chief Demmons, as well. He thanked the families for being present this morning to support the five officers sworn in today. The AFA looks forward to working with the Fire Commission and Chief Demmons and his staff.

President Fernandez-Ruel thanked the speakers for their congratulations and commented that the Commission looks forward to working with all the employee associations and all the men and women of the San Francisco Fire Department.

Commissioner Nakajo commented that this is his opportunity to address everybody as a new Commissioner. I am, also, looking forward very much to working with all the men and women of the San Francisco Fire Department, and working on the very tough issues we have in front of us, with the bottom line to serve the people of San Francisco.

Commissioner Roeca commented I would simply echo my fellow Commissioners' commentary. The San Francisco Fire Department has a proud tradition and I am honored to be here. I look forward to a successful term with the San Francisco Fire Department.

Commissioner Soulis commented that it is good to be back. There is a lot of work to be finished and, hopefully, we will have the opportunity to do that. I look forward to working with the new Commission and Chief Demmons. I wish them all the best of luck.

4. REGULAR CALENDAR - NEW BUSINESS

F) Public Comment (Continued)

Vice President Roff commented for more years ago than I care to remember I used to be a reporter in the City who covered fires late at night. I always have had a great interest in this Department. It not only reflects great professionalism, but at this point in time it has great potential for very positive change. I am very pleased to be a member of the Fire Commission and to be associated with such a fine department.

Robert L. Demmons, Chief of Department, commented first of all I would like to congratulate the members of the Commission. I look forward to working for you over the next years, and I am real pleased that you were all selected. As I stated before, I think it provides a real opportunity for us to move forward and do a lot of the things that the citizens expect us to do, which is getting out from under the outside supervision.

I would also like to have the following letter read into the minutes:

January 22, 1996

Dear Commissioners:

In follow-up to the Action Plan I provided to you last week, I have decided on several appointments regarding senior staff positions. My criteria for these appointments consisted of recognizing those individuals who have already demonstrated a strong commitment to the Department's mission and values statements, possess excellent management skills, and exhibit courage of their convictions.

My decisions are as follows:

Assistant Chief Richard E. Condon - Deputy Chief, Operations

Battalion Chief Harold E. Gamble - Deputy Chief, Administration

Battalion Chief Aaron C. Stevenson - Assistant Chief, Division of Fire Prevention and Investigation

Battalion Chief James R. Cavellini - Assistant Chief, Management Services

Battalion Chief Frank Cercos, III - Division Chief, Division 2

Binnie Singh - Executive Assistant to the Chief

If you have any questions, please do not hesitate to contact me. Thank you.

Respectfully submitted,

/s/ ROBERT L. DEMMONS
Chief of Department

4. REGULAR CALENDAR - NEW BUSINESS

F) Public Comment (Continued)

Chief Demmons noted that during his first week as Chief there has been a lot of discussion in terms of who is going to be placed in these positions. It was done with a great deal of thought and consideration.

Vice President Roff suggested that it would be fitting for those new appointees present to stand and be recognized. Deputy Chief Condon, and Assistant Chiefs Stevenson and Cavellini were present along with Ms. Binnie Singh. They stood and were applauded.

President Fernandez-Ruel thanked the Chief for his letter and, on behalf of the Commission, congratulated the new appointees.

James Ahern, President, Local 798 - He thanked the Commission for the opportunity to once again welcome them as Fire Commissioners, which he did on January 16th, with a note of congratulations that was extended to the Commission, as well as the Chief. I certainly would like to extend congratulations to the recent appointees and to the families that are in attendance. The items that may be discussed in the future - working conditions and benefits - those are the issues that Local 798 as the recognized employee organization will continue to look forward to working with you and the Chief of Department on. These are the issues that impact our membership.

Charles Crane, President, Los Bomberos - I would like to extend congratulations to the new Deputies, Assistant Chiefs and Battalion Chiefs. I pledge my commitment to cooperate and help in any way that I can.

Meeting Adjournment

President Fernandez-Ruel commented that today's meeting will be adjourned in honor of the memory of John J. Grimes, Ph.D., a long time friend and dedicated supporter of the San Francisco Fire Department, and Chairman of the Board of Trustees of the St. Francis Hook & Ladder Society. Dr. Grimes died suddenly on Friday, January 17, 1996. She called for a moment of silence in honor of the memory of Dr. Grimes.

5. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

9:30-9:55 a.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned in honor of the memory of Dr. John Grimes at 10:00 a.m.

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from meeting of 01-09-96)

Formal Hearing concerning formal complaint filed by Joseph A. Medina, Chief of Department, on January 2, 1996, against Firefighter Gordon E. Leidecker, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

6:12-6:23 p.m.

Deputy City Attorney Michele Modena-Kurpinsky represented the City. James Ahern, President, Local 798, represented Firefighter Leidecker, who was present.

Mr. Ahern requested a closed session which was granted by President Fernandez-Ruel.

Deputy City Attorney Modena-Kurpinsky read the negotiated settlement, which was accepted by Mr. Ahern, on behalf of his client.

The negotiated settlement is summarized below:

... Termination by the Fire Commission held in abeyance for three years on the following conditions:

Firefighter Leidecker shall plead guilty to the pending charge; he shall be suspended for 90 days, December 30, 1995 through March 28, 1996; he shall enroll in a department approved drug counseling program and prior to returning to duty personally present proof of completion to the Deputy Chief, Operations; he shall submit to random drug testing for three years; prior to returning to duty he shall contact the Department Physician to make an appointment for a physical examination, including a drug screen.

Firefighter Leidecker pled guilty to violating Section 3912 (Intoxicants/Drugs).

By a roll call vote of 4-0, the Fire Commission accepted the terms of the negotiated settlement.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

5. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation

Submitted four letters commending members of the Department for response to requests for assistance or emergencies.

President Fernandez-Ruel directed that these letters be acknowledged and incorporated in the minutes of today's meeting.

Dear Chief Demmons:

Last Thursday evening, January 25, our school had the privilege of having one of your firefighters, Fernando Juarez, speak to our parent group on the topic of earthquake safety.

I want to tell you how pleased we were with Firefighter Juarez' presentation which was thorough, well spoken, clear and informational. It was the finest I have heard in the course of many years.

Thank you for allowing him to be with us and for the great information you are helping him to attain and give to others.

We pray that your work continues and that you and our other firefighter friends, Captain Richard Kochevar and his crew, will remain safe in the wonderful work you are doing for the people of San Francisco.

God Bless You!

Gratefully,

/s/ SISTER JOHN ELLEN TURNER, O.P.
Principal

January, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

Midtown Terrace Homeowners Association held its annual meeting on January 13, 1996. Over 75 residents of our neighborhood attended the meeting, the main purpose of which was to conduct the business of the Association. We felt it was a good opportunity to raise awareness of fire safety issues, particularly given the forested nature of our neighborhood and the threat of fire from downed branches and trees due to the recent storm.

Firefighter Fernando Juarez of the San Francisco Fire Safety section of the Bureau of Fire Prevention was able to attend our meeting to discuss these and other fire safety issues. Firefighter Juarez presented several fire prevention and awareness tips which were of direct interest to the audience. His animated presentation included a demonstration of the best way to exit a burning building, and I believe this had a definite impact on the audience.

Thank you for allowing Firefighter Fernandez to attend our meeting as a representative of the Fire Department. He gave an excellent presentation and was able to expertly answer the questions which were asked afterwards. We appreciate the inconvenience of attending a Saturday afternoon meeting, and thank Firefighter Fernandez for spending this time with us.

Sincerely,

/s/ STEPHEN X. NAHM
President

Dear Chief Demmons:

I am writing to extend my thanks for excellent service from the San Francisco Fire Department. There was an incident at our headquarters on Ceaser Chavez Street this morning. The fire people were professional and courteous. They dealt with the problem quickly. Knowing that you provide this level of competence, puts my mind at ease.

Once again, thank you for your help.

January 16, 1996

Dear Chief Demmons:

Thank you for sharing your wonderful "Fireflies" program with my third grade class at Cabrillo Elementary in Pacifica. The presentation given by Firefighter John Rocco was very well organized and educationally appropriate for the elementary level. Firefighter Rocco grabbed their attention right away with his uniform; he engaged their attention by asking them questions, listening intently to their answers. The role play activity was also very effective. The children were also very appreciative of the fire hats, stickers and activity book. I know that all of the students learned a great deal of important safety information, and they really enjoyed Firefighter Rocco. It is unfortunate that the Pacifica Fire Department, as well as others, do not have such an excellent program to share this vital information with our children. Keep up the great work!

Sincerely,

/s/ MICHELLE FRISCIA

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I would like to take this opportunity to express my gratitude to Captain Moreno and his staff at the Bureau of Equipment for the support DET received druing the last big storm.

As you know, communications plays an important role in such critical times and the Radio Shop was without power for six hours. The Fire Department's Bureau of Equipment supplied DET with a generator, fuel, and the required power cord adapters. This allowed DET to continue service to emergency vehicles until power was restored.

Captain Moreno's assistance in helping the Radio Shop provide service to all City agencies sets a fine example of inter-agency cooperation and is greatly appreciated.

Sincerely,

/s/ H. DANIEL MC FARLAND
General Manager

4. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation (Continued)

January 16, 1996

Fire Commission
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Commissioners:

I am writing to personally thank you for your commitment to the San Francisco Fire Fighters' Toy Program. This program is truly one of our finest holiday traditions here in the Bay Area. I speak for the children and single mothers in expressing our sincere thanks and appreciation for the efforts of yourself, Firefighter John Voelker, Lieutenant Gregory Stewart, and all the participating firefighters and volunteers who sustain this excellent program.

Working together with the community you all succeed in bringing joy to thousands of children and hope to their parents. Being a single mother in an urban area can be a lonely business. Somehow your program affirms a sense of community and a feeling of being a special part of this community we all live in. An old African proverb says that it takes a whole village to raise a child. Well, this truly exemplifies your program. To me, the Toy Program represents what is best and finest in our challenging times. Their efforts affirm that there are all kinds of people who care and who are reaching out in love and generosity to help children.

I have an eleven year-old daughter, Natalie Holland. As Nat's mother, I have a special reason to thank all of the people who keep the Toy Program going. Natalie loves science, particularly astronomy. She has always been interested in things that are very large and things that are very small. Nat had a wish list. Topping her list were a telescope and microscope. Thanks to the efforts of Firefighter Voelker, Lieutenant Stewart, and the other volunteers, Nat had a lovely Christmas in which her dreams of seeing things large and small came true.

In September, Natalie had fallen off the base of the Fort Funston cliff. She had fractured her elbow and experienced a difficult healing. Through it all Natalie met her challenges with courage and positive. I wrote a letter to Firefighter Voelker about Natalie's love of science, her wish list, and her accident. The response of everyone in the Toy Program was loving and generous. I am still overwhelmed with gratitude and thanks. This is why I write this letter of thanks to each and everyone who makes this program possible.

Firefighter Voelker and Lieutenant Stewart gave Natalie and I a personal tour of the firehouse. We met many of the wonderful people behind this program. We met the firehouse dogs - Nat loved this! We visited the Mother Teresa Soup Kitchen. Natalie was not familiar with her life and work so this gave us interesting conversation on the way home. We learned a lot about the people behind the scenes who make up the San Francisco Fire Fighters' Toy Program. It was truly an experience neither of us will ever forget.

A) Letters of Commendation (Continued)

Natalie and her 15 year-old brother Herman are enjoying the telescope, microscope, and other wonderful things given to her. She has put stars and constellations on the ceiling and walls of her room. Herman is working on an extra credit project for his Biology class. Natalie is now a Science Editor for her school newspaper. Her last article was on Brown Dwarf stars. The one she is writing now is on the "Birthplace of Stars" and she is hoping to interview the Bay Area astronomer who recently discovered two new planets.

As the mother of Herman and Natalie I thank you and all the people who made our wonderful Christmas possible. As I look around our house - everywhere I look, I see stars.

Sincerely,

P.S. Natalie and I hope that by our letter and Nat's interview on Channel 2 we have helped the San Francisco Fire Fighters' Toy Progrm. If there is anything we can do to help in the future please let us know. Thanks again.

Dear Commissioners:

Thank you for everything you do to help kids. I like all the things I received from the Fire Fighters' Toy Program. I love my telescope the most. I am trying to learn all I can about the universe. I'd like one day to be an astronomer. I have been having a lot of fun using the microscope and other things the firefighters gave my brother and I. My brother is using the microscope in his Biology class for some special projects. I want to thank you and everybody who helps with the program. I really enjoyed the great tour of the firehouse. I like going to the Mother Theresa room and meeting all the people who help with the Toy Program. Thanks for everything!

Love,

/s/ Natalie

P.S. I really enjoyed meeting the firehouse dogs! Thanks again.

Dear Chief Demmons:

I want to thank the San Francisco Fire Department for their quick response to a medical emergency at 23 Mayfair Drive, San Francisco, on January 20, 1996. My close friend of 42 years, Mildred Strouss, who is 101 years old, needed medical assistance. The crews of Truck 10 and Engine 38 did an outstanding job. Thank you!

As I am writing this, my sad thoughts come to mind that my husband Richard died in September 1993. A few weeks prior, he needed help, having suffered a heart attack. Your people from California/Presidio/Pine were here at the house then and also the day of his death - giving him necessary medical needs and personal attention to myself. I think, our son, John, a San Francisco firefighter, took care of expressing our heartfelt thanks for your immediate response. At that time, I overlooked sending my personal thanks, but as I look back at those difficult days I am grateful to the San Francisco Fire Department for your kind and immediate help.

Gratefully,

Dear Chief Demmons:

I am writing this letter to commend your Uniform Depot Supervisor Dorothy Teupel. In the last two years Dorothy has been an immense help in the procurement of properly fitting female dress uniforms and turnouts for myself. Dorothy always has a wonderfully pleasant and professional disposition, even when there are many on-line personnel as well as retired personnel in the warehouse at once, and all making demands for her as it has been with some of my visits.

The responsibilities that Dorothy's job entails are tremendous! Many large departments have personnel to fully staff their uniform depots. Not only does Dorothy have complete understanding and dedication to her job but the hours that she puts in to make sure her on-line personnel are safe is incredible. I've called and spoken with her not just from eight to five on weekdays but also after hours and weekends, too.

Dorothy infinite knowledge, and her affiliations with numerous departments and related businesses make her an invaluable asset to myself, and surely one to your department. My hats off to her and to the service that only she can provide!

There were no questions or discussion and Resolution No. 616 was adopted.

C) Presentation - Emergency Medical Services

Representatives of the SFFD will make a presentation concerning the Fire Department's role in Emergency Medical Services (EMS).

S. Marshal Isaacs, M.D. - SFFD EMS Medical Director 9:07-9:11 a.m.

Good Morning. President Fernandez-Ruel, Commissioners, and Chief Demmons, my name is Dr. Marshal Isaacs, and for nearly the past two years I have been the EMS Medical Director for the San Francisco Fire Department (SFFD). I also am the Medical Director for the Department of Public Health (DPH) Paramedic Division. In these roles, it is my first and foremost goal to ensure that the residents of and visitors to San Francisco receive the highest quality pre-hospital emergency medical services available.

I am extremely proud of the efforts during the past two years of the members of the medical services staff of the Fire Department. I am also extremely proud of the 700 EMT'S within the Department, who along with the City paramedics work on the front lines of our health care system to ensure that the "safety net" is strong and secure. That emergency safety net must catch and offer the best possible care to our indigent residents and our insured patients alike. for we exist to serve anyone who requires immediate access to our emergency health care system.

The previous administration's Fire Commission and Chief Officers were extremely supportive of the medical services' efforts to develop the best Basic Life Support and Early Defibrillation programs available in the world. However, our work is not completed. Today, you will receive some initial education concerning EMS systems, the role of fire departments within those systems, and the current high quality SFFD medical programs being managed by the SFFD medical services staff. You will learn a little about EMS system design and configuration, and you have no doubt already heard about discussions occurring concerning the future of EMS delivery in San Francisco.

4. REGULAR CALENDAR - NEW BUSINESS

C) Presentation - Emergency Medical Services (Continued)

We are not here to discuss the details of those discussions, first, because they are preliminary, and second, because to fully understand that discussion, a good basic understanding of EMS principles is essential. It is my understanding that Dr. Sandra Hernandez, the Director of Public Health and Dr. Mitch Katz, the Medical Director of the City's EMS regulatory agency have been in contact with Chief Demmons and hope to present the system configuration study and its recommendations in more detail at an upcoming Commission meeting.

I hope you enjoy this morning's presentation. Once concluded you will understand that EMS system design is a complicated subject. It is extremely important to recognize that there is very little in the way of good scientific evidence to support a significant advantage of basing an EMS system in one City department over another, simply in terms of patient care and outcome. What does make a very important difference to our patients is the demonstrated commitment by the department responsible for providing EMS to offer the highest level of administrative support, education and training, Quality Improvement activities, and resources so that its personnel are empowered to provide the highest quality care to our patients.

I am here to ask you to recognize the importance of medical services within the SFFD and to take the necessary steps to ensure that medical services receive the tools and resources commensurate with the importance of its role, both to the residents of San Francisco and within the Department itself. To do this, medical services needs to establish a frequent ongoing dialogue with and be given access to the highest ranks within the Department as well as this Commission. In addition, it is essential that the Department immdiately begins to inform and educate its officers and rank and file members with the understanding that if there is to be an expansion of the role of the Fire Department in our EMS system, that buy-in from those front-line personnel is necessary so their role is seen not simply as a job, but as a Mission.

Thank you for asking us here today. At this time, it is my pleasure to introduce Lieutenant Anthony Smerdel, who has served as the Department's EMS Coordinator for the past five years.

From 9:11 to 9:45 a.m., Lieutenant Anthony Smerdel, Captain Richard Shortall and Lieutenant Anthony Robinson presented a combination slide and oral report covering their respective areas of expertise, which are summarized on the next page.

(A tape was made of their remarks and is available upon request.)

*Includes comments and questions from Commissioners and the responses to those questions

In summary, he thanked the Commission for their time and attention, it has been a pretty heavy session. For the last eight months he has had the pleasure of being the co-chair of the Response and Transportation and Communications and Dispatch work groups of the EMS Configuration Study. He has been immersed in this project for eight months and he realizes what it takes to get a good grip on this issue. What we tried to do today for you is to paint with a broad brush, the big picture of EMS in the City. As Dr. Isaac said, Drs. Hernandez and Katz would like to set up a presentation for you and the administration concerning the configuration study that was presented to the Health Commission on February 20. It was fairly lengthy, had a lot of vision, and a lot of ideas as what would be best for EMS in San Francisco. When the Health Department's presentation is made to you, today's introduction will help your understanding of the EMS issues. He asked if members of the Fire Commission had any questions or comments.

Commissioner Nakajo commented how grateful he was as a Commissioner to be able to hear this presentation. As a Fire Commissioner he wants to be knowledgeable

C) Presentation - Emergency Medical Services (Continued)

about the issues. He also had an opportunity since being appointed to read a lot of material. He noted that he is a senior citizen executive director with about 30 years of working with individuals, and in terms of medical services or the access of the fire department compared to when he grew up it is quite different now. The people he deals with very often are in an economic class where situations of health or medical appointments or medicine deter them from getting to the hospitals. They rely upon hospitals and medical plans for their coverage. In terms of 9-1-1, it is very correct that people do not have a real understanding beyond that emergency situation. It is very difficult to tell the individuals how to describe what the emergency is. For example, for the last few years we have been trying to get the 9-1-1 written in Japanese because all the other languages have it. Simple situations like that frustrate my community and myself just in terms of trying to do something concrete. Several of my questions were answered during the presentation in terms of training, separation of paramedics and fire department. This is sometimes difficult to determine because of the different uniforms and the different types of vehicles used by emergency personnel. He also witnessed scenes where a paramedic is present then an engine pulls up, the situation is being dealt with but there are seven or eight people present. Now as a Fire Commissioner he is looking at the situation from a different perspective: time, and cost factors. Community education was twice mentioned. As a non-profit senior citizen organization with 65 employees, and at our site we may have more than 300 senior citizen present, CPR and first aid skills are crucial. We can't get that training. Traditionally, the Red Cross was there. Now if you can get it scheduled it costs $100-$150 for that session. We also run a para transit and I don't know how many are aware of the fact that drivers need to be responsible for its passengers. I really want to respond to the community education component. As to the percentages between fire calls and emergency medical calls, this presentation gives me a good look at that. In my mind the concept of what a firehouse represented to the community is quite different in terms of some of the visions discussed today. I am very interested in the follow-up, what the cost is, how services will be integrated in the context of resources and budget. I very much appreciate the presentation.

President Fernandez-Ruel thanked everyone for the presentation. She has been reviewing a lot of material regarding this subject since her appointment. Recently, Vice President Roff and I met with Dr. Sandra Hernandez and Dr. Mitch Katz regarding this issue. One thing of concern to me when you talk about combining services and working in a coordinated team approach to provide medical services, is the adequacy of the supervision. I wonder if you can address this topic, because when you talk about coordinating three different groups as we are now, with the possibility, at a later date, of looking at having all of these services under one umbrella, how do you envision quality supervision for people out in the field. Battalion Chief Groshong replied that supervision in the field is one part. Part of the presentation included the

4. REGULAR CALENDAR - NEW BUSINESS

C) Presentation - Emergency Medical Services (Continued)

City's plan to build a new combined emergency dispatch center located right next to the Communications Center. The management of that is being discussed now. As to the field supervision he asked Captain Shortall to reply. Captain Shortall stated that when the opportunity arises for the joint presentation to the two Commissions this will be dealt with at length. One of the things that was looked at in the configuration study was just that issue. The important things you need to have are medical control from the top, a full time medical trainer, and field supervision. Under the proposed system there will be a number of supervisors whose sole job will be critical care issues in the field. There will be a much larger field and medical oversight to the program.

President Fernandez-Ruel said her second question dealt with the issue of response to 9-1-1 calls and to make sure that the appropriate personnel respond to the specific emergency. Battalion Chief Groshong said that the Communication and Dispatch work group spent a long time on that issue. The C-Med dispatch for the paramedics shortly will be introducing what is called priority dispatch. In the future, C-Med will be able to dispatch more appropriate apparatus. If the concept of paramedics on fire engines is implemented then it will be much easier to maximize service to response. If the fire department becomes involved, with its 41 stations, it will be much easier to send the right kind of apparatus to the calls. Dr. Issacs said that currently our system has only one level of response, that is to send two paramedics in an advanced life support ambulance. Many people feel that this is an inefficient use of scant resources ... (tape turned) ... You will hear all of the recommendations in greater detail when Drs. Hernandez and Katz make their presentation, you will be looking at issues that will affect patient care, and how to better utilize our resources.

Commissioner Soulis thanked everyone for their presentation. I took notes on several of the items discussed, including 9-1-1 and community education. We don't have to wait for any possible merger to get that out to the public through TV or otherwise. It should be done first. We have to educate and inform the public first and the other things will fall into place. Has anyone looked into using TV and radio spots. Battalion Chief Groshong replied that the community education group looked at that and this information will be presented to the Fire Commission later on. Dr. Isaacs said it was a huge effort, there are so many agencies and groups that are interested in getting a specific portion of the message out. The community education work group looked at establishing an integrated/coordinated system whereby we can do the job once and for all in the best possible manner.

President Fernandez-Ruel referenced Lieutenant Smerdel's presentation when he indicated the EMS now reports to the Division of Training. She sensed that there is a view that it perhaps needs to be its own division, and wondered if there has been any discussion regarding that. Is there a plan to make this a

4. REGULAR CALENDAR - NEW BUSINESS

C) Presentation - Emergency Medical Services (Continued)

separate division. Chief Demmons replied that no one has said anything to him about this matter. One of the things that we are planning is to look at the entire structure of the Department. This would obviously include EMS and any other unit. Dr. Isaacs said that we have a window of opportunity here. The window isn't open extremely wide and it won't stay open forever. If we are going to demonstrate that we truly believe that EMS are an integral part of the fire department's service the time for action is now. Lieutenant Smerdel stated that currently he is the only budgeted position within the EMS program. He began managing this program in 1991. Due to all the efforts of the staff here today we have really developed EMS into a first rate program. This year we are a stand alone item in the budget, but we are not where we really need to be to justify what the Department does as a whole in emergency services. He reports to Assistant Chief Tabacco at Training but there are two very different training issues here. One is fire suppression, the other is emergency medical. Our administrative and operational duties are very different in nature. If there were to be a merger where the fire department assumes more responsibility, where do we put these individuals. We don't have a home for them. President Fernandez-Ruel commented that this is more than a training issue, it is an issue of function that needs to go through some sort of reorganization discussion. Lieutenant Smerdel commented that, as he stated earlier, the previous Commission and administration were very pro in this matter, they passed a resolution, the Chief was in the process of creating a stand alone project for EMS. President Fernandez-Ruel indicated that such a decision would require a change in command and supervision where someone heading the division would obviously be reporting to the Chief of Department. We are talking about a lot more than just training, we are talking about creating a division and assigning personnel to be managers for this. Chief Demmons commented that in the month since the new administration has been in place he noticed that there have been coordinating problems, and we are going to start addressing those issues. There is a commitment on his part for EMS, but the question is how we make this all work. President Fernandez-Ruel said these are things that need to be looked at not as a part of the reconfiguration process but what we are talking about here is restructuring internally to provide service. Chief Demmons responded as to President Fernandez-Ruel earlier questions about supervision in the field. You have both a medical person and a suppression person, who is in charge of the fire station. This could create problems that have to be evaluated. President Fernandez-Ruel said that once we talk about supervision and quality of services we also have issues of liability when service is not provided adequately and there is not sufficient monitoring and supervision in the field. Even if we were not to have this reconfiguration or combination we still have an internal situation that we have to deal with immediately so that we can provide current services in the best possible manner. Chief Demmons said there arises the question of budget as well.

4. REGULAR CALENDAR - NEW BUSINESS

C) Presentation - Emergency Medical Services (Continued)

Vice President Roff commented that it struck him, having read some of the material and heard this morning's presentation, that a strong predicate was made for everyone to move forward to the next step whether it is meeting with Dr. Hernandez, as quickly as practical or some other step. He thought that the written material presented to the Commission (Fire Department's EMS annual report and the Configuration Study presented to the Health Commission on February 20) were splendid reports. He was very impressed with the detail, thoughtfulness and lucidity of the "Optimizing the Configuration of San Francisco's Emergency Medical Services" report that was presented to the Health Commission. It provides a foundation to build upon. We are at a very exciting threshold, the change would be beneficial to the City as a whole. He praised Dr. Isaacs and the fire department's uniformed staff for an excellent presentation. He also praised the fire department's progress over the past several years in the field of medical services. We all have friends or relatives who have been assisted by the fire department. We are moving forward, but now the big step comes.

Commissioner Soulis suggested that, as the President indicated, that we should do our own thing. It is something we should go ahead with, the possibility of the merger between departments is a long way off, there are a lot of problems to solve. We should expand the services within the fire department; to increase training, etc. That should start now. I think the Chief is already moving on this by appointing Deputy Chief Condon as the point person for EMS.

President Fernandez-Ruel commented that she would hate to see that if we are looking at function now and possible internal reorganization that we put that on hold in anticipation of some combination in the future. Because if we do have a combination in the future we have to be ready to proceed. So you have to start looking at your internal structure now, and whatever type of reorganizing effort that needs to take place. If that is what management is going to recommend in the end, I don't know. But there seems to be some sort of indication here that it is possibly something we should look at.

Vice President Roff noticed that mention was made of disaster planning and various categories of disaster and wondered if there is a coordinating agency now. Battalion Chief Groshong said that under the big umbrella it is under the Mayor's Office of Emergency Services (OES). They conduct ongoing training. It is somewhat fragmented because we have a different schedule than the paramedics. It has been difficult trying to coordinate all this among the different agencies; the police have schedules that are different than fire and paramedics. They do a great job, but there are only four people in OES, and it is a tremendous effort to get it all together right now.

4. REGULAR CALENDAR - NEW BUSINESS

C) Presentation - Emergency Medical Services (Continued)

Commissioner Roeca commented that he had received a number of phone calls from persons who were familiar with what occurred over the weekend in Pacific Heights where a deck attached to an apartment house collapsed. He just received a letter from an individual who lives near the scene of the tragedy, and he lavishly praised the work of the Fire Department. Both he and the community are appreciative of that service.

Commissioner Roeca commented that what is being raised here is so important because we are seeing that there is an inefficiency that we can deal with. As a Commissioner, and I hope the entire Commission, we are ready to meet in special session as needed to accomplish what needs to be accomplished as quickly as possible. One of the things pointed out here is the need to further reinforce in our community that the firehouses are community centers, and that people should feel welcome. Talking about function level, liability issues, we are liable no matter what, as a department, no matter how we are handling it. We know we can do it better, and we know we can restructure to do it better, and we are doing our best to eliminate liability issues. I encourage us all to work together, and to get everyone who has a piece to say to come before us so that we can, in fact, make it a mission of the department.

President Fernandez-Ruel thanked everyone for a wonderful presentation. It not only provided us with a great deal of information about the future as well as internal issues that we expect Chief Demmons and his staff to be addressing soon. She understood that a management retreat has been scheduled and maybe this is one issue that can be discussed, along with many other issues identified by the Chief. She thanked Dr. Isaacs and each of the uniformed officers of the Fire Department.

M) Temporary Appointments

Reporting having made 281 temporary appointments February 10 through February 23, 1996.

Vice President Roff moved and Commissioner Roeca seconded. There were no questions or discussion and Items "A" through "M" with the exception of Item "K," Page 6 (Engine 3), on the Consent Calendar were adopted or ordered filed as appropriate.

3. CONSENT CALENDAR
(Item Removed)

K) Accidents

Submitting reports and recommendations of the Accident Committee regarding the following accidents:

| | Accident No. | Date | Serial No. | Category | Recommendation |
|---|---|---|---|---|---|
| Engine 3 | 94-5-266 | 02-03-96 | 507 | B | Bill |

Off: Lt. George Ripoll; Drv: FF Timothy Sullivan

Cause: Eng 3 was responding to an alarm when a van struck Eng 3's left front bumper

Vice President Roff moved, seconded by Commissioner Soulis, that the President of the Commission be directed to abstain from voting on the removed item. President Fernandez-Ruel stated that the reason for her abstention is that she was a witness to the accident involving Engine 3 and to avoid the appearance of conflict the Commission has directed that she abstain from participating in the vote. There were no further questions or discussion and by a vote of 4-0 President Fernandez-Ruel was directed to abstain from voting on the above item.

Vice President Roff moved, seconded by Commissioner Roeca, that the Accident Committee's report involving Engine 3 be adopted. There were no further questions or discussion and the motion was adopted by a vote of 4-0.

A) Formal Hearing (Cont'd from Meeting of 02-13-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on January 19, 1996, against Firefighter Victor Puebla, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

Deputy City Attorney Matthew Davis represented the City. James Ahern, President, Local 798, represented Firefighter Victor Puebla, who was present.

Mr. Ahern requested a closed hearing, which was granted by President Fernandez-Ruel.

Recess : 6:32-6:35 p.m.

After some discussion, Mr. Ahern requested a continuance until Thursday, March 28, 1996, at 6:00 p.m.

The Fire Commission granted the request.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

As you know, on January 30, 1996, an accidental breakage of an 8" sprinkler main caused flooding in the Sub-basement and Basement levels of the War Memorial Opera House which is undergoing seismic renovation. The Fire Department was called and Battalion 4, Engine 3, Truck 3, and the Utility Unit from Engine 21 came to the rescue. Their timely response and courageous, hard work prevented what could have been severe damage to the building.

As you can imagine all of us who are involved with this project are very grateful and we wish to offer special thanks to Battalion Chief Ray Balzarini (Battalion 4), Lieutenant John Payne, Firefighters Zachary Nathan, Kevin Pardini and Eric Sadler (Engine 3), Captain Alson Lee, Firefighters Francis Kelly, Edward Martinez and Hugh Smith (Truck 3), Lieutenant George Artemoff, Firefighters Philip Lee, Michelle McCoy, Kathleen McElheney and Larry O'Brien (Engine 21).

Thank you again!

Sincerely,

Dear Deputy Chief Condon:

On behalf of the San Francisco General Hospital's Emergency Response Committee, thank you for helping make the Second Annual Earthquake Preparedness Fair such a rousing success. Because of the efforts of Lieutenant Richard Lauer and Battalion Chief Frank Cardinale, employees of the San Francisco General Hospital and members of our surrounding community as well as their families are both more informed and more prepared to weather any adversity that might be associated with an earthquake in the Bay Area.

We hope to call upon you again next year for your support and assistance and we appreciate any comments or ideas on how to improve the fair.

Again, thanks for all of your help, and we look forward to working with you next year.

Sincerely,

February 12, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

For the last three months, Modesto Fire Department (MFD) has attempted to locate a helmet in a size unavailable through regular safety equipment distributors. Our effort included hours on the phone, helmets shipped and returned, and still had an unresolved safety issue.

Through conversation, MFD Firefighter Teal came in contact with Ms. Dorothy Teupel, Materials and Supplies Supervisor for the San Francisco Fire Department. Since we had exhausted all avenues with our existing suppliers, our department decided to have Firefighter Teal meet with Ms. Teuple. Ms. Teupel provided a wealth of information regarding safety equipment. In addition, she was able to fit Firefighter Teal with a helmet from her inventory. Since Firefighter Teal did not anticipate locating a helmet to fit, he was unable to compensate your department. Ms. Teupel provided the necessary billing document for our Purchasing Officer to make payment as well as the helmet for Firefighter Teal.

Ms. Teupel's action exemplifies the professionalism of your organization. For her to take time out of her busy schedule to help us resolve this issue is truly appreciated and continues to demonstrate what the "Fire Service" stands for.

Not only did Ms. Teupel demonstrate the hospitality of your organization but the personnel at one of your fire stations insisted Firefighter Teal stay and have dinner with them.

As you can see by the issue of the helmet size, Firefighter Teal has, shall we say, a large appetite and truly enjoyed himself while in the San Francisco Fire Department.

I would like to say "thanks" to you, Ms. Teupel, and your very fine organization. If we can ever be of assistance, please let us know.

Very truly yours,

/s/ GARY HINSHAW
Support Division Chief

Dear Chief Demmons:

Firefighter Fernando Juarez came to our classroom here at Lincoln High School on two different occasions. He spoke to the students on many topics. He was truly enjoyed by my students! The students have written to him and from these writings, I note that much was learned. Firefighter Juarez was prompt, cordial and a source of pride to the San Francisco Fire Department. I knew that you'd want to be aware of this.

Dear Russ:

As I stated on the phone last night, I could not have been more impressed with the speed, efficiency and expertise shown by the San Francisco Fire Department when a crowded balcony collapsed at 2003 Franklin Street around the corner from my apartment, killing one and injuring 13 others. I have no doubt that the toll would have been vastly worse had not the Fire Department responded speedily and with great strength.

Many neighborhood folk watching this disaster area commented on how obviously well trained the Fire Department personnel were and the calm deliberation of their rescue efforts.

Please commend the officers in charge, they clearly deserve great praise from a grateful San Francisco. We are very lucky to have such dedication at our service.

A) Letters of Commendation (Continued)

February, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I am writing this note to compliment Station 33 on their quick response to my 911 call on February 20, 1996.

I made the call for assistance in getting my husband back into his wheelchair. My husband had had a massive stroke seven years ago and he has not been able to walk since that time. He had always been able to help me, however, when I went to assist him I found he had no strength, either in his arms or legs. Without his being able to help, he continued to slip from his chair. So that was when I placed my 911 call. The response time was three minutes and the three who came were simply great and had him safely in his chair in less than five minutes.

I feel these three deserve to be recognized: Lieutenant Bryan Rubenstein, Firefighters Gary Altenberg and Tracie McCulloch. Tracie and Gary worked hard with my husband and Lieutenant Rubenstein tried to calm me down, the empathy and understanding he showed me was definitely a "call above his duty."

Hopefully I won't have to call upon 911 again, but if so I know I have help just a few minutes away.

Please let this group know how much they were appreciated.

Sincere thanks,

/s/ MYLES AND MARIE FYNE

C) Personal Services Contract (Cont'd from Meetings of 01-09-96, 01-23-96 & 02-13-96)

Submitted for review and adoption a proposed personal services contract in the amount of $295,000 from CORE Corporation for H20 Lieutenant and H40 Battalion Chief examinations.

Commissioner Nakajo moved and Commissioner Soulis seconded.

Commissioner Roeca commented that the Calculation of Charges (Appendix B, Page 19 of the contract) and the amounts set forth therein in Paragraph 3, A through I, appear to be in bulk sums. He would expect that those amounts would be submitted on an hourly basis setting forth what services were rendered and their cost, as opposed to simply a bulk sum. Secretary Connors stated that he would direct the person handling the contract to make sure that the invoices are submitted in the format suggested by Commissioner Roeca.

Audry Lee, President, Black Firefighters Association, inquired if this contract was going to be put out to bid or will it be a continuance of what the last administration set up with CORE Corporation. Chief Demmons replied that this consultant has been working under the Consent Decree and the issue came up last year. At that time it was discussed that because the way this consultant has been handling the exams that it had been approved by the court, adopted by the City which essentially gives the City ... which the City Attorney can confirm. President Fernandez-Ruel asked Loretta Giorgi, Deputy City Attorney, to elaborate. She commented that since the inception of the Consent Decree there has been a desire and need to develop examinations that will reduce the adverse impact that the City experienced in the past. Dr. Sheldon Zedeck was retained by the City, has been approved by the Court and has been the on-going test expert for several years now, since the inception of the Consent Decree. Given the fact that he has been approved by the Court, given the fact that we have had a continuing relationship we believe he is the best person to continue developing these exams. On that basis we will continue to use him.

There were no further questions or discussion and the proposed personal services contract was adopted on recommendation of Chief of Department.

D) Recruitment

Submitted for adoption the 1996 H2 Firefighter Recruitment Plan.

Secretary Connors indicated that prior to the meeting each member of the Commission received a proposed amendment to the plan incorporating the suggestions of the Plaintiff/Intervenors. The amendment is contained in a two-page memo from Assistant Chief James Cavellini to Chief Demmons dated March 13, 1996. Vice President Roff moved, seconded by Commissioner Soulis, that the amendment to the Recruitment Plan be adopted.

Audry Lee, President, Black Firefighters Association, noted that he saw that a lot of expenses were appropriated to target certain groups and he wondered if funds would be available for all the other groups, maybe not to the same magnitude. Assistant Chief Cavellini commented that the Hispanics and Asian women are the targeted groups because they are the groups from which we need to gain greater numbers to comply with the goals of the Consent Decree. Our target emphasis will be on those groups. We will still continue to target all minority or impacted groups with our recruitment. The dollars expended for those targeted groups are required for the TV and radio spots. There will be other types of advertising and recruitment efforts toward other groups, but not as extensive in terms of dollars. Mr. Lee commented that in the Recruitment Strategy Plan it said there would be advertising for one month and for the other groups it won't be for a month. Assistant Chief Cavellini responded that the effort will be made to all groups throughout the recruitment period, which is actually for three months. President Fernandez-Ruel commented that she thought that the outreach would be more intensive for these particular groups - the Hispanics and Asian women, because their numbers are low at this point. The focus will be to achieve the Consent Decree goals. But the outreach will be to everyone.

Commissioner Nakajo commented on the amendment to the Recruitment Strategy. He was very pleased that he was given the opportunity to identify more resources for recruiting Latinos and Asians. He was pleased to see the inclusion of an "attrition report" as one of the suggestions made by the Plaintiff/Intervenors in the amendment. In terms of recent gains among minorities one could look at the statistics and say we are doing well, but in terms of the bigger picture we haven't achieved equity. He was also pleased that the Department will be looking at candidates with bilingual skills.

Ariston Armada, Vice President, Asian Firefighters Association, commented that the discussion on this item provides a segue as to the purpose of his presence at the meeting. The Asian Firefighters Association is well aware of Chief Demmons' position in encouraging diversity in the Department. We and the Chief are both well aware that the two most impacted groups in the Fire Department are Asians and women, not necessarily Asian females. In the last five years, it has taken five years to hire eleven Asian women. We have a hard time getting

5. REGULAR CALENDAR - NEW BUSINESS

D) Recruitment (Continued)

qualified recruits. The problem we have right now is that the next recruit class - I don't know if we are going to have one or not - we have three viable candidates, three Asian women in that class. If you cancel the class that means that there are three women that we won't be able to bring in. We only have eleven now. Three is a tremendous number to bring in. He asked the Commission to accommodate the Asian women in the next class, bring them in, it doesn't have to be a large class. We really need them. If you bring them in it will be a good thing. You will show the Asian firefighters that we are tyring our best to bring in Asian women. It is a real problem for us. I don't know what the status of the next class is, but I do know that the list is going to run out in the next couple of months. I'd hate to lose the women because of a money issue. We don't have to have a class of 30, we could have a class of 10. I'll leave that to you to decide the logistics, but this is what we would like to see.

President Fernandez-Ruel thanked Mr. Armada for bringing this to the Commission's attention. Though it is not directly on point to the Recruitment Strategy it does remind the Commission to look at the issue and we will take it up with the Chief. What the status is and how it should be treated.

President Fernandez-Ruel commented that as to the Recruitment Strategy it is something that all Commissioners reviewed and one of the things brought up was that there was not adequate response from the Hispanic and Asian communities, particularly women, with respect to the advertising that the Department was providing. So, going back to the emphasis and adding some extra dollars along those lines, that was a recommendation made both by members of the Commission and the Plaintiff/Intervenors, who suggested we look very carefully at better sources for advertising and recruitment, to reach these two particular categories. That is why you see a special emphasis; the numbers need to be enhanced.

Assistant Chief Cavellini commented that he wanted to support President Fernandez-Ruel's comments and indicated that the number of dollars being spent for those groups is because we are going to language specific stations. There will also be advertisements on the English speaking stations as well, which will be aimed at the other groups.

Vice President Roff moved, seconded by Commissioner Soulis, that the Recruitment Strategy Plan as amended be adopted.

There were no further questions or discussion and the Recruitment Strategy Plan as amended was adopted on recommendation of Chief of Department.

Submitting monthly report from Division of Fire Prevention and Investigation concerning activities performed during March, 1996.

President Fernandez-Ruel asked Chief Demmons for a report. Chief Demmons commented that the Commission is well aware of the recent press coverage of the Bureau of Fire Prevention (R-1 and inspection). He stated that on January 24, 1996, the Fire Marshal (Assistant Chief Aaron Stevenson) began a needs analysis. Recently, the Department held a retreat to look at needs analyses for the entire department. We are accelerating and paying special attention to some of the concerns mentioned in the press, as well as our own concerns about the Bureau. As you know, in February (February 13, 1996) your Commission approved a request for supplemental appropriation in the amount of $45,000 to purchase nine computers for the Bureau of Fire Prevention (BFP), which will help us track inspections. The entire administration is committed to addressing all of the concerns raised, as we will make sure that we will meet our obligations to the citizens in terms of inspections, and making sure that any hazards are abated. We are looking at legislation and everything else to accomplish what has to be done. He invited Deputy Chief Condon to make some comments on this subject.

B) Monthly Report - Div. of FP&I (Continued)

Deputy Chief Condon stated in the past the Department had an inspection program called CRISP (Commercial and Residential Inspection Program) designed to inspect a combination of residential and commercial buildings such as a grocery store with apartments above. This program was in operation for several years. Engine companies inspected the buildings. In the early 1990's the State Fire Marshal mandated the fire department to inspect all R-1 buildings, which is a residential building with three or more units. At that time the administration tried to adapt CRISP into the R-1 inspection program. It had to be redesigned after two years because it was not working. We designed a state of the art computer driven program to allow us to do all our inspections. As being computer driven it would allow us to draw on the information and statistics in order to further our efforts to prevent fires and the loss of life. Since the R-1 mandates only the inspection of the public areas of the buildings we decided to start with the biggest apartment houses in the City, as they would have public areas. We targeted apartment houses with 16 or more units. The Fire Code requires these units to have an on-site manager. We could send our company officers in to inspect, and someone would be on the property to talk to and provide a tour of the building. The company officer would explain any code violations during the tour. These targeted buildings totaled 2,700. This program was put in place in great part through the efforts of Lieutenant Arthur Cofresi, Bureau of Fire Prevention. He continues to work on and develop this program. The next step was to take all buildings with nine or more units, and we are currently inputting data on these buildings. The problem we are having with the R-1 program is the way the State addresses it - we can only go into public areas of buildings. Most of the R-1 buildings in San Francisco really do not have public areas. They are three-unit buildings; they all have three front doors, and that is someone's home. This program does not inspect such areas. That is why we started with our major buildings first and worked down. The program is completed now, we have the final part in place. We are going to look into all the areas where we might have to improve our staffing. We are looking at funding sources. One of the problems with the State is that they mandate programs without providing the resources. We hope this program can support itself. To relieve some of the concerns expressed in the newspaper articles, this program is just one of the inspection programs that the BFP conducts. We have many inspectors and many different programs. Any complaints we receive are responded to within 24 to 48 hours depending upon the complaint's priority. They would not be reflected in the data banks. Also, as to the data bank, if we have five or six violations for one building those violations will show in the data bank until they are corrected, although many of the violations are corrected immediately. We still show violations, so we can track the history. One of the buildings referenced in the newspaper, said it had nine violations. Eight of those violations have been abated, we are still working with the owner on the ninth violation. When that is abated all

3. CONSENT CALENDAR

B) Monthly Report - Div. of FP&I (Continued)

the violations will be removed at once. The data does not truly reflect what is happening in the inspection process.

President Fernandez-Ruel asked if there was any way of adjusting the data bank to: (1) categorize the different types of violatins so we know what is serious and what is not, and (2) adjusting the program so that the corrected violations show up as corrections even though the owner (building) is still listed for follow up inspection. Deputy Chief Condon said he would talk to Fire Marshal Stevenson and, through Lieutenant Cofresi, we will see what can be done. The priority is given by the inspector. If there is something serious it is given top priority. Many of the violations listed in the articles, approximately 300, were for certifications, and that is a State requirement that the standpipe, sprinkler, or alarm system be certified by the owner, and it takes time for the owner to get a contractor. The systems are all up and running , it is just a State requirement that they be looked at every two years. Last year we distributed an office bulletin indicating that all certifications of alarm systems will be done by a certified contractor annually. They will be our partners in keeping the alarm systems up. So the BFP has been proactive in this area of fire prevention.

President Fernandez-Ruel inquired about coordinating efforts of other departments within the City that might be doing the same type of inspections, to avoid duplication of efforts in the field. Resources are so tight it would seem to me that the more coordination we have the better off we would be in terms of handling violations. Deputy Chief Condon replied that this has been brought up in the past through different department heads. It was called a super inspector. There are problems and advantages with that approach. In some areas we could do that, but each department has certain responsibilities and authority given to it. The fire department has State responsibilities, and part of the law says we cannot give these responsibilities to another department. The Housing Department inspects all R-1 buildings every three years. I spoke to the director today and we discussed the different areas we look at. They look at any hazards and they also abate. The building department and fire department work hand in hand on many inspections. Three years ago we put together a one stop permit center, where all departments work together, and that has worked well. Perhaps in the future we can put together a system where we will not duplicate our efforts.

Vice President Roff asked if these will be issues incorporated in the strategic plan. Chief Demmons replied affirmatively. Vice President Roff noted there was some newspaper references to residential hotels and asked for a status on those inspections. Deputy Chief Condon asked Fire Marshal Stevenson to assist in responding. Deputy Chief Condon went on to say that he has discussed this with Fire Marshal Stevenson and we are putting together an action plan that

B) Monthly Report - Div. of FP&I (Continued)

would go along with the strategic plan where these issues will be addressed. Fire Marshal Stevenson said that the hotels had been initially inspected, and what happens is that the abatement is still in process and that is where ... Vice President Roff asked if these were matters that are being looked at. Chief Demmons indicated that today we discussed the strategic plan and so many things that came out of the retreat. In addition to that the Fire Marshal, since January 24th, has been working on a needs analysis for the BFP. The target date for the complete needs analysis for the entire department is June 1, 1996. Vice President Roff said he felt the department should be complimented for undertaking this totally, at least in my experience, and thorough and painstaking analysis of its needs and its future. It is unique and shows enormous intitiative, and we are all waiting to see the outcome of your findings.

Fire Marshal Stevenson indicated he wanted to respond to President Fernandez-Ruel's question when she referenced the management information system in terms of the data. We are working on that as we speak. We have a lot of internal expertise and we have been developing where it will be integrated, so each of the specific items can be shown as a specific field and categorized. President Fernandez-Ruel thought that would be important. There are certain things that you have to obviously respond to right away. It also is important to coordinate things with the City Attorney's office because if owners do not respond immediately in correcting violations, we do have legal recourse. Deputy Chief Condon said when people do not comply with our orders to abate we have two methods to use: we have an accelerated code enforcement officer who will work with the City Attorney and other departments. We create a task force. The other method is to use the ordinance that states if a person does not correct and refuses to pay a reinspection fee, after two notices, we can place a lien on the property. In the latter case we also work with the City Attorney's office. Deputy Chief Condon indicated that the fines go into the general fund, along with all other revenue ($2.5 million) generated by inspection activities. The cost to operate the BFP annually is $4 million. Through ordinances we are allowed to recover our inspection costs. However, the City provides some free services (day care) so we can never recover 100 percent. We recover full costs for high rise ($600,000), plan checkers ($600,000), and permit section ($600,000).

Chief Demmons commented that about 10 years ago 75 percent of all high rises west of the Rockies were located in San Francisco, and since that time many new high rises and residential hotels have been built in San Francisco. This has to be factored when comparing San Francisco to other California cities, and I am not saying that we are not going to meet our obligations to make every building in this City as fire safe as we can, because we are going to do that. There was a comment made in the newspaper articles from another fire department

that San Francisco is like an East Coast fire department. What they mean by that is that the structures in San Francisco are comparable to those in the East Coast. You cannot go up and down California and make that kind of comparison. I wanted to make sure that that was understood. We are going to meet our obligations to inspect and abate any hazards that exist anywhere in the City. Deputy Chief Condon said San Francisco is unique in its structures. We have many old structures, and when laws are passed a lot of times they are looking at a different type of City. The fire prevention inspectors are very knowledgeable and they are able to comply with the codes because of their ability to adjust. President Fernandez-Ruel inquired about training in this area. We are talking about perhaps looking at staffing and balancing what we need for this program versus firefighters. Do you see anything down the line for additional training for inspectors? Chief Demmons replied we will look at our total training needs. Also, the Battalion Chiefs perform inspections in the field. Fire Marshal Stevenson said that additional training has been identified as part of the recently conducted needs assessment for the Bureau, and getting to the point of curriculum development in terms of the specific needs for San Francisco.

Chief Demmons commented that there was a quote from the State Fire Marshal in the newspaper article - Ron Coleman in saying something to the effect that in San Francisco we disregard the law and do not comply with it. Chief Demmons wrote him a letter asking if he was quoted correctly. Today, Fire Marshal Coleman called and talked to Deputy Chief Condon and said he was, in fact, misquoted in the San Francisco Chronicle. Deputy Chief Condon said he talked to him for about 20 minutes and he was very apologetic because he was misquoted. Fire Marshal Coleman will write a letter to the reporter. Fire Marshal Coleman also said that when he was talking to the reporter, he (Coleman) cautioned the reporter not to misquote him. Deputy Chief Condon said he has known Fire Marshal Coleman for a couple of years, and he thinks San Francisco is doing a great job. We are innovative in many areas, and like I said before we are a very unique City. When State laws are written for all locales it sometimes takes San Francisco a little longer to get our program in place because we have a large number of buildings. We may have more buildings in one category than other cities have totally. Fire Marshal Stevenson said that in many cases San Francisco's codes are more restrictive than the State codes, and I think that should be stated.

Commissioner Nakajo commented that he was very pleased that the Department was on top of this issue. He noted that the BFP was one of the few income generating units within the fire department, and the term stand alone means a lot and it was appropriate for President Fernandez-Ruel to note that the revenues generated by the fire department should be utilized to support the system. An efficient data base system is important for the inspectors to

properly perform their duties. It is important to try to use our limited financial resources to improve the stand alone program. He believes that the needs assessment and the strategic plan assure him that the Department is on top of the issues discussed here tonight. This discussion places the newspaper articles in their proper perspective.

Captain Bernie Lee, Engine 1 (President, Asian Firefighters Association) commented that Engine 1 participates in an inspection program. They are given addresses and the units at Station 1 go out and make periodic inspections, complete the necessary forms and forward them to Lieutenant Cofresi at Headquarters.

Vice President Roff asked if these inspections cover South of Market and the Tenderloin. Captain Lee replied affirmatively, noting that Stations 3 and 8 also perform inspections in those areas.

President Fernandez-Ruel noted that there was a lot of inspection work performed in the field and that is something to look at in terms of the strategic plan ... (tape turned). Deputy Chief Condon commented that the program being put together also has a training component, conducted by Lieutenant Cofresi. He goes out in the field to instruct the company officers on completing the inspection forms. The program has been very well accepted by the field. By the end of the year the companies will receive a computer report covering all the buildings in their area of response.

President Fernandez-ruel requested a follow up report on tonight's discussion. Chief Demmons commented that this issue and all other issues in the Department will be addressed in the strategic plan due out by June 1.

Vice President Roff, seconded by Commissioner Soulis, that the report contained in Item 3.B) be accepted. There were no further questions or discussion and the motion was unanimously adopted by a vote of 4-0.

A) Formal Hearing (Cont'd from Meetings of 02-13-96 & 03-14-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on January 19, 1996, against Firefighter Victor Puebla, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

Deputy City Attorney Matthew Davis represented the City. James Ahern, President, Local 798, represented Firefighter Victor Puebla, who was present.

Mr. Ahern requested a closed hearing, which was granted by President Fernandez-Ruel.

Opening statements were made by Deputy City Attorney Davis and Mr. Ahern.

Secretary Connors read the charges and Firefighter Puebla pled guilty.

Deputy City Attorney Davis entered two exhibits by the Department:

Department 1 - Transcript of Firefighter Puebla's June 27, 1995, hearing

Department 2 - A series of documents, letters dealing with the 1995 charge and the current charge

Mr. Ahern called the following witnesses:

|---|---|
| Firefighter Victor Puebla | 7:38-7:55 p.m. |
| Captain Armando Mayorga | 7:55-8:02 p.m. |
| Exhibits | 8:03-8:10 p.m. |

Mr. Ahern presented the following six exhibits for the defense:

... Letter from University of San Francisco - Mar. 27, 1996

... Letter from Kaiser Permanente - Mar. 20, 1996

... Letter from former Chief Frederick Postel - May 20, 1992

... Letter from former Chief Frederick Postel - Mar. 26, 1992

(Cont'd from Meetings of 02-13-96 & 03-14-96)

Closing Statements 8:10-8:20 p.m.

Deputy City Attorney Davis and Mr. Ahern each made a closing statement.

President Fernandez-Ruel ordered the matter submitted and requested a transcript to allow Commissioner Roeca to familiarize himself with the case. Vice President Roff moved, and Commissioner Soulis seconded, to continue the matter to the next Fire Commission meeting, April 11, 1996, at 6:00 p.m.

There were no further questions or discussion and the motion was unanimously adopted by a vote of 4-0.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

San Francisco, CA 94102

Dear Chief Demmons:

Captain Alson Lee came to Happy Times Nursery School to present a fire safety program to our pre-school children.

We want to thank Captain Lee for taking time to present this very worthwhile program to the children. The children really enjoyed his presentation and after had lots of fun role playing "fireman" and safety procedures.

The Fire Department is part of our yearly curriculum and we feel a fire safety program for small children should be available to the Nursery Schools throughout the City.

Sincerely,

/s/ WILDA LUNDBORG
Director

Dear Chief Demmons:

My husband, Gino Pera, who is handicapped, lost consciousness and I called 911 about 1:30 p.m., Sunday, March 3, 1996.

Response was excellent - firemen from Station 39 arrived ready for emergency medical assistance, well trained in their operations working with paramedics upon their arrival. Paramedics took us to the hospital.

The men from Station 39 were: Lieutenant Gary May, Firefighters Alan Harvey, Esmond Monroy, and George Zhovreboff. We are very grateful for the high quality of the San Francisco Fire Department medical training program.

Thank you.

Sincerely,

Dear Chief Demmons:

The Building Management Office at 101 California would like to thank the San Francisco Fire Department, specifically Firefighter Fernando Juarez, for the seminar he conducted on March 5, 1996, during our Life Safety Week.

I attended the seminar and found the information both interesting and informative.

Again, thank you for your participation, and we look forward to continuing our relationship with the San Francisco Fire Department.

Dear Chief Demmons:

Upon requesting permission from Captain Gerald Grey at Station 6, I was able to take 12 4-year-olds (including my son Skyler) for a visit to our local fire station. My son was elated to be able to spend some time at the fire station on his birthday.

The firefighters of Station 6 were so welcoming. We toured the station, watched the men come down the poles and got the chance to climb on the truck!

The kids were so excited and the parents were so impressed by these hospitable firefighters. These public servants were truly inspiring.

B) Request for Supplemental Appropriation

Submitted request for supplemental appropriation in the amount of $2,265,000 to fund deficiencies in personal services, workers' compensation and facilities maintenance.

Commissioner Nakajo moved and Commissioner Soulis seconded.
There were no questions or discussion and the request for supplemental appropriation was adopted on recommendation of Chief of Department.

C) Emergency Communications Center and Radio System

Presentation from Battalion Chief James Groshong (9-1-1) and Captain Joanne Hayes-White (800 Mhg) concerning the 9-1-1 Combined Emergency Communications Center, and the 800Mhz Radio System (Police, Fire and Emergency Medical Services).

Battalion Chief James Groshong introduced himself and Captain Joanne Hayes-White and made the following comments about 9-1-1:

The project began after the tragedy that occurred at 101 California Street. The then-Mayor Jordan asked Admiral Bitoff, Director, Mayor's Office of Emergency Services, to study the 9-1-1 procedures that were used at 101 California Street. After the report was published the Board of Supervisors determined that the City should construct a building that would house Police, Fire, and Emergency Medical Services (EMS) together. They passed legislation and put Proposition B on the ballot and it was approved by the voters in June 1994. Subsequently, the Board of Supervisors enacted legislation establishing a telephone surcharge to fund most of the project. The Chief Administrative Officer was mandated by the Board of Supervisors to construct a building, purchase the equipment and hire a project manager to deal with the acquisition of the hardware and software for the combined system. The Chief Administrative Officer created two committees: Policy Steering and Technical Advisory. The Technical Advisory Committee is headed by Ralph Jacobson, and includes 15 members, such as individuals who run the City's dispatch centers (Police, Fire, EMS - Battalion Chief Groshong is a member of the Technical Advisory Committee). The Policy Steering Committee is made up of the deputy chiefs of the departments involved (Deputy Chief Gamble represents the Fire Department). They meet monthly and act upon recommendations made by the Technical Advisory Committee. The legislation to establish the telephone surcharge also included language establishing the Mayor's Office of Emergency Services as the manager of the combined 9-1-1 center. The project will establish an integrated emergency communications center to house 9-1-1 call taking, dispatching for Police, Fire and EMS.

C) Emergency Communications Center and Radio System (Continued)

It will also contain the new radio system and will use the present fire alarm system we have at our communications center. The new building will contain 35,000 square feet and be constructed to the west of the fire alarm center (Turk between Gough and Laguna). We made an agreement with the community that the present fire alarm center and office of emergency services will be torn down and that space will be restored as a park land. So there will no net loss to the community. The legislation for this project did not express how the new combined dispatch center was going to be managed and staffed. The then-Mayor Jordan requested that a Memorandum of Understanding be drawn up and signed by the heads of the departments involved. Battalion Chief Groshong distributed a copy of the Memorandum of Understanding (dated January 4, 1995) and the Board of Supervisors' Ordinance No. 416-93, which established a 9-1-1 emergency response fund. The Memorandum of Understanding states that the Mayor's Office of Emergency Services will be in charge of the communications center.

He summarized the project's timeline by stating that last month the Board of Supervisors enacted eight pieces of legislation allowing the project to go forward. This was the final hurdle. Now the project is in the hands of the Bureau of Architecture, and they are working on the building's design. The software and hardware components are underway. Tomorrow, proposals will be coming back from different vendors suggesting solutions to the Computer Assisted Dispatch (CAD). The building is scheduled for completion in October, 1998; opening in the Spring of 1999. Cost for the project is estimated at $57 million, of which 82 percent ($47 million) will be funded from the telephone surcharge. The balance will come from the general fund or grants. The final determination on cost will be made within a year, once we learn the cost of the hardware and software, and we receive construction bids on the building.

Commissioner Nakajo asked who will manage the project and who will be in charge once the building is operational. Battalion Chief Groshong replied that the Chief Administrative Officer is in charge of the building's construction, and he reports to the Mayor and the Board of Supervisors each month. Once the building is operational, the Mayor's Office of Emergency Services will be in charge. Battalion Chief Groshong distributed to each Commissioner a copy of the Memorandum of Understanding and the Ordinance establishing the 9-1-1 telephone surcharge.

Vice President Roff commented that he did not want to revisit previous decisions but he wanted to look more closely at the prospective operation of the new center. The Mayor's Office of Emergency Services has had a rather uneven history in the City, depending upon the emphasis of whomever the Mayor was - the size of staff and amount of resources has varied. It has not been an established department with career employees. He did note that Admiral Bitoff

5. REGULAR CALENDAR - NEW BUSINESS

C) Emergency Communications Center and Radio System (Continued)

is very skilled and has been very enterprising in putting the present center together. It is not an organization - such as the Fire and Police - that has a cadre of experienced civil servants. He has questions in his mind, and it may be too late to visit this issue, as a future operational source, unless the Mayor's Office of Emergency Services is to receive greater status and structure than it currently possesses.

Chief Demmons indicated that he and Battalion Chief Groshong recently attended a meeting convened by the Mayor, and this was one of the issues discussed. Chief Demmons said he expressed his concerns. But the Mayor stated that the operations would be worked out, but the center would be staffed by civilians.

Vice President Roff commented that Proposition B passed in 1994, and wondered if that proposition provided the funding for the project. Battalion Chief Groshong indicated that the telephone surchage is $.50 per month, and will fund approximately 82 percent of the project's cost. It is possible that the surcharge can continue and fund the operation of the center. President Fernandez-Ruel asked that the matter be clarified; that is, how the day-to-day operations will be funded.

James Ahern, President, Local 798, commented that, through the Chair, he would like to direct a question to Battalion Chief Groshong. Has there been an assessment of the current fire personnel, their current location in terms of their work site, their functionality in reference to the future design? The point is to assess the working conditions of the dispatchers, and use their years of expertise, as dispatcher or supervisor, and assess their needs before they move into a new work site. Battalion Chief Groshong indicated that the process thus far has been mostly planning. Now that the Board of Supervisors has given the go ahead we will get into the details, bring in the work groups and assess their needs. The police dispatchers have been very active and their concerns are being answered. It is time to get more input from the employees.

President Fernandez-Ruel referenced the strategic plan and whether this is an issue that should also be addressed as part of the plan. Chief Demmons commented it will be. He commented on Mr. Ahern's question by stating that he believed that what was said in his meeting with the Mayor was that because of the language in the ordinance the new center has to be staffed by non-uniformed employees. He also raised the concern that what happens when calls are received at our communications center, and because the center is staffed with uniformed personnel, they have a visual picture of what is occurring at the incident, and many times are able to anticipate the officers' needs. When he raised that issue during the meeting he received a reply that there would be one uniformed officer present, but the actual dispatch would be handled by civilians. Battalion Chief Groshong confirmed that recollection, then indicated that he believed the legislation expresses it differently and maybe

C) Emergency Communications Center and Radio System (Continued)

we should explore it in greater detail. President Fernandez-Ruel agreed saying it goes to the issue of capacity, the people who have experience. The issue of uniform staffing and related needs should be strongly considered by the task force that is looking into the new center. Because as Commissioners Nakajo and Roff have stated - to put another layer of bureaucracy on top of a finely tuned structure with state of the art equipment is ... it has to be staffed with people who have experience. She urged the Chief to follow up on this. Commissioner Soulis said it was something we should stay on top of, and noted that Deputy Chief Gamble serves on the Policy Steering Committee. Deputy Chief Gamble thanked the Commission for expressing their interest in this subject and their support for changing the current plan which calls for civilian staff. It is the position of Chief Demmons and Battalion Chief Groshong that the City would be better served by having uniformed members of the Fire Department there. I believe that the current EMS dispatchers would feel the same way about their people. As you well know we have always had good success and competency in our dispatching for a number of years with very little problem. I can't say the same for the civilian 9-1-1 dispatchers. It may come that the Commission through the Chief of Department, seeks change in the current legislation. Chief Demmons said that at the meeting with Mayor Brown, both Police Chief Fred Lau and I were told that is the past and it is essentially not open for discussion, and I want to make sure the Commission knows that. Vice President Roff said we won't force a confrontation but thought that it is something we might visit with some diplomacy; that is something that needs to be looked at again.

Captain Joanne Hayes-White made the following comments about 800 Mhg:

She commented that she was recently assigned to the Bureau of Communications from fire suppression and is currently assisting Battalion Chief Groshong with administrative duties at the Communications Center. A large portion of her time is spent on the 800 Mhg radio project. She is a member of the user advisory group. The radio project is a major component of what Battalion Chief Groshong just discussed (9-1-1 Combined Emergency Communications Center). Currently, Fire, Police and EMS all operate different radio system which does not allow for interface or interdepartmental communication which is a real drawback in incidents such as the 1989 Loma Prieta Earthquake, the 101 California Stret tragedy, and the shootings at Pine/Franklin Streets. This only underscores the need to have the ability to communicate among these agencies. In November 1993, the voters approved a bond measure to construct an 800 Mhg radio system which allows various City agencies to communicate on the same system. These agencies include: Fire, Police, EMS, Sheriff, Water, Parking and Traffic, and Recreation and Park. As part of the user advisory group she is responsible for identifying specific fire department needs. Some of the identified needs are better reliability, durability, better coverage underground and within buildings, especially

high rise. It is a win-win situation for the fire department because we will be dealing directly with the agencies without going through our dispatch center, as we all will be operating on the same channels. The quality and efficiency will be improved. Currently, the fire department has three operating control channels and if there is a greater alarm many times the actual channel, where the greater alarm is occurring, is put out of service. That leaves us with only two channels, which is not a good situation. With this new system those problems will be alleviated, and we will have more accessibility. The engineering firm of Fluor-Daniel has been selected to write the specifications for the project and oversee the implementation. Needs analysis surveys have been distributed and completed, from which they created the functional requirements document. The specifications currently are being written, and the first draft is scheduled to be released May 1, 1996. All the equipment is scheduled to be installed by May 1998, followed by a testing phase, training phases for all the departments. It is anticipated that the cut over date to the new system will coincide with the completion of the Combined Emergency Communciations Center.

President Fernandez-Ruel asked when the system will be up and running. Captain Hayes-White said at the same time that the dispatch center will be operational - the spring of 1999.

Battalion Chief Groshong commented that the system could be operational earlier but the problem is we would have to equip Fire, Police and EMS with new radio consoles in order to use the new technology. Then, when we move in the new building we would have to have both systems side by side for some time. We'd need a whole new set of consoles in the new center for dual operations while we tested everything. The cost was estimated at $5 million. The funds were not available for two installations.

Commissioner Nakajo asked what other major cities have this system. Captain Hayes-White replied Oakland, Los Angeles, Seattle and Chicago. Commissioner Nakajo commented that he was contacted by the consul general for Japan seeking information for the city of Kobe which was recently devastated by a severe earthquake. San Francisco has a reputation for leadership in this area and the Fire Department may be asked to entertain some Kobe officials to discuss issues of mutual concern - earthquake preparedness and fire safety. In turn, representatives from San Francisco may visit Kobe.

President Fernandez-Ruel asked if this engineering firm has a good track record in comparable projects. Captain Hayes-White replied affirmatively. They were selected from among ten vendors. President Fernandez-Ruel asked if anyone talked to the Chicago representatives about their project before awarding the contract to Fluor-Daniel. Captain Hayes-White responded affirmatively. Chief

Demmons noted that the Commission just approved a leave of absence for Michael Taylor to visit Chicago, and Battalion Chief Groshong will be visiting Chicago at the end of May, as well. Battalion Chief Groshong said the trip would be a terrific opportunity because Chicago's communications center is designed similarly to what San Francisco's will be when completed. We can learn from any mistakes they may have incurred.

3. PUBLIC COMMENT (Continued)

Closing Remarks 7:07-7:10 p.m.

President Fernandez-Ruel commented that this is the first stop for the Fire Commission. It is the first time that the Commission, as a body, heard this proposal and recommendations in its condensed form. Obviously, it is going to take several other meetings, and a lot more study, on our part, and perhaps a joint meeting with the Health Commission to hear more testimony or more detail, as the recommendations move forward into a planning stage. Also, there were a lot of comments about a merger. We see it more as a transfer of function that will require certain types of legal steps to go through in order to consolidate this particular service under one umbrella. That will take a great deal of research, planning and process through the office of the City Attorney. Also, there are labor issues involved - there are two different unions. This needs to be looked at to preserve rights to any kind of change of work place conditions. This is only the beginning and I want to assure everyone here, and I am sure the Chief and his management, the Fire Commission, as well as Dr. Hernandez and her Commission, and her Chairman, Dr. Edward Chow, who was present earlier, will also be taking those details under submission and studying those at great length. We are here to do the best job possible, and we are all committed to that. We have a mission that, I think, both departments could be very proud of, and that is the protection of life. We know that it is approached from various angles, but at the same time we both have that commitment and we have that mission as we look toward reviewing the recommendations in detail.

President Fernandez-Ruel thanked everyone for their presence and/or testimony: Drs. Hernandez and Katz, Dr. Chow (who was present for most of the presentation), other commissioners, paramedics and firefighters.

Note: A tape recording of the special meeting is available for listening by contacting the Fire Commission Secretary

There being no further business to come before the Commission, the meeting was adjourned at 7:11 p.m.

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meetings of 02-13-96, 03-14-96 & 03-28-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on January 19, 1996, against Firefighter Victor Puebla, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

(Note: The Fire Commission met in closed session from 5:20-6:00 p.m. to review the evidence and reach a decision concerning Firefighter Victor Puebla)

6:12-6:30 p.m.

Deputy City Attorney Matthew Davis represented the Department. James Ahern, President, Local 798, represented Firefighter Victor Puebla, who was present.

Mr. Ahern requested a closed hearing, which was granted by President Fernandez-Ruel.

President Fernandez-Ruel noted that Commissioner Roeca was absent during the March 28th hearing. She stated that a copy of the 43-page transcript was provided to Commissioner Roeca. President Fernandez-Ruel asked Commissioner Roeca if he read the transcript. Commissioner Roeca responded affirmatively. President Fernandez-Ruel stated that Commissioner Roeca would participate in tonight's decision.

Mr. Ahern and Deputy City Attorney Davis each made brief closing remarks.

President Fernandez-Ruel directed the Secretary to call the roll. By a vote of 5-0 each Commissioner supported the Chief's recommendation that Firefighter Puebla be terminated.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

Dear Chief Demmons:

On Saturday, March 16, 1996, the fire department was asked to come out and do some demonstrations and give advice to about 100 children in the South of Market. They came out and I must tell you that they stole the show. You must have sent us your experts with kids, because they captivated the whole audience for their entire demonstration. The children as well as the adults. I cannot say in words the gratitude we have for you and your fellow fire fighters. Myself, the children and those who attended now have assurance and feel that the fire department really does know their job and have a tough job. Once again, thank you for sending us a group of wonderful firemen. We will definitely call on you for the second annual Safety Day in the South of Market.

Sincerely yours,

/s/ DIANE ROSE

Dear Chief Demmons:

On March 12, at 0930 hours, Ambulance 1 Henry 81 responded with Engine 6 on a collapsed patient. Engine 6 arrived ahead of us and the crew, under the constant watchful eye of Lieutenant Dudley Wood, assessed the patient, recognized the patient was in cardiac arrest, began CPR, attached their AID and defibrillated the patient twice.

Upon my arrival I found the patient still in ventricular fibrillation.

While the patient was a terminally ill patient a dispute among family members regarding resuscitation made it imperative that we continue. During the next thirty minutes, Firefighter Gregory Philliposian provided respiratory ventilation while Firefighter Richard Espinoza performed CPR. Firefighter Peter Brandt assisted us with the IV medications and information about the patient.

Ultimately, through the intervention of Lieutenant Wood and my partner, the family was made to realize the futility of our efforts and the patient was pronounced at 1010 hours.

While this was not a successful resuscitation it is important to point out that your firefighters performed with textbook precision, did everything correctly, and worked very well as a team. Had this patient been resuscitated the lion's share of the credit would have been due to your firefighters.

Please extend to your firefighters my thanks for all their help.

Respectfully submitted,

/s/ JAMES GREEN

Dear Chief Demmons:

On March 7, at 1130 hours, Ambulance 1 Henry 81 responded with Engine 22 for a call involving a disoriented person. First on the scene was Engine 22.

Under the constant watchful eye of Lieutenant William Bonnie, Firefighters Meibeck Chung and Robert Segale assessed the patient who was found in a small bathroom. The patient, while awake, was thrashing around furiously and screaming incoherently.

Firefighters Chung and Segale, with the aid of Firefighter John Kelly, gently restrained the patient to keep her from hurting herself. Meanwhile, Lieutenant Bonnie and Firefighter Stephen Roche were able to learn from the patient's housemate that she was an insulin dependent diabetic who had taken her insulin but had failed to eat any food that day.

As Firefighters Chung, Segale and Kelly attempted to give the patient some sugar, Firefighter Roche waited outside for our arrival. He gave us a thorough rundown and helped us with our equipment.

With continuing assistance from Firefighters Chung, Segale and Kelly, my partner and I were able to establish an IV and give the patient sufficient dextrose to reverse her acute hypoglycemic condition.

While this condition is serious enough by itself your firefighters correctly recognized that the most important treatment in addition to the sugar was to protect the patient from self-inflicted injury due to her altered mental status.

The patient was eventually well enough to go to the hospital with family members. The fact that this unfortuante error and potentially lethal emergency was resolved without incident is due in large part to the quick thinking and well supervised teamwork of the members of Engine 22.

Please extend to them my thanks for their help.

Respectfully submitted,

/s/ JAMES GREEN

San Francisco, CA 94102

Dear Chief Demmons:

As an instructor on the English Language Program, I recently invited Captain Joanne Hayes-White and Lieutenant John McCloskey as guest speakers to my Communications class for international students. The aim of the class is to give students who represent a wide variety of professional backgrounds and cultures practice in spoken English and exposure to the working world of contemporary American society.

We were fortunate indeed to have both the pleasure and privilege of welcoming Captain Joanne Hayes-White and Lieutenant McCloskey to our class of 90 minutes in which both guest speakers outlined the training, duties and working conditions of San Francisco's fire fighters. While Lieutenant McCloskey was able to give additional interesting historical background on the Department's proud histgory, Captain Hayes-White was able to offer her perspective as a woman fire fighter before joining the Bureau of Communications. Both guest speakers also answered students' questions in a concise, friendly and open manner giving specific examples where appropriate.

Many points impressed the students, and I would like to set down the main impressions for the record. First, the students were struck by the high level of professionalism expected and achieved by the San Francisco Fire Department. Second, neither the students nor I were aware of the number of medical emergencies to which our local fire fighters respond. Third, they noted the sensitive manner in which the Department responds to the needs of the city's culturally diverse population. It was also noted by many of the students that women are not yet considered as acceptable fire fighters in the countries they represent. Last, but not least, the students were struck by the evident pride, high standards, courage and acute sense of civic duty exemplified by Captain Hayes-White and Lieutenant McCloskey which often contrasted with perceptions of fire fighters in students' own countries.

In conclusion, may we thank Captain Hayes-White and Lieutenant McCloskey for the generous amount of time they gave us but especially for the cordial, caring

and frank way they answered our questions. In their written comments on the session, all the students stated that this session was a unique experience for them and one that they are unlikely to forget in the years to come when they look back on their stay in the United States.

As their instructor, may I also thank you and your Department for allowing us to get an inside view of this important public service, so well represented by Captain Hayes-White and Lieutenant McCloskey.

Very sincerely yours,

/s/ OLIVIA PLATFORD, Instructor

Dear Chief Demmons:

I have just completed the Neighborhood Emergency Response Team training provided by the San Francisco Fire Department, and wanted to let you know how impressed I was by the thoroughness, efficiency and dedication exhibited by the San Francisco Fire Department personnel giving the course.

The various firefighters who taught different sections of the course were uniformly knowlegeable, entertaining and extremely patient with civilian ignorance. We all felt genuinely welcomed as potential partners to help out in an emergency. I felt much better equipped to help my neighborhood and family after attending these classes. Also, it was great that the program was free, enabling as many people as possible to participate.

Lieutenant Michael Hennigan was especially skilled at conveying a large amount of information concisely and with leavening wit. The San Francisco Fire Department is a force to be proud of, and I am happy to know that such committed people will be helping me out should I ever need it.

Kudos on an excellent program.

260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I am writing on behalf of Shriners Hospital for Crippled Children, San Francisco Unit, in regards to the outstanding work of the firefighters who participated in our Health Carnival on March 22, 1996. Firefighters Greg Barron, Jennifer Mathews and Kevin Salas, and Inspector Milton Yuen were a big hit among the visiting children and our patients in the hospital. The information given and the style in which it was delivered was and will be beneficial to the children. We appreciate their involvement and efforts and want to extend a big "Thank You' for all their hard work.

Sincerely,

/s/ DIANA SUNDERG, RTC CTRS
Child Life and Recreation Specialist

Dear Chief Demmons:

During the week of March 10, 1996, the San Francisco Field Division of the Bureau of Alcohol, Tobacco adn Firearms (ATF) conducted training of its Division Response Team (DRT) in fire scene investigation in Sacramento, California. Investigators Martin McGuinn and Eileen McCrystle of your Bureau of Fire Investigation (BFI) were invited to attend the class and were detailed there by your department. The class included ATF special agents and fire investigators from fire departments in the Sacramento area. Because of his background and experience, Investigator McGuinn was requested to make a presentation to the class regarding fire fighting operations and their relation to fire investigation.

Course critiques were very favorable to Investigator McGuinn's presentation, since he clearly explained the effects of fire suppression activity on subsequent fire investigations.

The presence of both Investigators McGuinn and McCrystle was a significant factor in the success of the class. In the classroom, in group settings and in the practical exercise, they related well to the other students and freely shared their experience as it involved the topics at hand.

Please pass on my appreciation for their contributions to the class. We look forward to working with you and your department in the future concerning matters of mutual interest.

Sincerely yours,

/s/ PAUL M. SNABEL
Special Agent in Charge

United States Department of the Interior
National Park Service
Golden Gate National Recreation Area
Fort Mason, San Francisco, California 94123

April 11, 1996

Deputy Chief Richard Condon
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Deputy Chief Condon:

We would like to extend our sincere appreciation to you and your department for the dedication and professionalism of your surf rescue squad. The Golden Gate National Recreation Area comprises nearly 20 miles of San Francisco coastline from Fort Funston to Fort Mason. As you know, there are thousands of beach-goers on warm weather days and surfers and windsurfers are in the water regardless of the weather. Unfortunately, the power of the ocean surf, currents, and cold temperatures claim the lives of park visitors each year. However, many near drowning victims have been saved thanks to the dedication and professionalism of your surf rescue squad.

We would like to highly commend Lieutenant Robert Fennell for his outstanding contributions towards ocean rescue operations in San Francisco. Several years ago, Lieutenant Fennell began an American Red Cross/Ocean Lifesaving Certification Program for firefighters and park rangers. Firefighters and rangers who performed well in this program were then selected to be part of a water rescue team. Today there are several hundred graduates of Lieutenant Fennell's lifesaving classes. He also introduced weekly surf rescue drills at Ocean Beach and China Beach for firefighters and park rangers to stay current with their skills. Lastly, Lieutenant Fennell was instrumental in training firefighters in the use of ocean kayaks and jet-skis for ocean rescues.

The end result of Lieutenant Fennell's excellent work has been a close working relationship between firefighters and National Park Service staff and a rapid and professional response to water emergencies in the park. Your department can take pride in the skill and devotion to public service exhibited by your staff. There can be no greater achievement than the saving of a life.

Once again, thank you for the support and commitment of your department in responding to water emergencies adjacent to National Park Service lands in San Francisco and please pass along my thanks to Lieutenant Fennell.

Sincerely,

/s/ GIL SOPER
Chief Ranger

Dear Chief Demmons:

Congratulations on your appointment to Chief of the San Francisco Fire Department. I want to tell you of my experiences with the Bureau of Fire Prevention (BFP) and its impact on the City's development of the New Main Library Project.

The Library project would not have had the success everyone is reporting, had the Fire Department not been a cooperative party to the design, construction and inspection process. From the decisions of the Board of Examiners to the last inspection to permit occupancy, the Bureau of Fire Prevention has fully supported the City's effort to build this newest civic landmark without diluting fire or exiting standards. In fact, BFP personnel were able to grasp the edge of technology in promotion of fire safety and were able to accept its use in the New Main Library.

I wish to personally acknowledge that Deputy Chief Richard Condon supported every reasonable effort to surge forward by requesting personnel under his command to work with our team to clear out problem blockages, both in the design and construction stages.

On behalf of the New Main Library project, I wish to thank Captain Thomas Harvey, Lieutenants Ariston Armada, Kenneth Cereghino, Mario Ballard, and Peter Schembri, Inspectors William Bigarani, Javier Marquez, Donald Martin and Fire Protection Engineer Robert Fuller for all their help. I apologize if anyone was left out. I know that the entire Bureau supported the project.

For myself, I want to express my appreciation to the Fire Department for a job well done. Your department has always provided people with a can-do attitude, and this job is no exception. It seems that the BFP always performs, regardless of organizational changes in the Bureau. It is a tribute to the Fire Department that the quality standard remains so constant.

I am moving on to manage the new Moscone III Expansion Project, and expect to continue the fine relationships I've developed with the Fire Department for the past 17 years. I look forward to working with Assistant Chief Stevenson as the new Fire Marshal.

Very truly yours,

/s/ RAY FONG

Chief Robert L. Demmons

San Francisco, CA 94102

Dear Chief Demmons:

At approximately 6:50 p.m. on the evening of March 23, 1996, we boarded an elevator in the Bank of America Building on California Street, enroute to the Carnelian Room for dinner. There was no one else in the elevator. Before reaching the restaurant on the 52nd foor, the elevator came to a halt and we heard a very loud, disconcerting noise which seemed to continue for at least a minute.

After a period of time that seemed longer than it actually was, we were evacuated from the disabled elevator and arrived at our intended destination at approximately 8:30 p.m. A crew of firefighters from Station 13 was responsible for effecting our release.

We wish to express our heartfelt thanks to the men of Station 13 who participated in this rescue: Captain Edward Cruz, Firefighters Daniel Griffin, Leslie Mulhair, Micheal Thomas and Steven Wong. They conducted themselves professionally and went out of their way to put us at ease, relieve our anxiety and bring our experience to a safe conclusion.

While the incident may have been "all in a day's work" for these gentlemen, it was far from that for us; their professionalism and consideration are some of the things we shall remember most when we recall a very memorable, but frightening, experience.

Sincerely,

/s/ THOMAS PADBERG

Dear Chief Demmons:

I am writing this letter to express my deep appreciation of the way in which certain members of your department handled an emergency that occurred at my home March 29, 1996.

A team attached to Engine 39 came to my home and with complete efficiency and courtesy did everything necessary to insure that a tragedy did not result from a leak in the gas tank of my car, which was parked in my garage. These three men very swiftly turned off the pilot light in the hot water heater, hosed off the gasoline on the floor and cleaned up the residue. Then one of them drove my car to a garage where it was later repaired.

The team consisted of Captain Worthy Brooks, Firefighters James Allan and Robert Castelli.

I was an attorney for thirty-three years before I became inactive in 1994 and I can honestly say the manner in which these men handled a very dangerous and frightening situation was outstanding. I shall always feel very grateful to them, and wish them success and safety in their careers.

Dear Assistant Chief Stevenson:

I am the Asset Manager for thirteen buildings in San Francisco.

This letter is to inform you of the excellent job Inspector William Jackson is doing. He is very thorough and has really taken the time on the fire inspections to explain the policies of the Fire Department.

This has been a tremendous help to my Resident Managers, as well as myself. It has helped us to correct any violations in a timely manner, and also made us more aware of the potential hazardous areas that we need to watch for in order to prevent a serious fire.

In view of his consideration, I felt it was necessary to write you a letter and bring his outstanding dedication to your attention.

Dear Chief Demmons:

On April 1, 1996, we responded to a respiratory arrest call at 99 Mississippi Avenue. Upon arrival, we found the crew of Engine 37 performing cardiopulmonary resuscitation on a 53-year-old woman who suffered sudden cardiac death. I wish to commend the actions of that crew, who in addition to performing excellent ventilations and compressions, applied the automatic external defibrillator and successfully cardioverted the patient. Their efforts, coupled with bystander CPR and early advanced life support truly "saved" this patient from certain death. I am pleased to say that a day after the event the patient is awake and talking. Her prognosis is considered to be good.

Please pass this along to the crew of Engine 37, an Attaboy all around. Their profession and compassion for the citizens of San Francisco is exemplary.

Dear Chief Demmons:

It was truly a pleasure working with Firefighter Fernando Juarez. He was here at the St. Francis Yacht Club on Tuesday, March 26th and Wednesday, March 27th to give our staff a good working knowledge on fire extinguisher use and more importantly, on what to do during a real fire. His sessions were very informative and easy to understand. Some of our staff is even thinking of purchasing fire extinguishers for their homes now that they saw how it could prevent a small fire from becoming a big disaster.

This training session was one of many safety trainings that I wanted to implement here at the yacht club and Firefighter Juarez made my job easier. He even suggested a person to call for CPR training which I want to do next with our department heads and service staff as well. Again, please thank Firefighter Juarez for a job well done and I commend you for running a department that knows how.

We are writing to express our appreciation for the fine Fireflies program that visited our school on April 9, 1996.

The firefighters, led by Firefighter Ronald Lau, were extremely informative and gentle and their presentation was age-appropriate for our four- and five-year-old students. The materials were clear and really helped the children to understand fire safety at home and at school.

The Fireflies program has visited our school for three years. The bilingual Cantonese/English presentation and materials are invaluable for this community. We hope the Fireflies program will not only be continued but expanded.

Dear Chief Demmons:

The San Francisco Zoo and RCH have just finished the Neighborhood Emergency Response Team training and I would like to commend all the trainers (who volunteer their time as I understand). Each and every trainer was knowledgeable, and entertaining - a hard combination. Having provided training for many of our staff, keeping them interested is hard enough let alone getting them to learn. I have heard only positive feedback on the training.

Special kudos to Lieutenant Richard Lauer who was our trainer twice, Captain Vincent Nolan, Lieutenants Paul Chin and Alfred Rizotto, Firefighters Stephen Harper and Dale Scott for their good humor. Also to Firefighter Frank Lucier who led us through a tabletop exercise.

This is a wonderful program and I hope more communities join in. My next job is to see just how well the City of San Bruno is prepared (since that's where I live).

Sincerely,

B) City Attorney

Communication received from Timothy Armistead, Chief, Bureau of Investigations and Claims Administration, dated April 1, 1996, submitting for Fire Commission's adoption Board of Supervisors' Resolution authorizing settlement of the following claim:

> SHAWN BOLAN, in the amount of $8,722.29. Claim arises out of water damage resulting from a water main burst on February 22, 1996, on the 600 block of Seventh Street, S.F., CA, and is a settlement of Unlitigated Claim No. 95-00543.

There were no questions or discussion and the proposed resolution authorizing settlement of above claim was adopted on the opinion of City Attorney's Office and recommendation of Chief of Department.

C) Bond Issue

Submitted for adoption a $51.9 million bond issue for improvement of Fire Protection Facilities and Systems (Water Supply, Training, and Fireboat Station and Pier).

Commissioner Roeca moved and Vice President Roff seconded.

Assistant Deputy Chief Frank Scales introduced Captain Michael McKinley, Division of Training, and Mr. Robert Jew, Department of Public Works (DPW). Assistant Deputy Chief Scales summarized the proposed bond issue: to refurbish and seismically strengthen the fireboat headquarters and Pier 22-1/2, build a new fire station and training facility at Hunters Point and rehabilitate the Auxiliary Water Supply System (AWSS). He spent the next several minutes describing for the Commission a series of photographs of the hazardous conditions of the fireboat headquarters (asbestos and electrical); the damage to the steel beams supporting the pier on which the fireboat headquarters rests. In response to a question from President Fernandez-Ruel, Assistant Deputy Chief Scales said that the Port owns the property that houses fireboat headquarters. The Port Commission proposes to give the Fire Department a 99-year lease on the property if we make the improvements described in the proposed bond issue. The specifics of the lease have not yet been established. Vice President Roff noted that he remembered a time when the Port Commission wanted to get rid of the fireboat. President Fernandez-Ruel suggested that the City Attorney's office review the lease prior to execution to make sure that the terms are favorable to the Fire Department. Assistant

C) Bond Issue (Continued)

Deputy Chief Scales said the lease will be sent to both the Port and Fire Commission for approval before any bond money is spent.

Assistant Deputy Chief Scales continued reviewing the photos: next was the Division of Training which was built in 1995 and has outgrown its space; parking is inadequate. He showed a photo of the fire station at Hunters Point which must be rebuilt. He noted that Engine 17 is temporarily assigned there. He next reviewed some photos showing the corrosion to the AWSS pipes. He commented that there are 138 locations where the AWSS goes through the sewer system. In these instances the corrosion is very severe. He asked Captain McKinley to comment on the training issues.

Captain Michael McKinley commented that the 1955 facility contains 4,100 square feet. We have outgrown the facilities. We are unable to conduct all necessary training, considering the constraints of the site. The pace of academic and manipulative training has increased tenfold over the last decade. When academic training (up to 100 students) is scheduled we cannot conduct drill yard training. When we have drills in the yard we have a difficult time gettting students in and placing their cars. It is time to look for a new facility, with new training props, including propane enclosed burn areas, where we can simulate fires. Commissioner Nakajo asked for the location of the present site. Captain McKinley replied 19th and Folsom, which covers almost a city square block. Commissioner Nakajo asked about the length of a class. Captain McKinley said fourteen weeks,including manipulative and academic component. Commissioner Nakajo asked if the facility was utilized when there were no classes in session. Captain McKinley replied affirmatively; we do our in-service training when probationary firefighter classes are not in session. Commissioner Nakajo asked if the Fire Department owns the property at 19th and Folsom. Assistant Deputy Chief Scales replied affirmatively. Vice President Roff asked what would happen to the 19th and Folsom property once a new training facility is built. Assistant Deputy Chief Scales commented that recently he and Chief Demmons met with members of the Redevelopment Agency staff. They would like to acquire the 19th and Folsom Street property in exchange for some of their property at Hunters Point. Chief Demmons commented that he recalled that Mr. Graves, Executive Director of the Redevleopment Agency, said the Agency has a real need for property in that area (Mission district), and would like the property for community development. Chief Demmons said the Department is also looking at property at Treasure Island, in addition to the property at Hunters Point. There is a live burn center at Treasure Island that we would like to have. Captain McKinley said it would be nice to have a burn building at both training facilities. Vice President Roff inquired if the fire station and training facility at Hunters Point would be located at one facility. Assistant Deputy Chief Scales said that redevelopment will allow us to rebuild the fire station on the existing site, but that the new, large training facility would be located elsewhere within Hunters Point,

4. REGULAR CALENDAR - NEW BUSINESS

C) Bond Issue (Continued)

away from the center of the property. Chief Demmons commented that during the meeting he explained the advantage of having the fire station and training center at the same location: twenty-four hour security. Vice President Roff asked if Station 17 would remain open. Assistant Deputy Chief Scales replied affirmatively.

Vice President Roff noted that the new station in Hunters Point would be an expansion. Commissioner Nakajo asked if it is the fire department's strategy to acquire sites at both Treasure Island and Hunters Point. Chief Demmons replied affirmatively, noting further that as to the burn center at Treasure Island, the State Fire Marshal's office for the last two years ..... He asked Captain McKinley to discuss this issue further. Captain McKinley commented that the State Fire Marshal saw the Treasure Island transition coming and acted first, the prior administration didn't really see that. The State Fire Marshal jumped at the opportunity to acquire the firefighting school at Treasure Island. It is a world class firefighting school. The State Fire Marshal wanted to develop a regional training center, similar to the Asilomar facililty in Monterey County. They wanted to execute a joint powers agreement among San Francisco, Oakland, California Maritime Academy, and Naval Sea Lift Command. Staffing and seed money would be provided. It would be marketed among other fire departments, and educational institutions. Cal Trans Aeronautics is a new player, with an FAA grant to do crash/fire rescue training. This was seen as representing a large amount of additional seed money to get the project going. The Naval Sea Lift Command backed out, based on advice from their legal office. The matter has dragged on for a long time. There have been considerable hurdles to overcome (Captain McKinley is on the committee as one of the San Francisco Fire Department representatives). The difficulty has been in devleoping a joint powers agreement that was agreeable to all the entities, based on requirements that you would have to provide funds and personnel to make it work. When Chief Demmons became acquainted with the project he sent Deputy Chief Condon and Captain McKinley to attend a meeting with the State Fire Marshal. After that meeting, Deputy Chief Condon made a recommendation to Chief Demmons, and later Chief Demmons visited Treasure Island. Chief Demmons felt that the San Francisco Fire Department should take over the facility, and make it our world class training facility. Chief Demmons said there was one other factor. The State Fire Marshal would have charged the San Francisco Fire Department to use the facility, in addition to providing our staffing. It just didn't seem like a good idea to pay those charges. Chief Demmons said the San Francisco International Airport is required to send its firefighters (SF) to Texas for such training at $60,000 per firefighter. We view this as at least a break-even operation, and a site to train our firefighters, as well. Vice President Roff said it certainly was worth pursuing. Commissioner Nakajo said it was his understanding that San Francisco has jurisdiction over Treasure Island. As we look to the future it makes sense to have a facility at Treasure Island and Hunters Point. The clarity of the previous discussion is very

4. REGULAR CALENDAR - NEW BUSINESS

C) Bond Issue (Continued)

helpful, especially as we go out and try to explain the bond issue to the voters. Chief Demmons said that Captain McKinley is preparing a cost and staff analysis of the Treasure Island operation. Captain McKinley said that a lot of hurdles remain.

Robert Jew, Program Manager/Engineer for AWSS projects, and an employee of the Department of Public Works. The AWSS was constructed more than 80 years ago, and corrosion, and settlement have reduced the viability of this fine fire protection system. The AWSS has pipes installed inside sewers and they have become corroded because of the hostile environment within the sewers. Last Friday, he inspected a pipe at Grant and Pacific Avenue where we are replacing a sewer. When he went into the area of the exposed AWSS he was able to peel off the pipe with his fingers, piece by piece (he showed the samples to the Commission). We have issued a change order to replace the AWSS pipe, which will cost us more than twice the amount estimated under normal construction conditions. This occurs when we repair items under an emergency that goes beyond the terms of the construction contract. Past pipe failures inside sewers have damaged sewers, interrupted services and require expensive repairs. Soil settlement is another contributing factor in many pipe failures; especially where two pipes join across infirm and solid soil. This condition exists in more than 100 pipe locations. When these conditions cause breaks it can create large sinkholes in the street near the source of the break. The fire department's remote control valves' system minimizes the extent of damage in such breaks. This is much faster and much more efficient than the manual shut off procedure. Under the proposed bond issue we plan to install more remote control valves. We will continue the program of installing suction connections along the waterfront, allowing access to bay or ocean water for firefighting.

He commented that other utilities in San Francisco are modernizing their facilities, such as PGandE ($2 billion over the next 14 years), the San Francisco Water Department ($9 million per year), and Department of Public Works will spend more than $70 million to replace their sewers. He recommended that the Fire Department begin to replace its most deteriorated pipes before they become emergencies. The proposed bond program will go a long way toward reducing the expensive, time consuming emergency repairs to the AWSS. President Fernandez-Ruel asked if the amount proposed for AWSS is adequate to get the job done. Mr. Jew replied that it is a very good start, but it is not the complete answer. We will take care of the most critical areas with these funds, and the next areas some time down the road.

Vice President Roff said he was astonished to read in the report prepared by Assistant Deputy Chief Scales that we are losing 200,000 gallons of water each day from leaks. Mr. Jew said this was particularly critical for leaks within a sewer line because it takes so long to discover them. Vice President Roff asked for a description of some of the non-construction costs listed on Page 23 of

4. REGULAR CALENDAR - NEW BUSINESS

C) Bond Issue (Continued)

the report. Mr. Jew said that the construction management costs ($5.5 million) pay for the project managers who oversee the entire project, planning, monitoring, community outreach, inspection and testing. The administrative costs ($1 million) include overhead for the various city bureaus associated with the project, including inspectors. Vice President Roff asked if the City was approaching its bonding capacity. He wondered how our bond issue would fit into other bond measures that may be proposed in November, 1996. Assistant Deputy Chief Scales said he talked with Mr. Steve Nelson, Office of the Chief Administrative Officer, and the only other bond measure at this time is $100 million housing bonds. Vice President Roff asked about the pipeyard referenced in the report. Assistant Deputy Chief Scales said it is a fire department facility located behind Station 9. It houses the fire department's utility plumbers, laborers and manager. These individuals maintain our fire hydrants and related AWSS materials and equipment. The pipeyard was inadvertently omitted from the fire department's last bond issue. Vice President Roff asked if this facility could be combined with a similar DPW facility. Mr. Jew said that DPW has an operations yard. The fire department's pipeyard is quite large because it stores so many fittings and pipe materials, hydrant bodies, etc. These are specially designed fittings, purchased in quantity and stored on site.

Commissioner Roeca said he appreciated the presentation, and he had a question about Pier 22-1/2. He has visited the site and agrees that it needs serious work. He asked what is the current relationship between the Port and Fire Department as to the pier's use, are we on a lease agreement. Assistant Deputy Chief Scales said there is no lease. The Port Commission currently pays for the officers and pilots and marine engineers. The facility has been a grey area. When we asked to upgrade the facility the Port said we should take the initiative at City Hall. President Fernandez-Ruel asked if we have a defined legal relationship with the Port Commission as to the use of the area of the pier. Assistant Deputy Chief Scales said he didn't know if there was an actual written agreement. I believe it has been a gentleman's agreement. Commissioner Roeca asked a question related to the AWSS projects included in the bond measure. If more work has to be done after this phase, and we make this first start, are these efforts compatible with proposed additional construction in the future. That is, will we have to go and dig up what we would have done in this first phase. Or is it part of a planned phase, so that we can tell people in the future when we ask for more money to complete what needs to be done that we aren't going to dig up the same streets. Mr. Jew said we wouldn't be digging up the same area. It is a well thought out plan.

Commissioner Nakajo inquired about a November election and the campaign and strategy associated with success. He asked who is responsible for creating that campaign and strategy. Assistant Deputy Chief Scales said that the uniformed force is not allowed to campaign as such. We are allowed to give informational talks. The Commission is usually the one who carries the banner.

4. REGULAR CALENDAR - NEW BUSINESS

C) Bond Issue (Continued)

In 1992 it was John Ertola, President, Fire Commission; in 1986 it was Henry Berman, President, Fire Commission. Commissioner Nakajo was glad to learn of the competition in November for other bond issues. It is going to be very important as to how the general public regards what the Fire Department is doing. He wants the Fire Department to be well prepared. Mr. Jew said there is an outreach program for all the community organizations related to the AWSS project. This issue of a bond measure for AWSS has already been well received by the residents. This proposed bond issue also has been well received by the Chamber of Commerce. Commissioner Nakajo asked if endorsements for the bond issue are the same as any other campaign. Vice President Roff said yes. He also opined that this would be something where there would be considerable public interest. Vice President Roff said that historically the facility for the fireboat has been in this grey area that Assistant Deputy Chief Scales spoke of. It is something that needs to be clarified because at one time there was a Port Director who wanted to stop funding the Phoenix; that it was superfluous. That was before 1989. The facility has been disheveled and decrepit for a long period of time. It is a good opportunity to clarify the legal standing of the pier and facility and bring it fully under the maintenance of the Fire Department.

President Fernandez-Ruel said it was a marvelous presentation and thanked all those who participated. She said that the Commission would do what it could to facilitate this because it is a very important issue.

There were no further questions or discussion and the proposed bond issue was adopted on recommendation of Chief of Department.

2. CONSIDERATION OF A RESOLUTION ON THE PROPOSED PLAN FOR OPTIMIZING THE CONFIGURATION OF SAN FRANCISCO'S EMERGENCY MEDICAL SERVICES

President Edward A. Chow, M.D., welcomed the members of the Fire Commission to today's meeting of the Fire and Health Commissions. He noted that the Commissions were assembled to participate in a most important discussion and to consider a Joint Resolution (Health Commission Resolution No. 10-96 and Fire Commission Resolution No. 96-03) which would improve the City's Emergency Medical Services (EMS). He introduced Sandra Hernandez, M.D., Director, Department of Public Health. Dr. Hernandez welcomed the Fire Commission and Chief Demmons and asked Mitch Katz, M.D., Director of Epidemiology, Disease Control and AIDS, to summarize the Resolution, which he did, as follows:

... The configuration study showed how useful it was to have a planning process that included front-line paramedics and firefighters. Having completed a very successful planning phase the question is how to move forward on these recommendations. In this implementation phase, we have to simultaneously maintain the vital input of the front-line people while at the same time, working within our respective departments, provide details on how to implement these recommendations. While the recommendations before you for a fire-based EMS are conceptually straight forward there are a tremendous number of details on how this would actually come to happen. In order for this to succeed both departments need to work closely together through their Commissions and their Chiefs.

... An appointed Steering Committee of departmental representatives will resolve the operational details.

... Town hall meetings will be held to keep front-line firefighters and paramedics abreast of changes and to seek their input. Many of the most creative solutions to problems came from front-line people. The composition of the Steering Committee is set forth in the Resolution.

... Subcommittees as necessary would be formed to deal with the details involved in:

- operations
- staffing and scheduling
- communications dispatch
- training, including competency assessments
- budget issues (expenses and revenues)
- legal issues, such as the Consent Decree
- administration and supervision
- medical oversight, including quality improvement
- risk management
- work/labor issues

... Counsel from City Attorney's Office will be included.

... The Steering Committee would perform policy review of the recommendations of the subcommittees. So we would have a very strong departmental presence

2. (Continued)

at the policy overview and then we would have subcommittees where much of the work would occur, where there would be a lot of active participation from front-line personnel. The Steering Committee would bring forward to the two Commissions at a joint meeting in August a set of recommendations on how this would be implemented.

... The August update would include:

i. A timetable for the proposed consolidation, including dates for meet and confer with Unions; joint trainings; integration of communications; integration of line staff and management, and integrated response to calls.

ii. A proposed organization chart showing the line of command for a fire-based EMS system.

iii. An analysis of budgetary implications of the consolidation, including ongoing support needed to maintain third party billing.

iv. A plan for integrating the staff of the Paramedic Division with the Fire Department.

v. A plan for integrating the quality improvement and risk management activities of the Fire Department Medical Services with that of San Francisco General Hospital.

vi. A proposed integration of the communications system of the Fire Department with the Paramedic Division.

Dr. Chow asked President Fernandez-Ruel if she would like to make some opening remarks, and apologized for not asking her before the presentation began. President Fernandez-Ruel thanked Dr. Chow, his colleagues on the Health Commission and staff for having the Fire Commission present today. She noted that the Fire Commission held a meeting on this topic on April 4, 1996, and received a presentation from Drs. Hernandez and Katz at that time. The report was lengthy and detailed and let the Fire Commission know that the Health Commission during its meeting (and town hall meetings) looked very critically at the configuration study and consolidation. Further we had considerable public comment at the April 4th meeting. We realized that there was a lot more to do and it was decided that we would meet with the Health Commission and receive more public comment, and also to consider a plan of action, a plan of implementation that would be put together by the Steering Committee reporting to both Commissions sometime in August. This would include all the possibilities and how we could actively be a part of assisting - in what I believe is a very important service to the citizens of the City and County of San Francisco. I thank the Health Commission and staff on behalf of the Fire Commission and Chief Demmons for having us here today and I look forward to hearing the rest of the testimony and look forward to more meetings, and hopefully at some time an implementation plan that everyone will agree upon.

2. (Continued)

Dr. Chow inquired if any Commissioners had any questions before proceeding to public comment. Vice President Roff asked for a minor clarification of the list of members of the Steering Committee. It states a total of seven members but actually lists eight. He wondered about the status of the convener. Dr. Katz said that he would be the convener. He did imagine a consensus process rather than majority voting. We wanted the membership to consist of equal numbers from the two departments. We recognize that the EMS Agency in some way has regulatory authority over both, and, therefore, would be the sensible convener.

Dr. Hernandez noted that the effort here is one of improving services. She emphasized to the Commissioners that both departments should work out the operational details of the plan and need to address the outstanding operational, legal and labor-related issues. She is confident that under Dr. Katz' leadership that we will be able to bring an operational plan back to both Commissions in August for your consideration that will address all the issues. She thought that the town hall process was an exceptional process for getting City-wide consensus as to what a system could do with existing resources. It was not an attempt to save dollars but to better use resources already invested in our work force and in our respective departments. On behalf of the Health Department I stand by the recommendations. I think they make good publlic policy, good health policy and good public safety policy, and the department is prepared to put any resources necessary into an operational plan ensuring a smooth transition. I have reviewed these recommendations, particularly the one involving the paradmedics moving to the Fire Department, with Mayor Brown, and he has expressed his support and has asked us to move forward with the next step, and I think he would support adoption of of the Resolution which is before you today. She urged the Commissions to maintain the momentum of this process.

Chief Demmons thanked President Chow for the opportunity to speak and thanked the members of the public for attending. He indicated his desire to share some of his thoughts with all here present. Some of the comments he heard indirectly from members of the department and some of the concerns they had in terms of the focus being placed so heavily on providing medical services that the suppression end may suffer. I can assure everyone that is not the case. Even in suppression our primary objective is life safety first. I think that we all need to focus on what it is we are trying to do, and that is to better serve the public. That is our goal and that is why we all came into the fire service or paramedic service. The reason we came in is to serve the citizens of the City and County of San Francisco. If we keep that in mind and keep our communications going and talking to one another through town hall meetings and so forth we can have all our concerns addressed. We should look at this not as a possible problem but an opportunity. It is one that I am very excited about as Chief of Department. For a number of years I have gone around the country to different meetings, International Fire Chiefs, and some other meetings with fire department organizations, and the primary concern voiced around the country is the fact that they want medical services in the fire department, and the fire departments are concerned about privatization. The real fight is to

2. (Continued)

prevent that from happening. Fire departments feel they can provide the service better. I know that we can in the City and County of San Francisco. We should look at this opportunity to make it happen. We have to take all operational activities into consideration; we have to look at the Unions' concerns, but these concerns can and will be addressed. I want to reassure everyone that we are going to do everything in our department to assure that the public gets the best service that they can. This is a tremendous opportunity for the Fire Department and the Health Department to put together a system and a service to better serve the public.

The following individuals spoke on the Resolution:

- Chief Ehrhardt Groothoff, Paramedic Divison (in support of)
- Dr. Marc Snyder, S.F. Emergency Physicians Association (in support of)
- William Lafferty, S.F. Fire Department (in support of)
- Larry Ratta, Paramedic Division
  (expressed concerns about merger - recruitment - quality of care - adjustment period)
- Glen Ortiz-Shultz
  Chair of the Response and Transportation Work Group (in support of)
- Tom Jaquish, S.F. Medic One Foundation (in support of)
- Dale Butler, Local 790
- James M. Ahern, President, Local 798, S.F. Firefighters Union

Good Afternoon. My name is James Ahern, President of San Francisco Fire Fighters Local 798, the recognized collective bargaining representative of the uniformed members of the San Francisco Fire Department.

Local 798 is currently reviewing the report prepared by the Emergency Medical Services Agency and that Agency's recommendation for a major reconfiguration of the City's Emergency Medical Services System.

The 1350 men and women of this Union supports the efficiency and good name of the Department and are committed to serving the citizens of San Francisco.

Our members, however, have many questions and concerns about the impact which this reconfiguration plan may have on working conditions and other terms and conditions of employment for firefighters.

To gather additional information about Emergency Medical Services (EMS) and the Fire Department, Local 798 will prepare a membership survey and conduct a one-day workshop to be held in June. Invited speakers will include other union presidents from various cities in the state with fire-based EMS programs and explain to Local 798 members about their experiences in those cities and any problem

2. (Continued)

areas that they may have encountered with implementing such programs. The intent of the survey and workshop is to create a dialogue and listen to the issues and concerns of the work force: Firefighters who respond to the fire/rescue/emergency calls throughout this City.

What are the concerns of the members?

Firefighters want to know whether the reconfiguration plan will create a situation where engine and truck companies engaged in emergency medical responses are not available to respond to large fires and fewer firefighters will be available to fight these fires.

Firefighters want to know, for example, whether the reconfiguration plan will increase the number of emergency responses for firefighters and what effect that will have on their job performance and fire suppression.

Firefighters want to know if the reconfiguration plan will also reduce fire protection by leading to the closure of any existing fire stations.

Firefighters want to know how the reconfiguration plan will affect the right of firefighters to choose the fire stations at which they work based on seniority or whether pradmedic/firefighters will have super seniority rights.

Firefighters want to know whether our current firefighters who obtain training and certification as paramedics will have to continue working as paramedic/firefighters even if they decide that they are not suited for that kind of work.

Firefighters want to know how selections will be made from our current firefighters to determine which of them will be cross trained as paramedics.

We want to know whether company officers will also be cross trained as paramedics or mainly as firefighters.

We want to know what the promotional opportunities will be for paramedic/firefighters as opposed to firefighters who are not cross trained as paramedics.

We want to know whether there will be any changes in the hours of work for firefighters who are cross trained as paramedics or, for that matter, for any firefighters.

Local 798 is not prepared to accept the recommendation for a fire-based EMS plan in San Francisco until we have the answers to

2. (Continued)

these questions. Local 798 recommends that a good faith effort be made to seek the answers to these questions before any unconditional approval of this plan is reached.

Local 798 believes that the Fire Commission should not give unconditional approval to this plan either until it also has the answers to these questions. We believe that there must be an understanding of the necessity of preserving adequate fire protection for the citizens of San Francisco.

Local 798 is concerned about the resolution that you have before you and requests that you amend this resolution to make clear that you are only granting conditional approval of the plan at this time and that you will not grant final approval to the plan until you are shown all of the details of the manner in which it is to be implemented.

Please consider that Local 798 has the right to collectively bargain over any changes in wages, hours and other terms and conditions of employment for the employees it represents. The Union will pursue appropriate action that may be necessary to preserve its right and the right of its members to collectively bargain over any part of the reconfiguration plan that affects these matters. Any proposed time frame for implementation of the reconfiguration plan needs to take this into account.

Firefighters have and will continue to perform their duties, whether that encompasses fire station assignment, drills to maintain their profession, making an aggressive interior attack of a residence or high-rise fire, or responding to the increasing number of emergency medical calls encountered day in and day out.

Firefighters protect property, save lives and serve the citizens of San Francisco. That is our commitment. Thank you for your attention and your courtesy during my remarks. I am available for any questions that members of the Fire and Health Commissions may have.

Dr. Katz pointed out that both Commissions have to approve the contents of the implementation plan. There needs to be a clarification of the role of each of the Commissions after the completion of the consolidation of the Paramedic Division with the Fire Department.

Health Commission Resolution No. 10-96
Fire Commission Resolution No. 96-03

JOINT RESOLUTION OF THE
HEALTH AND FIRE COMMISSIONS

SUPPORTING THE RECOMMENDATIONS OF THE 1996
SAN FRANCISCO EMERGENCY MEDICAL SERVICES
CONFIGURATION PLAN

WHEREAS, the Health and Fire Commissions have received a full report on the San Francisco Emergency Medical Services Configuration Plan; and

WHEREAS, this plan represents a broad consensus of public and private paramedics, firefighters, emergency medicine physicians and nurses, and other members of the Emergency Medical Services community; and,

WHEREAS, this plan offers the residents and visitors of San Francisco a faster response with more skilled personnel response by sending highly trained paramedics on Fire Department vehicles; and,

WHEREAS, this plan achieves its goals through the close cooperation of the Health and Fire Departments; now, therefore, be it

RESOLVED, that the Health and Fire Commissions support the recommendations of the 1996 San Francisco Emergency Medical Services Configuration Plan; and,

FURTHER RESOLVED, that the Health and Fire Commissions support a fire-based response and transportation Emergency Medical Services system to be accomplished through the consolidation of the Department of Public Health Paramedic Division with the Fire Department; and,

FURTHER RESOLVED, that the combined system will provide a tiered response, including both ALS (Advanced Life Support) and BLS (Basic Life Support) services so as to tailor the response to the need of citizens; and,

FURTHER RESOLVED, that the Health and Fire Commissions direct their Departments to form a seven-member Steering Committee to develop an Implementation Plan which would include a timetable, an organizational chart, a budgetary analysis, and an integration plan for staff, quality assurance and communications. The Steering Committee should consist of:

... Chief Robert L. Demmons or his representative;
... Dr. Sandra R. Hernandez or her representative;
... Two additional Fire Department representatives to be appointed by Chief Demmons, including one representative of the Fire Department Medical Services;
... Two additional Health Department representatives to be appointed by Dr. Hernandez, including one representative of San Francisco General Hospital, and one of the Paramedic Division;
... One Mayor's Office representative; and
... Medical Director of the Emergency Medical Services Agency serving as the Convener of the Steering Committee;

and,

FURTHER RESOLVED, that the Health and Fire Commissions direct the Steering Committee to bring a progress report on the Implementation Plan to a time-certain Joint Commission meeting in August 1996.

I hereby certify that the foregoing resolution was unanimously adopted by the Health Commission and the Fire Commission at a Joint Commission Meeting on Tuesday, May 7, 1996.

/s/ SANDY OUYE MORI
Executive Secretary to
the Health Commission

/s/ RAYMOND G. CONNORS
Secretary
Fire Commission

Action Taken: Upon a roll call vote, the Health Commission and the Fire Commission unanimously adopted the above Joint Resolution.

Fire Commission: Rosemarie Fernandez-Ruel, Hadley Roff, Stephen Nakajo, Russell Roeca, Ted Soulis.

Health Commission: Edward A. Chow, Debra A. Barnes, Thomas Lee Eades, Sharon Gadberry, Roma P. Guy, Lee Ann Monfredini.

Each member of the Fire Commission and several members of the Health Commission made comments about the Resolution, and some members engaged in an exchange with James Ahern, President, Fire Fighters Local 798, relative to his prepared statement.

President Fernandez-Ruel commented that today marks an historic event and we have an opportunity to improve services to residents and visitors to the City and County of San Francisco. In the next few months the Steering Committee will convene to address in detail what the particular aspects of the plan will encompass, and what the timetables will be, as well as determining whether or not regulatory compliance will be achieved. Through the process, both unions will be able to come forward with their concerns and issues. It is very

2. (Continued)

important to hear from the employees affected by this plan. In addition, a great deal of assistance will be sought from the City Attorney's Office - from both attorneys to the Fire and Health Commissions - to guide us through the legal details and analyses in order to make the plan a reality. She thanked Dr. Chow, his fellow Commissioners, and Dr. Hernandez, as well as her colleagues on the Fire Commission and Chief Demmons. She also thanked the members of the public who commented on the plan.

Commissioner Roeca said he echoed President Fernandez's statement. This is historic and it can be a win-win for everyone, including the City and County of San Francisco and all its citizens, all the firefighters, all the personnel in both departments. I encourage everybody to take full advantage of the town hall meetings that will be held - participate with the firefighters, everybody work together and I think that we will be very, very proud of what can come out of this.

Dr. Edward Chow, President, Health Commission, commented that except for perhaps Commissioner Roff, he had the longest association with reviewing the EMS system in San Francisco, and for almost seven years has been asking how we can continue to improve our system for the citizens. He congratulated the paramedics, the Health Department, and the firefighters and the Fire Department for putting a program together that looked at how we together can serve the City - and not necessarily our specific departments and own people. I am very pleased to have been part of this process and this day that moves an agenda forward that I personally have been concerned with for the past seven years. He thanked everybody involved in the process. We all look forward as Commissioners to working with the two departments to move and implement the program in the best way possible to serve the visitors and citizens of San Francisco.

Note: These minutes represent summary of events.
Tape recording of the proceedings is available
in the office of the Secretary, Fire Commission.

There being no further business to come before the Commission, the meeting was adjourned at 5:40 p.m.

Dear Chief Demmons:

On February 26, 1996, we suffered a serious fire in our home at 487 Marietta Drive. Our home, as well as the home of our neighbor, was engulfed in flames in a matter of minutes.

We are writing to you in the hopes that you will extend to all involved our deepest gratitude. The quick response, efficiency and team effort of the repsonding firemen saved us the total loss of our home and the concern for our personal valuables has left us with the basics for putting everything back together.

Our special thanks to Captains Marcus Gonzales, Philip Leanio and William Long, Lieutenants John Bonnici and Patrick Hickey, as well as all of the firefighters, who in doing their job so well saved us our home.

Sincerely,

/s/ ED AND MAGGIE MC GOVERN

Dear Chief Demmons:

The Kindergarten teachers at Clarendon Alternative School in San Francisco would like to extend our heartfelt appreciation for the fine work that the San Francisco Fire Department is doing to educate our city's children.

On January 31, Captain Alson Lee of Truck 3 visited our school and gave an excellent presetnation to two of our kindergarten classes. He brought in age-appropriate materials, and was very effective in speaking about fire safety. He talked with the children and was patient in answering their many questions.

We would also like to thank Battalion Chief John Traversaro and the Firefighters in the Schools Program for the wonderful materials given to the two classes. The children were so excited to receive their red fire hats, fire safety coloring books, and the various stickers generously provided by Battalion Chief Traversaro.

The teachers received many positive comments from parents following the presentation. Parents remarked on how much their children enjoyed Captain Lee's talk and all the materials received and how much they felt their children had learned from him. Parents even said that they themselves learned a few things from their children!

A few days after the visit from Captain Lee, the children visited Station 20, located just down the street from our school. There, the children were greeted by Captain Michael Bonnel and his crew. Captain Bonnel and the firefighters took the children on a tour of the firehouse. The children thoroughly enjoyed the trip, and many of them wrote and drew pictures in their journals. "Stop, Drop, and Roll" and "Fire Station 20" were the topics of many of the students. They learned a tremendous amount, and both events made lasting positive impressions of the firefighters and the San Francisco Fire Department.

We would like to thank everyone for all their hard work and commitment to the community and education. Please express our gratitude to these fine members of your department. We would not be able to provide such valuable educational experiences for our children without all the help and support of the San Francisco Fire Department.

Sincerely,

/s/ DEVI MAC KAY, SUMAKO MORIMOTO, GALE NAKASONE

San Francisco, CA 94102

Dear Chief Demmons:

I am writing to inform you that the response to my recent letter was prompt, sincere, and gratifying. Captain John E. Sweeney of Station 31 personally handed me a letter explaining all the circumstances of the San Francisco Fire Department's occupation of the location on 12th and Funston Avenues.

He told me that the Department just moved back into those quarters on April 4 of this year, the day my letter was received, after two years of seismic upgrades and interior remodelling. The graffiti problem was already being dealt with by your office when my letter was written.

To this day, the graffiti remains, but Captain Sweeney assured me it would be removed in the best and fastest way possible. I greatly appreciated his letter and his concern. Please do not hesitate to contact me if I can ever be of help - scrubbing spray paint off walls, or whatever other favor one neighbor might need from another; and thank you for your continued attention to this matter.

Sincerely,

/s/ HEIDI HUGHES

Dear Therese:

Just a short note to thank you for arranging for Firefighter Anne Tam to represent the San Francisco Fire Department at our Open House last March 29th.

As Anne will be able to tell you, the turnout was tremendous and the day's activities all contributed to a very successful event. I am confident that our students and other visitors were able to pick up valuable information from Anne's booth and from talking with her.

Thanks again for facilitating the involvement of the San Francisco Fire Department with our Open House.

Sincerely,

/s/ GRACE HOM
Counselor

Dear Chief Demmons:

This is a thank you letter to the Fire Department for having such a super inspector for the Food Bazaar at the Japantown Sakura Matsuri the past two weekends.

Inspector Michael Braida carefully pointed out to my students what was good about their arrangements, and also what had to be changed. I was delighted to see an inspector carry out his duties by teaching (and hopefully, next year my students will remember!)

Thank you.

Dear Harold:

I would like to take this opportunity, though belated, to express my special thanks to you for the outstanding job you did at the Primary Presidential Election of March 26, 1996, as an employee volunteer for the City and County of San Francisco. Your diligence and flexibility, for that day, to make sure that everything ran smoothly at one or more precints was a tremendous service to voters.

You and your fellow City employee volunteers were so successful, we intend to expand this program for the November Presidential Election.

Again, thank you for volunteering a day to this fundamental aspect of our democracy.

Sincerely,

/s/ GERMAINE Q. WONG

San Francisco, CA 94102

Dear Chief Demmons:

I am writing to thank your department for its presentation on fire and earthquake safety. Firefighter Fernando Juarez did an excellent job in presenting the information to us in a constructive and informative manner. Various items were presented to us that we were unaware of, and will now be incorporated into our drills.

Furthermore, I'd like to thank the department for its response to such short notice. I understand that the department is very busy, but your prompt response to my letter of request demonstrates your perpetual commitment to education and safety.

Sincerely,

/s/ BYRON LOUGHRIDGE
Facilities Coordinator

Note: Two similar letters of praise were received from St. Philips Senior Club, and Patricia Axelrod

C) City Attorney

Communication received from Deputy City Attorney Christine Pelosi, dated April 17, 1996, submitting for Fire Commission's adoption Board of Supervisors' Ordinance authorizing settlement of the following claim:

THERESE J. WARDE, in the amount of $186,500, and MARY CLARKE, in the amount of $14,000. Claim arises out of personal injuries resulting from a vehicle accident occurring on May 17, 1994, at Ocean Avenue and Victoria Street, S.F., CA, and is a compromise of Superior Court Action No. 963-673, consolidated with Superior Court No. 967-526.
(Acc : 93-4-145 (A); Truck 19;
Off : T/Capt. Stephen Cassidy;
Drv : FF Howard Williams;
Tlr : FF Harold French)

Vice President Roff moved and Commissioner Nakajo seconded.
There were no questions or discussion and the proposed ordinance authorizing settlement of above claim was adopted on the opinion of City Attorney's Office and recommendation of Chief of Department.

D) Personal Services Contract

Submitted for review and adoption a proposed personal services contract between the San Francisco Fire Department and Ronald Wren Advertising, Inc., in an amount not to exceed $10,000 in order to provide media advertisement in relation to the H2 Firefighter recruitment campaign.

Vice President Roff moved and Commissioner Nakajo seconded.

Commissioner Nakajo inquired if the Department gives direction to the consultant (Mr. Ronald Wren) as to where advertisement is to be focused. Chief Demmons replied that Mr. Wren worked with the Fire Department on the last H2 Firefighter recruitment drive. He will receive direction from the department regarding the targeted areas. His company also provides us with input as to targeting the various groups. Their statistics on which media sources reach out to various groups that we seek to recruit was very helpful. Commissioner Nakajo offered his resources and cooperation in the recruitment effort.

There were no further questions or discussion and the proposed personal services contract was adopted on recommendation of Chief of Department.

E) Fire Commission Resolution

Submitted for adoption Resolution No. 96-02 modifying the Mutual Aid Agreement between SSFD and WESTDIV (now known as "EFA West") so that the Hunters Point Fire Department will respond to calls within Station 17's first alarm area.

Commissioner Nakajo moved and Vice President Roff seconded.

Vice President Roff inquired if Station 17 is being relocated now. Chief Demmons replied that Truck 17 was at Station 9 and Engine 17 is at Hunters Point. Deputy Chief Condon commented that Truck 17 has returned to its quarters at Station 17, and Engine 17 is quartered at the Hunters Point fire station. The Hunters Point Fire Department has its own quarters and it is staffed. Vice President Roff asked if this is similar to the arrangement we have with the Presidio Fire Department, and Deputy Chief Condon responded affirmatively.

Commissioner Nakajo asked if the fire station at Hunters Point was one of the stations shown last meeting during Assistant Deputy Chief Scales' bond measure presentation. Assistant Deputy Chief Scales replied affirmatively. Commissioner Nakajo asked for a definition of "EFA West." Deputy City Attorney Loretta Giorgi replied that it stood for Engineering Field Activity, West. Commissioner Nakajo asked if WESTDIV is now called "EFA West." Deputy City Attorney Giorgi replied affirmatively.

There were no further questions or discussion and Resolution No. 96-02 was adopted on recommendation of Chief of Department.

F) Formal Complaint

Submitting formal complaint against Firefighter Curtis L. Givens, dated April 30, 1996, for violation of Section 3912.2 of the Rules and Regulations (Intoxicants/Drugs).

President Fernandez-Ruel directed Secretary Connors to comply with Section 4006 of the Rules and Regulations and inform Firefighter Givens that the trial and hearing will be held June 13, 1996, at 6:00 p.m.

4. REGULAR CALENDAR - NEW BUSINESS

G) Formal Complaint

Submitting formal complaint against Firefighter John Minnick, dated April 30, 1996, for violation of the Rules and Regulations as follows:

Section 3811.1 - Misrepresentation as to Sickness or Injury

Section 3811.6 - Violation of Article 38 - Insubordination

Section 3905 - Unfamiliarity with Rules

Section 3935 - False Reports and False Testimony

President Fernandez-Ruel directed Secretary Connors to comply with Section 4006 of the Rules and Regulations and inform Firefighter Minnick that the trial and hearing will be held June 13, 1996, at 6:00 p.m.

H) Public Comment

Vice President Roff commented that as a long time viewer of multiple alarm fires, first as a reporter and now as a Commissioner, he wanted to compliment the fire department on its fine handling and exceptional professionalism at the recent fire at the War Memorial Opera House. It could have been a treacherous and enormously destructive fire. He expressed his compliments to the incident commander, Assistant Chief Gary Musante, other officers and firefighters. It was extremely well handled.

Commissioner Nakajo commented that was great to participate in some ride-alongs and then show up at a greater alarm to see the Department at work and join his fellow Commissioners. It is an awesome feeling to be part of that as a Commissioner.

President Fernandez-Ruel commented that she was paged, could not get through to reply, then called the Chief's office and was told it was a four alarm fire at 401 Van Ness. She could see the smoke from the ninth floor of the federal building so she hurried over there. She was very impressed by the response and how very well all the firefighters worked together.

President Fernandez-Ruel thanked all the members of the department who worked on the EMS configuration study for their efforts and for the information provided to the Commission prior to the meeting. It helped the Commission make the decision it needed to make jointly with the Health Commission. She am very grateful as it was an expedited process for all those involved to educate the Commission on the system and what needed to be done. It was very helpful.

5. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP) and (b) consideration/approval of proposed settlement in Erica Jensen v. SSFD.

6:24-7:23 p.m.

As to Item (a), no action was taken.

As to Item (b), the following occurred:

1. Commissioner Nakajo moved, seconded by Vice President Roff, that the Fire Commission disclose the action it took in closed session regarding the matter of Erica Jensen v. SFFD.

   By a vote of 3-0, the motion passed.

2. Vice President Roff moved, seconded by Commissioner Nakajo, that the settlement in subject case be approved as recommended by the City Attorney, without disclosing the terms of the settlement.

   By a vote of 3-0, the motion passed.

6. CLOSED SESSION

Pursuant to Section 54957 of the Government Code (Brown Act) and Charter Section 3.500 (f)(1), the Fire Commission met in closed session to consider a personnel matter.

Commissioner Roeca arrived during closed session.

7:23-7:55 p.m.

There being no further business to come before the Commission, the meeting was adjourned at 7:56 p.m.

Dear Bob:

On April 14, Carolene and I were at an event at 1076 Dolores Street when one of the guests took ill and was in need of immediate medical attention.

We were very impressed with the quick response by the Paramedic Division and the professionalism with which they handled the situation. They are a credit to our City. Please share this letter with the paramedic unit that responded to the call.

With best wishes,

Cordially,

/s/ MILTON MARKS

A) Letters of Commendation (Continued)

April 30, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

On behalf of the Barden family, I would like to express my sincere gratitude to the members of the San Francisco Fire Department who so generously assisted my family during our recent time of sorrow.

On Saturday, April 20, 1996, my father, retired SFFD Lieutenant John P. Barden, suffered a heart attack at his home on 25th Avenue. Within minutes Engine 40 and CMed were on the scene administering the most professional and up-to-date emergency care available. Unfortunately, they were unable to revive him and he passed away at the scene. The skill and compassion displayed by Lieutenant Gilbert Cortez, Firefighters Marc Evans, Jennifer Mathews and Robert Coleman will always be remembered, particularly by my sister Joyce who was with my dad when he was stricken.

Words cannot express our deep appreciation to Father John Greene for his generosity in cancelling a much needed vacation to assist our family during this time of need. Father Greene was with us during the entire funeral. He organized a funeral ceremony that touched not only the family but every person in attendance. His comforting words and prayers will always be with us.

A special thanks to Lieutenant Michael Horan of the Communications Center who realized there was a family emergency and notified my brother, John, who was on duty at Engine 35. Thanks to Mike, John was on the scene within minutes to provide much needed support to our sister.

Thanks to retired firefighter Jim Bogue whose beautiful voice contributed to a funeral ceremony that we will remember for the rest of our lives.

Thanks to Brendan O'Leary, Bureau of Fire Investigation, who provided a special touch to the ceremony with his bagpipe. Our dad was proud of his Irish heritage and would have greatly appreciated the bagpipes.

Finally, to all members of the San Francisco Fire Department, retired and active, thanks for your kind words and prayers during this difficult time. The San Francisco Fire Department is truly a family that our father was proud to be a member of.

Sincerely,

/s/ DANIEL E. BARDEN
Division 2

Dear Chief Demmons:

On behalf of the members of the San Francisco Opera Company, I would like to thank you and your department for responding so quickly to yesterday's fire at the War Memorial Opera House. This magnificent cultural institution is such an important part of our beautiful city.

I understand that there were 21 pieces of firefighting equipment and 188 firefighters on the scene. The firefighters should be commended for handling what could have been a major tragedy.

My sincere thanks to all of you.

With kind regards,

Dear Art:

I am writing to compliment the Airport Fire Department staff on the handling of United Airlines' Cogeneration plant fire on May 1, 1996. I understand that staff response and efforts were of the high level that San Franciscans have come to expect from their Fire Department.

The fine work of the Fire Department staff at the Airport is very much appreciated.

Very truly yours,

/s/ JOHN L. MARTIN
Director of Airports

San Francisco, CA 94102

Dear Chief Demmons:

We are writing to let you know how much our preschoolers enjoyed the Fireflies presentation by Battalion Chief John Traversaro. The information was so well presented that even our youngest children remembered all the important details like stop-drop-and-roll, cold water on burns, etc. The materials were very age appropriate and helped to reinforce the concepts presented. The uniforms, engine and other visual aids helped the children overcome any fears they have of men and women who are strangers to them and in uniform.

We would like to strongly recommend that the Fireflies program be continued and supported by the Fire Department as it is an important tool in the education of our young children and community. The fireflies have visited our school for many years and we hope to see them for many years to come.

If we can be of assistance in promoting this valuable program, please let us know.

Very truly yours,

/s/ MARNIE SCHENCH

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I would like you to know what a great job Firefighter Fernando Juarez did at our Safety Month: Fire Prevention/Emergency Procedures Day. He was here all day and did four different presentations to train 140 of our employees. His presentations were very thorough with much detail. I have also received comments from employees who felt that they were informative and interesting.

As the Human Resources Assistant for Acordia Lloyd, it is my responsibility to make sure that all employees are informed and trained in emergency procedures. I am grateful that Firefighter Juarez was able to provide this service and train our employees. I hope that this is a service that will continue to be available in the future. It is services like these that make employees working in San Francisco feel safer and more confident in the event of an emergency.

Again, thank you for the opportunity to work with Firefighter Juarez.

Sincerely,

/s/ ANGIE JUNG
Human Resources Assistant

B) Public Comment

Commissioner Soulis thanked Assistant Chief Arthur Citron in helping with Lincoln High School's 48th class reunion. He invited Assistant Chief Arthur Kenney to attend the 48th class reunion on June 1st.

President Fernandez-Rule thanked the management team and staff who worked on the blood pressure screening presentation. She thought it was a very good one and that it provided invaluable service to the community, it is a pro-active approach rather than a re-active approach to providing the necessary medical servies to the community.

She went on to tell a story of what happened to her the other day. She was going down Twin Peaks Boulevard when she noticed a fire up on the hill. She pulled to the side and tried to call 9-1-1 on a cellular phone (it was not a fire department cellular phone), but could not get through. Fortunately, somebody had called and Station 20 responded to the area very quickly. It was very interesting to see what occurred next. Since it was up on a hill a rope had to be thrown down so that a hose could be brought up and the fire could be put out. It was very windy. In any event, the firefighters at Station 20 did an excellent job in what could have been a real disaster since it was so windy. She did not know how the fire started but if someone could inform her later, she would appreciate it. However, she did see some kids up there who could have been smoking or playing with matches. She also talked to one of the firefighters who said that they get a lot of dispatches to that area, especially around the fourth of July when it is going to be very busy. They also mentioned that they had their blood pressure screening in place and to inform friends and neighbors that Station 20 is providing this service. President Fernandez-Ruel again thanked Station 20 for a job well-done, and would like to be informed later on as to how the fire started.

5. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meeting of 05-09-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on April 30, 1996, against Firefighter John Minnick, charging him with violation of the Rules and Regulations as follows:

Section 3811.1 - Misrepresentation as to Sickness or Injury

Section 3811.6 - Violation of Article 38 - Insubordination

Section 3905 - Unfamiliarity with Rules

Section 3935 - False Reports and False Testimony

Secretary Connors indicated that members of the Commission had received a letter from Deputy City Attorney Loretta Giorgi stating that both the City and Firefighter Minnick and Counsel, have agreed to a continuance until Thursday, July 25, 1996. President Fernandez-Ruel so directed.

4. REGULAR CALENDAR - UNFINISHED BUSINESS

B) Formal Hearing (Cont'd from Meeting of 05-09-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on April 30, 1996, against Firefighter Curtis L. Givens, charging him with violation of Section 3912.2 of the Rules and Regulations (Intoxicants/Drugs).

6:15-6:27 p.m.

Deputy City Attorney Helen Kwak represented the City. Firefighter Melvin Hayes represented Firefighter Curtis Givens, who was present.

A closed hearing was requested. President Fernandez-Ruel granted that request.

Firefighter Hayes made an opening statement.

Deputy City Attorney Kwak made a statement which included a summary of the proposed negotiated settlement.

... Termination by the Fire Commission held in abeyance for three years on the following conditions:

> Firefighter Givens shall plead guilty to the pending charge; he shall be suspended for 90 days, March 26, 1996 through June 23, 1996; he shall personally present to the Deputy Chief, Operations, proof that he enrolled in and completed a department approved drug counseling program; he shall submit to drug and alcohol use tests administered by the Department at random intervals for three years from date of negotiated settlement; he shall schedule and complete a physical examination with the Department Physician, prior to returning to duty.

Firefighter Givens pled guilty to violating Section 3912.2 of the Rules and Regulations (Intoxicants/Drugs).

By a roll call vote of 5-0, the Fire Commission accepted the terms of the negotiated settlement.

Several Commissioners made closing comments, as did Firefighter Hayes.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

Dear Chief Demmons:

We regret that it has taken this long to write this letter but in spite of the delay, we wanted to express to you how grateful we are for the prompt, professional service of the San Francisco Fire Department and, in particular, to the firefighters who responded to the tragic balcony collapse on Franklin Street on February 17, 1996.

Our daughter, Kathy, who was injured in the collapse was fortunate to have sustained broken bones only. And while recovery is still, at best, three months away, she has made great progress now being able to get around on crutches. In closing, we know that your firefighters did everything they could for everyone involved and for this, all of us are deeply appreciative.

May 20, 1996

Chief Robert L. Demmons
San Francisco Fire Department

Dear Chief Demmons:

On May 9, 1996, at 10:35 a.m., Engine 3 and Ambulance I-H-88 arrived at Franklin and Sutter streets to find a man collapsed and in full arrest. A by-stander, Mr. Benjie Garchitorea, was the only witness to the arrest and he immediately began CPR.

Under the constant watchful eye of Lieutenant John Payne the crew members of Engine 3 moved the patient, James Sheehey, to a more advantageous place on the sidewalk, evaluated the patient for vital signs, attached and activated their automatic defibrillator, and took over CPR. As Firefighter Darryl Hunter operated the defibrillator, Firefighter David Britt performed chest compressions and Firefighter Timothy Sullivan provided ventilatory support. One initial shock was already given by the time Paramedic Robert Payne and I reached the patient.

As Lieutenant Payne took charge of the scene, interviewed the witness, and kept onlookers out of our way, Firefighter Hunter assisted Paramedic Payne with the establishment of an I.V. and the administration of cardiac drugs. Firefighters Sullivan and Britt assisted me with the placement of the Endotracheal Tube.

During the next 20 minutes the patient was given drugs and defibrillated multiple times with the help of your firefighters in an effort to convert his persistent ventricular fibrillation into a more normal rhythm. With the ninth shock the patient went into asystole and after several compressions by Firefighter Britt and a couple of ventilations by Firefighter Sullivan, Firefighter Hunter recognized signs of spontaneous respirations. A quick check of the pulse and the cardiac monitor showed that the patient was in a slow steady sinus rhythm. With the addition of a cardiac stimulant we were able to get an acceptable blood pressure and we immediately transported the patient to Saint Francis Hospital.

I am pleased to report that Mr. Sheehey progressed rapidly going from the Emergency Department to the Coronary Care Unit and eventually to a regular ward. He was discharged to home on May 16, walking, talking and in good spirits apparently none the worse for his ordeal.

It goes without saying that his survival and his timely return to his family is due in very large measure to the quick action of Mr. Garchitorea and the professional, coordinated teamwork of the crew of Engine 3.

I hope you will extend to the crew of Engine 3 our sincere thanks for their invaluable assistance on this call.

Respectfully submitted,

/s/ JAMES GREEN, Paramedic #207

Dear Chief Demmons:

I am writing to you on behalf of the Miraloma Cooperative Nursery School to say thank you for sending the fire truck to our school.

On May 16, we had a truck visit from Station 15. The children and parents thoroughly enjoyed it. The kind attention paid to our children by Lieutenant James Lambrechts, Firefighters Dennis O'Leary, John Tuiasosopo, and Richard Williams is something that will remain with us all forever.

In addition to being responsive to the children, they provided them with very beneficial information. It is wonderful to know that the safety of our children, as well as ourselves, are in the hands of such fine individuals.

Once again, thank you for allowing us to have had the pleasure of their company.

Dear Chief Demmons:

On behalf of the St. Ignatius Community I want to express our thanks for the participation of Rescue Team No. 1 of the San Francisco Fire Department in the "Car Wreck Rally" held here at our campus on April 17, 1996.

The participation of the Fire Department, particularly the Rescue Team, helped to reinforce the message we tried to deliver to our school through this event.

You are no doubt as aware as we of the extent and danger of teenage drinking today. We feel whatever we can do to dissuade substance abuse of any kind will not only help the students individually, but the community as a whole.

The feedback from our students has been positive and we appreciate your cooperation in helping us to make the rally so successful.

We look forward to working with you in the future. A copy of this letter is enclosed for your use.

C) City Attorney

Communication received from Deputy City Attorney Pamela Thompson, dated May 22, 1996, submitting for Fire Commission's adoption Board of Supervisors' Ordinance authorizing settlement of the following litigation:

ERICA JENSEN, in the amount of $80,000.
The proposed settlement relates to
litigation entitled Erica Jensen v.
CCSF (Fire Department).
(Superior Court Case No. C-971-309)

Vice President Roff moved and Commissioner Roeca seconded. There were no questions or discussion and the proposed Ordinance authorizing settlement of above claim was adopted on the opinion of City Attorney's Office and recommendation of Chief of Department.

D) Formal Complaint

Submitting formal complaint against Firefighter John H. Brown, dated June 4, 1996, for violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

President Fernandez-Ruel directed Secretary Connors to comply with Section 4006 of the Rules and Regulations and inform Firefighter Brown that the trial and hearing will be held July 11, 1996, at 6:00 p.m.

E) Public Comment

Vice President Roff paid tribute to the splendid professionalism of the fire department at this week's fifth alarm fire at Bush and Jones streets. There was an astonishing amount of fire and the department acquitted itself very well. It was very well handled. Regrettably, there was a loss of life though not because of a lack of effort on behalf of the fire department.

President Fernandez-Ruel seconded those remarks. She inquired about the injuries to Eduardo Gonzalez. Assistant Chief Gary Musante commented that he was released this morning from San Francisco General Hospital and taken to his home by ambulance. He suffered two fractured vertebrae. Obviously a back injury is very serious but all the doctors are very optimistic for full recovery and he may return to work in two to three months.

5. REGULAR CALENDAR - NEW BUSINESS

E) Public Comment (Continued)

Commissioner Roeca echoed the remarks that have been made. The firefighters did a standout job.

Commissioner Nakajo commented that, in terms of responding and watching the fire department in action - from a personal viewpoint I was a victim of a fourth alarm of fire caused by arson when I was fourteen years old. So I have a personal feeling, and to be part of the Fire Commission... I am also concerned for the displaced tenants and what happens to them as well. It is amazing to see the coordination between the police department (traffic control) and the fire department.

Chief Demmons praised Assistant Chief Musante and the other officers and firefighters on the scene for their outstanding work. He said that he met a reporter at the scene who commented that the tenants were very complimentary of the job performed by the San Francisco Fire Department.

Assistant Chief Musante asked to make a statement on behalf of the firefighters. He commented that it was an extremely difficult fire in that because of the arson we were unable to make our normal entrance to the fire because the stairway was not accessible due to the fire's rapid spread. This situation complicated the rescues that had to be made. Everyone had to extend themselves, and they really did.

Commissioner Soulis thanked the officers and firefighters for a job very well done.

Commissioner Soulis took the opportunity to introduce his daughter Shana to his colleagues and others present in the audience.

Meeting Adjournment

President Fernandez-Ruel asked for a moment of silent prayer in memory of Mr. Howard Stone who passed away this morning. He was the father-in-law of Deputy Chief Richard Condon.

6. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

6:27-7:40 p.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned out of respect to the memory of Mr. Howard Stone at 7:41 p.m.

Dear Deputy Chief Condon:

On behalf of the Federal Emergency Management Agency, Region IX, please accept my sincere appreciation for your generous support of our National Environmental Policy Act (NEPA) staff training session, April 22-25, 1996. The San Francisco Fire Department's Medical Services Division Training Facility proved to be an ideal location for our four day course, and the facility's hospitable and energetic support staff added greatly to the learning environment.

I would especially like to thank Captain Richard Shortall, Lieutenants Anthony Robbins and Anthony Smerdel, and Firefighter Stephana McClaran for their gracious help and support. Their attentiveness and concern for those visiting the Training Facility distinguish them as first rate ambassadors for the San Francisco Fire Department.

The use of your facility afforded our class of federal and state government disaster recovery speicalists from the Pacific Islands, Hawaii, California, Nevada, and Arizona, the necessary isolation to focus on the subject matter as a team, unhindered by inevitable work place distractions.

I look forward to any future association with the fine professionals of the San Francisco Fire Department, and thank you again for your support of our training efforts.

Sincerely,

/s/ SHIRLEY MATTINGLY
Regional Director

San Francisco, CA 94102

Dear Chief Demmons:

The Board of Directors and residents of the La Galleria Condominium Association building would like to take this opportunity to commend Battalion Chief Thomas McGuire's crew at Battalion 1 on Powell and Broadway for their cheerful and tireless effort on a recent sprinkler break incident at our building at 900 Bush Street.

On Wednesday, May 28, a fire sprinkler line pipe broke and our building went into alarm. The response was within five minutes. Our garage was flooded with water, and Battalion Chief McGuire shut off the sprinkler system and alarm to stop the water. The fire crew stayed and worked to drain the garage with squeegees and pumps, until the majority of water was removed.

The Association would also like to volunteer to have a box for Christmas donations of toys and clothes here at the building to express our appreciation. Please contact the property manager, Cheryl Henry on arrangements. Her telephone number is 981-2800.

Thank you again for the quick assistance and additional effort demonstrated by Battalion Chief McGuire and his crew.

Sincerely,

/s/ BOARD OF DIRECTORS

Dear Chief Demmons:

We would like to thank and commend Battalion Chief John Traversaro and his Fireflies Program for their participation in our Alvarado All School Picnic on June 1, 1996.

Alvarado is a public elementary school located in Noe Valley serving a diverse population. Battalion Chief Traversaro arranged for three firefighters; Alexandra Alexander, Kinnie Jamerson and Eli Payton to be present at our picinc with an engine and fire safety learning materials. The children were provided with excellent instruction in the use of 911, stop-drop-and-roll, and home fire safety. They gave the children fire hats, badges and coloring books as well as a chance to see an engine up close. The firefighters were exceptional with this large group of children. They were professional, patient and kind. We have been approached by several families with thanks for the invaluable instruction and exposure their children received. Many of the young girls were especially impressed by Firefighter Alexander.

We would like to express our sincere appreciation for this outstanding community program and Battalion Chief Traversaro. We applaud the dedication of the professionals involved and the community service provided.

Sincerely,

Chief Robert L. Demmons
San Francisco Fire Department

San Francisco, CA 94102

Dear Chief Demmons:

This is to all who helped yesterday with the Bush Street fire:

Thank you.

I live at 999 Bush Street and was woken up by sires at 5:10 a.m. Thank you for getting there so quickly. I lived at 1011 in 1994. When I left, I left behind two of my best buddies in the world and my 125 pound rotweiller. You saved all three as I watched from the street.

Jason and Kristina were in shock all day until finally they were allowed in to see if there was anything to save. Thank you for letting them in - they know you didn't have to do it. It provided closure to a helacious day and immediately the healing process was begun.

They didn't save much, but we have all been amazed and surprised at the generosity of strangers and neighbors alike. Every firefighter we spoke to in the course of this ordeal was helpful and sensitive and seemed to care about the well being of the victims.

Needless to say, I hope you find whoever is responsible for this tragedy. The rebuilding has begun and hopefully, the worst is over.

Thank you again.

Sincerely,

/s/ NINA L. MANSON

Dear Chief Demmons:

On Tuesday evening, May 28, Firefighter Fernando Juarez facilitated a training on fire safety and earthquake preparedness for our certified Foster Parents. The entire group was engrossed in the presentation from start to finish. Many Foster Parents have since approached staff with positive feedback and appreciation. Firefighter Juarez presented the valuable information and material with clarity and professionalism. He was very approachable and knowledgeable in accepting questions from the group.

Community Care Licensing requires foster homes to have yearly fire drills and to have adequate plans for safety in the event of disaster. The presentation provided a valuable foundation for us in educating our Foster Parents in this endeavor. Please accept our appreciation and gratitude for the valuable service you provide.

Sincerely,

/s/ MARY HEILER
District Administrator

Dear Chief Demmons:

This letter is to address to your department and engine companies that participated in the 1996 drill in San Mateo County last month, allowing us to thank you and your firefighters for a job well done. The Cities firefighters and officers performed with great knowledge and skills with Peninsula firefighters. San Francisco provides well trained firefighting crews and the safety equipment issued to your employees meets and exceeds fire department standards in the Bay Area; your safety engineer did a great job. Again, your people were excellent to be with and we all learned a great deal and new skills. We here appreciate training with the San Francisco Fire Department.

Sincerely,

San Francisco, CA 94102

Dear Chief Demmons:

I recently completed a course given by the San Francisco Fire Department known as NERT (Neighborhood Emergency Response Team) training. As its title would indicate, it teaches a lay person like myself how to help my family and my neighbors around me in an event of an emergency. I was extremely impressed by the wealth of information it provided. I believe it serves a very important role in educating the citizens of this city on how to behave during and after a natural or man-made disaster. In these times of budgetary constraints I realize that many less useful programs have to be eliminated to balance the budget. I would like to urge your continued support, however, to this particular program given by your Fire Department. Thanks for your time, and keep up the good work!

Sincerely yours,

/s/ RONALD LEE

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meeting of 06-13-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on June 4, 1996, against Firefighter John H. Brown, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

Secretary Connors commented that at the request of the Department this matter has been continued until Thursday, July 25, 1996. Acting President Roff directed the matter to be calendared for the 25th.

5. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation

Submitted four letters (two for NERT) commending members of the Department for response to requests for assistance, emergencies, or Neighborhood Emergency Response Team.

Acting President Roff directed that these letters be acknowledged and incorporated in the minutes of today's meeting.

Dear Chief Demmons:

Thank you for helping make the San Francisco SPCA's premier Animal Wingding '96 a great day for the animals!

What an honor to have the San Francisco Fire Department engine in our parade. It really added grandeur and festivity to our event and helped us attract a great audience! With your help we were able to showcase our life saving services and programs to more people than ever before and raised money that will save thousands of homeless and abandoned animals.

We haven't finished the event analysis, but I can tell you that the San Francisco Police Department estimated the crowd to be in excess of 10,000 during the peak hours with 15,000-20,000 in attendance throughout the day. I am especially happy to report that 42 formerly homeless dogs and cats found new loving homes! This was the highest number of adoptions of any single day this year and included the adoption of Samson and Delilah, a pair of eight-and-a-half year old mixed terriers!

Thank you again for helping to make Animal Wingding '96 a life saving success for the animals.

Sincerely,

/s/ RICHARD AVANZINO
President

Dear Chief Demmons:

The Board of Directors would like to share and express its deepest appreciation to the Department, specifically Captain Edward DeCossio, Firefighter Jeffrey Chin and Fire Safety Inspector Milton Yuen for their wonderful guidance and support in helping us obtain a conditional permit for public assembly to accommodate our unexpected number of guests at our 1996 Woman Warrior Leadership Award Event on May 8, 1996, at Orocco East West Supper Club.

It is only with their assistance and efficiency, we were able to bring a memorable night of honor for our twelve awardees, their families and the community. Along with giving this special night whereby we recognized and honored these outstanding leaders, we were able to raise $10,000 in proceeds for our Education Fund. Again, what was most appreciated was the professional excellence and community spirits demonstrated by your staff in handling our request within two working days and assuring safety for our guests.

In closing, we thank you for your donation to our event and please extend our compliments to Captain DeCossio, Firefighter Chin and Fire Safety Inspector Yuen for their kindness and dedication to the community. We also appreciated the attendance of Deputy Chief Richard Condon at the event. Lastly, as a San Franciscan, I am proud of the Fire Department through the work of your staff under your leadership and community spirit!

Sincerely yours,

/s/ ANITA W. WONG
Chairperson

June 20, 1996

Chief Robert L. Demmons
San Francisco Fire Department

San Francisco, CA 94102

Dear Chief Demmons:

On June 13, 1996, at approximately 0855 hours, Engine 23 and Ambulance 1-Henry-86 responded to 3017 Irving Street on an elderly syncope patient.

Upon our arrival we found the crew members of Engine 23 applying oxygen and evaluating a cancer patient named Mary Abbott, age 88, who collapsed on a steep flight of steps outside her house. Mrs. Abbott had just been released from the hospital after several days of treatment.

Mrs. Abbott was unconscious, very pale and with greatly diminished vital signs. Under the constant watchful eye of Lieutenant Cobden Hitchon, Firefighters Bernard Gibson and John Hughes assisted my partner, Paramedic Richard Trezevant, with carrying the patient downstairs to our gurney for transport to the ambulance. Once in the ambulance, and because of the deteriorating vital signs the patient was intubated with the help of Firefighter Herman Woo, EMT-1.

While Lieutenant Hitchon and Firefighters Gibson and Hughes assisted my partner in collecting information about the patient's medical history, Firefighter Woo ventilated the patient thus making it possible for me to start an I.V. and administer the appropriate medications.

We eventually learned that the patient was wearing a concealed, very potent slow release medical narcotic patch that was probably depressing her respiratory function. With the help of Firefighter Woo the patch was located and removed. The patient began to improve almost immediately. The patient was then transported to UCSF Emergency Department where she made a full recovery later that day.

Please extend to the crew of Engine 23 our thanks for their assistance on this call as their help really made our job much easier and hastened the patient's recovery.

Respectfully submitted,

/s/ JAMES GREEN, EMT-P #207

A) Letters of Commendation (Continued)

June 20, 1996

Dear Chief Demmons:

On June 16, 1996, at approximately 1052 hours, Truck 15, Engine 18 and Ambulance 1-Henry-84 responded to a cardiac arrest at 815 Victoria Street.

Upon our arrival we were confronted with several very emotional family members. They were performing CPR on a 69-year-old male family member with a long history of heart disease who experienced an unwitnessed arrest.

Under the constant watchful eye of Captain William Long of Truck 15, Firefighter James Kircher attempted to calm the family members while Firefighters Marco Nocon took over CPR and Donald Peoples began ventilations.

As my partner began to assess the patient we found ourselves confronted by a very complicated situation. The patient had an actively firing pacemaker which was necessitated by many years of severe heart disease. There was no cardiac capture which means that there were no effective perfusing heart beats. Normally the physical findings would have been enough to preclude further resuscitative efforts. However, in this case, the electro-cardiogram was far from clear. It was questionable whether or not the patient was in an Agonal rhythm or Ventricular Fib. To complicate matters it was unclear how long the patient had been down before the family started CPR.

Ultimately, we decided that we had to attempt the resuscitation. With the continued assistance of the crew members of Truck 15 we were able to establish an I.V. and get the patient intubated. A few moments later, Engine 18 arrived commanded by Lieutenant Roger Pruyn. He and Firefighter Richard Faust assisted the members of Truck 15 with consoling and aiding the family while Firefighter Gerald McMahon took turns doing CPR with Firefighter Nocon.

It was shortly after the arrival of Engine 18 that we were advised that the patient was the father of one of your firefighters and that the son did want us to continue with the resuscitation.

In order to try and mitigate the situation as the resuscitation continued, my partner, Paramedic Dan Starjash, continued to talk to your firefighters. He tried to answer their questions and explain everything that was being done and why. We continued the resuscitation for another 25 minutes and then stopped when it was clear that there would be no sustainable cardiac activity.

This resuscitation was difficult enough on its own merits. It was clearly made more complicated by the fact that the family started CPR then requested no resuscitation. Knowing that the patient was the father of a fellow firefighter made the situation emotionally charged.

In the face of all of these factors your firefighters always conducted themselves in a calm, deliberate and professional manner. The compassion that they showed to the immediate family members both during and after the resuscitation is a credit to themselves and to your Department. Please extend to the officers and men of Truck 15 and Engine 18 our thanks for all their help during this trying medical call.

Respectfully submitted,

/s/ JAMES GREEN

E) Personal Services Contract

Submitted for review and adoption a proposed personal services contract in the amount of $155,000 from Human Performance Systems, Inc., to develop and validate a physical fitness standard for uniformed members of the San Francisco Fire Department.

Acting President Roff noted that the Commission received a request from the City Attorney's office that the matter be put over for two weeks. Acting President Roff directed the matter to be calendared for the meeting of July 25, 1996.

F) Formal Complaint

Submitted formal complaint against Firefighter Curtis L. Givens, dated July 3, 1996, for violation of Section 3912.3 of the Rules and Regulations (Intoxicants/Drugs).

Acting President Roff directed Secretary Connors to comply with Section 4006 of the Rules and Regulations and inform Firefighter Givens that the trial and hearing will be held August 8, 1996, at 6:00 p.m.

G) Public Comment

Chief Demmons acknowledged the presence of Mike Martin, Mayor's Budget Office. Chief Demmons thanked Mr. Martin for his special effort in assisting the Department to get through the budget process. He did an outstanding job. Chief Demmons introduced Mr. Martin to the Commission. The Commission thanked Mr. Martin for his assistance to the Fire Department.

Mr. Martin thanked the Commission for their comments and indicated that the Chief made it very easy; that he made a clutch play at the end of the budget testimony before the Board of Supervisors, and all went very well after the Chief's explanation.

Chief Demmons thanked Deputy Chief Gamble and Ray Connors for their outstanding job in preparing him for his twenty minutes of testimony before the budget committee.

6. CLOSED SESSION

The Fire Commission will meet in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP) and (b) consideration of proposed settlement in Robert Evans v. CCSF, et al.

6:30-7:30 p.m.

As to Item (a), no action was taken.

As to Item (b), the following occurred:

1. Commissioner Roeca moved, seconded by Commissioner Soulis, that the Fire Commission disclose the action it took in closed session regarding the matter of Robert Evans v. CCSF, et al.

   By a vote of 3-0, the motion passed.

2. Commissioner Soulis moved, seconded by Commissioner Roeca, that the settlement in subject case be approved as recommended by the City Attorney, without disclosing the terms of the settlement.

   By a vote of 3-0, the motion passed.

There being no further business to come before the Commission, the meeting was adjourned at 7:31 p.m.

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meetings of 06-13-96 & 07-11-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on June 4, 1996, against Firefighter John H. Brown, charging him with violation of Section 3912 of the Rules and Regulations (Intoxicants/Drugs).

President Fernandez-Ruel made the following comment:

> With regard to the continued hearing on the matter involving Firefighter John H. Brown, no hearing and/or further disciplinary action is required for Firefighter Brown since he resigned his H2 Firefighter position with the Department, effective close of business June 27, 1996. Since Firefighter Brown is no longer an employee of the Department or of the City and County of San Francisco, this matter should therefore be taken off calendar.

B) Formal Hearing (Cont'd from Meetings of 05-09-96 & 06-13-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on April 30, 1996, against Firefighter John Minnick, charging him with violation of the Rules and Regulations as follows:

Section 3811.1 - Misrepresentation as to Sickness or Injury

Section 3811.6 - Violation of Article 38 - Insubordination

Section 3905 - Unfamiliarity with Rules

Section 3935 - False Reports and False Testimony

Secretary Connors commented that the Commission received a letter from Deputy City Attorney Pamela Thompson requesting a continuance until a mutually agreeable date has been established between counsel for both parties. President Fernandez-Ruel directed that this item be placed on the calendar when a new date is set.

5. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation

Submitted eight letters commending members of the Department for response to requests for assistance or emergencies.

President Fernandez-Ruel directed that these letters be acknowledged and incorporated in the minutes of today's meeting.

Dear Chief Demmons:

On behalf of the Warwick Regis Hotel I would like to thank you for having Firefighter Fernando Juarez speak to our hotel staff on the subject of Fire Safety on July 8, 1996. Firefighter Juarez did an outstanding job. The presence of an experienced firefighter and his use of visual aids and handout materials made his talk interesting and informative. We were also pleased that he was able to accommodate our staff work schedules by making two appearances.

Very truly yours,

/s/ JIM MEILANDER

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I am writing to thank you and your department for the invaluable assistance extended to this department in making Fire Camp 1996 a success.

Twenty children, aged seven to fourteen, got a look into the firefighter's life over the period of a week, and the big finish was a visit to your Division of Training.

Thanks are due to Battalion Chiefs Paul Tabacco and Federico Sanchez, who welcomed the Fire Camp staff and students and allowed them access to the tower and classroom.

Lieutenant Richard Allen and Firefighters Daniel Armenta, Martien Verhaeg and Michael Kirtley of Engine 13 on the A Watch were irreplaceable sources of safety, training and inspiration. The crew of Engine 13 were courteous, competent, professional role models of firefighters.

We hope that the kids who attended Fire Camp left with an appreciation of what a firefighter does, and with some practical information which will promote fire and life safety in their homes.

We know that they left Fire Camp thrilled to have had an afternoon at your department, and again, we thank you for that.

Sincerely,

/s/ DAVID SWAN
Acting Fire Chief

Messrs. Groshong, Shortall, Smerdel, and Ortiz-Schuldt:

I want to thank you for the time you spent with me on my recent trip to California. Your comments and advice were invaluable to me, and will help me to serve the people of Denver more efficiently.

After my return to Denver, I wrote an article for our local paper, and am sending you a copy. If I had not had the opportunity to visit with you, I would not be able to speak with such confidence.

The next time I am in San Francisco, I look forward to visiting with you again. And, of course, if you visit Denver, I hope you will make sure I can return your hospitality, and show you around.

Dear Captain DeCossio:

On behalf of the Philippine Consulate General, Department of Tourism and Kalayaan '96 Committee, I would like to take this opportunity to thank you and your staff for the gracious assistance, cooperation and wonderful service your office provided us during the successful annual Philippine Indepedence Day celebrations at the Musical Islands Philippines on June 9th at Union Square and the Fiesta Filipina on June 15th-16th at Pier 45.

Indeed, your special assistance extended to the committee has made these annual events a resounding success. The Filipino-American community joins us in extending our appreciation in this endeavor, needless to say, due in no measure to your support and cooperation.

The Philippine Independence Day celebration featuring cultural performances and activities by various Filipino-American organizations has attracted thousands of tourists as well as the Filipino-American community.

Thank you for your continued support and please convey our thanks and admiration to the entire staff with special mention to Ms. Barbara Rooney for her kind assistance in documentation and Inspector William Jackson for his kindness, consideration and patience in dealing with the concessionaires.

I wish you more success in your job and we look forward to a closer working relationship with you in our future projects.

Very truly yours,

San Francisco, CA 94102

Dear Captain DeCossio:

On behalf of the Board of Directors of Pine Terrace Association and owners of 160 condominium units at 1001 Pine Street, we wish to express our appreciation and sincere thanks for coordinating and scheduling Inspector Kaan Chin to speak about fire safety, on June 18th.

Inspector Kaan Chin spoke to our group of almost 100 persons about fire safety. He demonstrated the portable fire extinguisher for ABC fires and described the importance of smoke detectors. He further elaborated on and reviewed on video the horrible fire a few days ago at the corner of Bush and Jones Streets. We had two serious fires in the neighborhood in the past week - 900 Bush Street apartment building and another at 1000 Bush Street. Inspector Chin did an excellent presentation and we again want to thank you for making this presentation available.

All neighborhoods and apartment house buildings should consider getting involved and work with the fire department for the safety of the community. The City of Fremont and Pleasanton have just started an excellent program for the summer, with teenagers working with the fire department in learning techniques for fire prevention. I will recommend to Mayor Willie L. Brown that the San Francisco Fire Department initiate a program with teenagers, to work with the San Francisco Fire Department to learn more about fire safety.

We appreciate your good efforts in educating the public.

Sincerely yours,

/s/ ALEC PAULUCK
President

Dear Chief Demmons:

We are a little late, but we would like to thank Firefighters Alexandra Alexander, Kinnie Jamerson and Eli Payton for their time, energy, patience, fire truck, hats, information, badges and the endless joy they gave to our son and others by coming to the Alvarado Family Picnic.

Sam hardly left the fire truck, and the magic of their good personal interaction. It was hot and tiring, but they didn't even take a break to get out of the heat. (Of course, they are fire people).

They were really wonderful. Please thank them for Sam, and the rest of Alvarado.

Sincerely,

F) Fire Commission Resolution

Submitted for adoption Resolution No. 96-04 authorizing Chief of Department Robert L. Demmons to officially apply to the United States Department of Education for 100 percent public benefit transfer of the Naval Technical Fire Fighting Training Center located at the Naval Station Treasure Island, San Francisco, California, to the San Francisco Fire Department.

Vice President Roff moved and Commissioner Roeca seconded.

Vice President Roff complimented the Department for its initiative in acquiring this state of the art facility. The work of Captain Michael McKinley and others in pursuing the application and working with the Congressional offices and others was outstanding. This is a very worthwhile project.

Chief Demmons thanked the Commission, and especially Vice President Roff for his assistance. Chief Demmons joined in thanking Captain McKinley for his outstanding efforts.

There were no further questions or discussion and Resolution No. 96-04 was adopted on recommendation of Chief of Department.

6. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

6:25-8:25 p.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned at 8:26 p.m.

Submitting reports and recommendations of the Accident Committee regarding the following accidents:

| | Accident No. | Date | Serial No. | Category | Recommendation |
|---|---|---|---|---|---|
| Engine 29 | 96-7-001 | 07-03-96 | 585 | A | File |

Off: Capt. Joseph Wright; Drv: FF Stephen Farac

Cause: Misjudged clearance - Eng 29, while backing into quarters, struck the concrete pillar at the bottom of the apparatus door

| | | | | | |
|---|---|---|---|---|---|
| Truck 11 | 96-7-002 | 07-03-96 | 604 | B | File |

Off: Lt. Thomas Gallegos; Drv: FF Steven Kazarian; Tlr: FF Rick Gloistein

Cause: Compartment door malfunction - Trk 11 was responding to an emergency when its rear compartment door opened striking a parked car

| | | | | | |
|---|---|---|---|---|---|
| Battalion 1 | 96-7-003 | 07-04-96 | 364 | C | File |

Off: T/BC James Sullivan; C/A James Healy

Cause: Changing lanes - Batt 1 was returning to quarters when, during a lane change, it struck an automobile

| | | | | | |
|---|---|---|---|---|---|
| Truck 12 | 96-7-004 | 07-04-96 | 610 | C | File |

Off: Lt. Danny Olsen; Drv: FF Russell Lease; Tlr: FF Jack Giessler

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meeting of 07-11-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on July 3, 1996, against Firefighter Curtis L. Givens, charging him with violation of Section 3912.3 of the Rules and Regulations (Intoxicants/Drugs).

Secretary Connors noted that Firefighter Givens was not present. President Fernandez-Ruel directed that the matter be continued until the meeting of August 22, 1996.

5. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation

Submitted twelve letters (three for NERT) commending members of the Department for response to requests for assistance, emergencies, or Neighborhood Emergency Response Team.

President Fernandez-Ruel directed that these letters be acknowledged and incorporated in the minutes of today's meeting.

Hon. Willie L. Brown, Jr.
Mayor of San Francisco

San Francisco, CA 94102

Dear Mayor Brown:

I am writing to commend the quick response of the San Francisco Fire Department on Sunday, June 23. I entered our church to find it filled with the smell of gas. Truck 10, Engine 38, and Battalion Chief Daniel Kiely responded in minutes. They shut off the power and cleared our three-story Victorian structure of the gas. We were subsequently able to hold our morning service.

On behalf of Christ Episcopal Church, Sei Ko Kai, I thank those who responded. Our congregation is one hundred years old. Fortunately, we did not lose our building, due in part to the rapid and professional response of SFFD Truck 10 Engine 38, and Battalion Chief Kiely.

Thank you, Mayor Brown, for your ongoing support of SFFD so that they are able to serve our city well.

Sincerely,

/s/ THE REV. MARY ATWOOD
Interim Pastor

Dear Chief Demmons:

The Pacifica Fire Department would like to express its appreciation for allowing four members of our department to attend your Rescue Swimmer Course taught at St. Ignatius School in June. We would especially like to thank instructors Captain Russell Albano, Lieutenant James Hentz, and their assistants. The class was both interesting and informative. Their knowledge of the the subject matter was extremely helpful, and their enthusiasm and friendly manners made them easily approachable. The actual ocean rescue portion of the class was quite effective in showing the dangers to prospective rescuers. It also showed the need for physical conditioning, training and proper safety equipment.

Since this class, our department is in the process of starting its own Surf Rescue Team. Thanks to this class, we feel that we are better prepared and now realize that minimum personnel training standards must be met before personnel are allowed to enter the surf. Because surf rescue is probably one of the most dangerous aspects of the Fire Service, the need for classes such as this is quite apparent. Since many of our personnel have expressed interest, we sincerely hope that we will again be invited to attend, as future classes become available.

Sincerely,

/s/ ROBERT L. TRAPP
Captain

Dear Chief Demmons:

I would like to extend my appreciation for San Francisco Fire Department's assistance and participation in the July 2, 1996, multi-agency exercise conducted at Naval Supply Center (NSC), Oakland. The participation of Fireboat Guardian and its crew was an invaluable contribution towards making this drill a resounding success.

For drills to have value, realism must guide scenario development and goals need to be clearly defined. One of the goals for this drill was to test procedures for precision master stream foam delivery which could be sustained for extended periods with the foam not straying from the desired landing zone. The expertise of Captain John Peeff's crew in ship handling and their intimate knowledge of vessels of the type used during the drill were critical to our success. With their help, we were able to develop and test a method in which delivery vessels could overcome the effects of thrust during master stream operations and stay "on station." Fireboats carry only limited amounts of foam for routine operations and must be supported from supply, or nurse, vessels that can carry amounts of concentrate sufficient to sustain application for the period necessary to achieve and maintain extinguishment. Because the response vessel combination must work in close proximity, all vessel operators involved in the attack need to know how to work together. In this drill we satisfied the realism requirement by employing assets that would most likely be called upon during an actual incident. Through the hard work of all involved and the skill of the vessel operators, we achieved our clearly defined goal of sustained foam delivery with accuracy.

In using a dynamic multi-agency unified incident command system (ICS), we were able to exercise the Marine Fire Contingency Plan (MFCP). The firefighting exercise which involved Petrochemical Mutual Aid Organization foam and proportioning systems, San Francisco and Oakland fireboats, Suisun Bay Reserve Fleet vessels, U.S. Navy and Coast Guard assets tested our ability to respond to a fire in remote areas. From the time of notification, it took less than

three hours to completely convert three vessels to platforms capable of sustaining foam delivery of 5000+ gallons per minute for at least one hour.

By coming together as a single cooperative entity, we are taking those pro-active steps towards ensuring the safety and environmental security of the San Francisco Bay Area. State-of-the-art equipment along with comprehensive, "user friendly" contingency response plans are only as good as the persons who implement them. Training which includes drills such as the one conducted on July 2, 1996, is the only way we can truly gauge our collective state of readiness.

The professionalism displayed by the crews who responded aboard "Guardian" is highly commendable and a credit to your department. Thank you very much for your continued support.

July 19, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

Many thank you letters and notes we write out of courtesy. This one is written, because it is particularly well-deserved.

On Saturday, July 6, Dolores' father, Larry Lapitan, 85, who lives with us and who has been diagnosed to have severe end stage pulmonary disease, was feeling exceptionally ill and asked us to take him to St. Mary's Hospital. We prepared to take him, when he said, "Call 911!" We did. Dolores went upstairs momentarily and could not believe the fire siren already in front of our door. The response was remarkably instantaneous and can only witness to the fact that the rescue squad of Engine 26 (Lieutenant Frank Kosta, Firefighters Martin Condon, Catherine Conway, and Donald Goggin) possesses thorough knowledge of its area of responsibility. (Moreland Street is commonly very difficult to locate, being nestled in Glen Park, which is somewhat unique, with its narrow, winding and irregular configuration.)

This rapid response was key to giving indispensable, basic life support to our father until the ambulance could arrive several minutes later. The firefighters took Dad's vital signs - his breathing was shallow - and applied a face mask and administered more oxygen (he was already on a home oxygen concentrator machine). They made him as comfortable as possible.

When we expressed verbal gratitude to Lieutenant Kosta and his team and added that we would be sending a thank you letter, he replied, "That's not necessary. We're only doing our job."

Yep! That's what we observed, too. The firefighters were only doing their job, a great job, professionally, efficiently, and with tender-loving care, the latter an ingredient too often overlooked today. Thank goodness for the technology of firefighters, who by the very nature of their job, reinforce their outstanding history of charity and affirm that human life, as a gift of God, is sacred and inviolable and must be protected with loving concern.

God bless you all!

Very truly yours,

Dear Chief Demmons:

I just completed the San Francisco Fire Department Neighborhood Emergency Response Team (NERT) Training Program. What a great experience!

The fire department instructors were terrific. They not only taught a group of 40-plus about safety and preparedness basics, disaster medicine, and search and rescue - they instilled in us a sense of power. We all now believe the Haight Ashbury will be one of the best prepared and safest neighborhoods in San Francisco when the BIG one hits.

The citizens of San Francisco are fortunate to have such a program. I urge the Department to do whatever is necessary to continue the funding of the invaluable program. Everyone knows San Francisco is a world class city - Let's be a world leader in emergency preparedness and neighborhood action as well.

Sincerely,

Commissioner Nakajo moved and Commissioner Roeca seconded.

Commissioner Nakajo commented that recently he attended a recruitment session at the Japanese Community Cultural Center. He was really impressed with the size and diversity of the audience. There were more than 200 people present. Commissioner Nakajo asked when the exam sign ups were scheduled. Assistant Chief James Cavellini replied: Friday, August 16 and Saturday, August 17 at the Division of Training, all day. Staff will remain until every candidate is processed. The examination will be held the week of November 11.

Chief Demmons commented that Assistant Chief Cavellini and his staff, primarily Therese Madden, have not only been overseeing recruitment but handling all the EEO matters as well. They have been doing an outstanding job. That office is very much understaffed and we are working on that right now. Commissioner Nakajo said he appreciated Chief Demmon's comments. He agreed that Therese does a great job. At last week's meeting, Asian American firefighters were present to assist in the process and it was very gratifying to see the energy and teamwork that is part of this recruitment process. The candidates included men and women, all colors and ages. They ranged from candidates in business suits, construction attire, to young students. He was able to sense the attraction that the position of firefighter carries. It was an exciting night for him.

Assistant Chief Cavellini commented that each day between 50 and 60 firefighters are volunteering their time for the recruitment effort performing such tasks as recruitment intake, taking phone calls, entering recruitment data into computers, and in the evenings they attend recruitment orientation sessions. President Fernandez-Ruel commented that it would be nice if their efforts were acknowledged. Assistant Chief Cavellini commented that the volunteers will be acknowledged in some manner.

There were no further questions or discussion and the monthly report of Chief of Department was adopted.

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meetings of 07-11-96 & 08-08-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on July 3, 1996, against Firefighter Curtis L. Givens, charging him with violation of Section 3912.3 of the Rules and Regulations (Intoxicants/Drugs).

6:15-6:25 p.m.

Deputy City Attorney Helen Kwak represented the City. Firefighter Curtis Givens was not present.

President Fernandez-Ruel directed that the hearing be closed.

Deputy City Attorney Kwak provided a chronological summary of steps taken by the Department since July 3, 1996, the date the formal complaint was filed, up to the present. At the conclusion of her presentation, Deputy City Attorney Kwak requested the matter be continued until September 26, 1996.

President Fernandez-Ruel directed that the formal hearing for Firefighter Givens be continued until Thursday, September 26, 1996, at 6:00 p.m.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

Dear Chief Demmons:

This letter is to thank you for assisting the Reprographics section at PG&E in putting on two fire safety and emergency preparedness presentations on Wednesday, July 10, 1996. These presentations were put on by Firefighter Fernando Juarez.

I also want to thank Lieutenant Paul Fuhrman for assisting me in making the necessary contacts with your office.

The presentations were very informative and helpful. Firefighter Juarez conducted himself professionally, and his talks were well received.

Please pass on my thanks to both Lieutenant Fuhrman and Firefighter Juarez for their work. And thank you for making all this possible.

Sincerely,

Dear Captain de Cossio:

I am writing to commend Firefighter Fernando Juarez once again for his excellent presentation at my Neighborhood Watch group located at 1479 - 48th Avenue on Thursday, July 25, 1996.

I have worked with Firefighter Juarez on numerous occasions with various groups throughout the City, and every time I hear him speak, I always learn something new. He always gives the audience his personalized attention, and he handles each question with great expertise and tact. Firefighter Juarez combines important information with a bit of levity, and I believe, this is what makes his presentation truly unique.

I received several phone calls from the residents after the presentation, and they gave an overwhelmingly favorable response about Firefighter Juarez. They enjoyed the valuable information he had to share as well as his genuine concern for their building and the neighborhood as a whole. They were impressed by his sincerity and professionalism.

Should you have any questions, please feel free to call me at (415) 553-1984. My aim is to work with 48th Avenue residents to help them make their neighborhood a safer place to live, and to that end, I would like to commend Firefighter Juarez for all his time and commitment.

Sincerely,

/s/ ROBERT T. BERNARDO

Dear Chief Demmons:

During Tuesday, July 30, through Thursday, August 1, 1996, I was a participant in the "Train the Trainer," Neighborhood Emergency Response Team (NERT) Workshop at the Monterey Conference Center.

Frank Lucier and his cadre of knowledgeable and enthusiastic instructors provided me with the skillls and confidence required to assist school staffs and attendance-area parents and neighbors prepare for earthquakes and related emergencies.

I enthusiastically endorse the program, and wish to express my appreciation for being among those able to effect its ever-expanding influence.

Sincerely,

B) Certificate of Commendation

Presented Certificate of Commendation to Mr. John Mitchell for his actions at the Mission Hotel on July 27, 1996.

President Fernandez-Ruel thanked Mr. Mitchell for his presence and asked him to step forward to receive his special Certificate of Commendation. Chief Demmons read the certificate into the record:

> This Certificate of Commendation is presented to Mr. John Mitchell for his outstanding actions performed at 520 South Van Ness Avenue (Mission Hotel) on July 27, 1996, when he entered a burning hotel room under heavy smoke conditions, located a seriously burned victim on the floor, and removed the unconscious victim to safety. Thereafter, Mr. Mitchell, using a wet standpipe hose, reentered the room and began to extinguish the mattress fire. His heroic actions are truly appreciated by the San Francisco Fire Department.

Chief Demmons congratulated Mr. Mitchell then introduced him to the members of the Commission. Each of them expressed their appreciation.

C) Public Comment

Firefighter Edward Londono, representing Los Bomberos, commented that he was informed that Division 1 may be reactivated in September and stated that his Association would like information about the criteria or guidelines that will be used to select the Assistant Chiefs. Chief Demmons responded that it won't be reactivated by September, and things have to be worked out first; it will be done as soon as possible. Firefighter Londono said the Association would like that information as soon as it is available.

President Fernandez-Ruel thanked Firefighter Londono and indicated that the Chief will follow up on the request as soon as that material is made available.

Muscular Dystrophy - Chief Demmons thanked Deputy Chief Gamble and Assistant Chief Cavellini for volunteeering to be locked up to raise funds for Muscular Dystrophy this afternoon at Planet Hollywood. President Fernandez-Ruel said she received a call from Deputy Chief Gamble and was shocked until he explained the nature of "jail." Chief Demmons said he acted as the judge and set the bail for their release. He thanked the members of the Commission contacted, for their donations on behalf of "Jerry's Kids." He thanked members of the Department and Firefighters Local 798 for their support. Assistant Chief Cavellini commented that the fire stations that he contacted were very generous. Most were glad to contribute and he thought that spoke very well of

Communication received from Deputy City Attorney Arthur Greenberg, dated August 15, 1996, submitting for Fire Commission's adoption Board of Supervisors' Resolution authorizing settlement of the following unlitigated claim:

> MATHIS & ASSOCIATES, in the amount of $40,000. Claim arises out of unpaid professional services from October through November, 1995.

Vice President Roff moved and Commissioner Soulis seconded. There were no questions or discussion and the proposed Resolution authorizing settlement of above claim was adopted on the opinion of City Attorney's Office and recommendation of Chief of Department.

D) Report of Death

Reported, with regret, the death of Firefighter Steve Erickson, Truck 10, who passed away on Friday, August 9, 1996.

President Fernandez-Ruel directed the Commission Secretary to send a letter to Firefighter Erickson's family expressing the Commission's sympathy. She then requested a moment of silence out of respect to the memory of Firefighter Erickson.

6. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

6:25-6:50 p.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned at 6:51 p.m. out of respect to the memory of Firefighter Erickson.

Dear Chief Demmons:

Thank you for asking Assistant Chief Frank Cercos to attend the Jefferson Park clean-up and picnic on July 27th. His presence on your behalf was significant and serves to help create a partnership within the community. We are striving through community organizing to bridge the gap between city services and the citizens.

We especially appreciate the firefighters who volunteered to man the barbecue and hope that you will extend our appreciation to them. Their lively spirit and good humor was most appreciated.

We at St. Paulus will be forever grateful to the San Francisco Fire Department firefighters for the heroic efforts in battling the fire that destroyed the Church last November. We are most thankful that no lives were taken in that blaze.

You and the whole department will remain in our prayers for your noble and heroic work in making San Francisco a safe city.

Yours in spirit,

/s/ MARY LOUISE FRENCHMAN

Dear Chief Demmons:

At its meeting of May 9, 1996, the Board of Trustees of the San Francisco War Memorial voted unanimously to commend the men and women of the San Franciso Fire Department for the high standards of professionalism displayed while suppressing the fire at the War Memorial Opera House on May 2, 1996.

The War Memorial Opera House is a National Historic Landmark, a Civic treasure, a tourist destination and an icon in the world of performing arts. It is currently closed for extensive seismic strengthening and renovation. When the San Francisco Fire Department responded to the Opera House fire alarm on the afternoon of May 2, firefighters entered a construction area with many obstacles and unknown hazards. They were efficient, thorough and successful at their work. At the same time, firefighters proceeded with great care and respect for the historic nature of the building, minimizing damage from water and fire suppression equipment. This has made our fire-remediation activities much less difficult and costly than they might very well have been.

By way of extending thanks and admiration to the firefighters, officers and administration of the San Francisco Fire Department for a job well done under difficult circumstances, the Board of Trustees of the San Francisco War Memorial unanimously adopted the following Resolution:

Resolution No. 69-20

WHEREAS, On Thursday, May 2, 1996, a fire was accidentally started in the box level of the War Memorial Opera House, and

WHEREAS, The San Francisco Fire Department responded to the fire with efficient speed and professional effectiveness, confining and minimizing damage to the box level foyer and seating area, and

WHEREAS, The methods used by firefighters applying minimal water, proceeding cautiously with equipment, and making judicious use of tools, displayed their appreciation and concern for the historic and cultural importance of the Opera House to the people of San Francisco, now therefore be it

Chief Robert L. Demmons

260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

Congratulations on an exceptionally successful blood drive.

The 118 people who participated in the drive at San Francisco Firefighters Local 798 in July contributed 113 units of blood to the community blood supply. Each and every one of these donations will assist in the treatment and recovery of patients in the over 40 hospitals served by Irwin Memorial Blood Centers.

I can't emphasis enough how much all of us at Irwin Memorial appreciate the very special personal investment the firefighters made in coordinating this drive - the valuable commitment of time and energy they devoted in organizing and encouraging all of the donors who contributed. Firefighters Robert Arzave, John McCoy and Romelia Scott are true professionals and assets to the community.

Your next Firefighters Local 798 drive is scheduled for November 6-8, 1996. I am looking forward to working with the firefighters again - the drives are always a special event.

In closing, let me extend my sincerest personal thanks to you, Chief Demmons, and to each of those who participated, for taking the time to save a life.

Sincerely,

/s/ RICK EDMISTON

Memo to: Deputy Chief Harold Gamble, Administration

From : Chief's Aide Jennifer Thomas

Subject: Report on "Girls After School Academy" Field Trip

On Friday, August 2, 1996, six girls from the "Girls After School Academy" were invited to spend the day with some of the women firefighters from the San Francisco Fire Department. The purpose of this field trip was to allow these young girls the opportunity to explore career options and to make them aware of the job opportunities for women within the San Francisco Fire Department.

Our tour began at the Communications Center where Lieutenant Greg Stewart gave them an excellent, easy to understand, overview of our dispatch system. From there we went to Station 33 where Lieutenant Morrison and the on-duty members demonstrated and involved them in a hose and appliance drill, which Battalion Chief Ferry stopped by to observe. Station 33 then served us a nice lunch, with ice cream for dessert.

After lunch we headed down to Station 35. Lieutenant Pat Gardner talked to the children about the purpose of the Fireboat Phoenix, and the special safety rules for riding on the boat. Again, the crew members were very helpful and courteous. They even let each of the children pilot the boat and took the time to explain different parts of the boat and the buildings and other sites that we could see from the boat during the outing.

At the end of the ride on the boat, each of the girls was presented with a San Francisco Fire Department baseball hat, courtesy of Lieutenant Joseph Morrison.

Overall, the day trip was a great success. The young girls were very well behaved and interested in everything, they asked many questions. Thanks to all of the help I had from Firefighters Elyse Duckett, Monica Fields, Juanita Hodge, Chief's Aide Raemona McGregor, and Mary O'Riordan, who helped to chaperone the girls during the trip.

Special thanks to all of the officers and crew members for an excellent job of presenting the tasks they perform on a daily basis.

I feel our involvement with various community organizations will improve our relationship with the people we are committed to serve and protect. As for the young girls, the day they spent with us will hopefully remain with them long enough to encourage them to some day consider a career with the San Francisco Fire Department.

Chief Robert L. Demmons
San Francisco Fire Department

Dear Chief Demmons:

On Monday, August 26th, at approximately 10:30 p.m., Lieutenant Michael Murphy, Firefighters Michael Cotton, Kenneth Hoover and Kathleen Molloy responded to a 911 call which my husband made on my behalf as I was in a great deal of pain, could not swallow and had difficulty breathing normally. Please will you forward my sincere thanks to the above-named people who came to my aid in such a professional and humane manner and assisted in my recovery. I later discovered that I had experienced a severe allergic reaction to something I had eaten at dinner!

This is the first time that any member of our family has needed any of the emergency services and both my husband and I would like to say how impressed we were - thank you all again.

Yours faithfully,

/s/ JACQUELINE A. SMITH

Dear Chief Demmons:

Thank you so much for your generosity in recognizing the care provided by my staff. I am happy to hear that the care experienced by Steve Erickson, his family and friends was so positive. Please accept my sincere condolences on the loss of your loved one. I was moved by the outpouring of support that was extended by members of your department during that very difficult time.

While words cannot ease your grief, I would like to offer my appreciation that you found the time to share your point of view. It is most rewarding to learn from families and friends that our efforts have been helpful. It was a pleasure to share your kind comments with Liz Wong, and the rest of the ICC staff.

Sincerely,

Captain Joseph Carlomagno
San Francisco Fire Department

Dear Joe:

Thanks for including us in the opening season of the Fire Department Youth Fishing Program. We all had a great time and the fish were delicious, although I doubt if they enjoyed the day as much as we humans did. We look forward to many years of adventures on the high seas with you, Captain Robert Serrano, and the firefighters.

I am enclosing a copy of SJETC's volunteer recruitment flier to post at the firehouse. Also enclosed is some material about SJETC and its programs. I'd like to talk to you about the new mentorship program, and any other ways we can bring about interaction between the young people and the firefighters.

Please contact me at 864-5205 so we can set up a meeting at your convenience. If I'm not in the office you may leave a message, or page me at 207-2467.

Thanks again for a great day of fishing and fun.

Sincerely,

Fire Marshal Aarson Stevenson
San Francisco Fire Department

Good Morning, Marshal Stevenson:

Thank you for your letter of July 17 which should have been answered earlier but I was away.

A deep bow of appreciation, Marshal Stevenson, for the prompt, efficient, courteous and helpful way in which Inspector Piombo handled our complaint re: Dr. Kuhn of 70 Palo Alto Avenue!

Mrs. Reynolds joins me in thanking you and Inspector Piombo!

Sincerely,

Dear Chief Demmons:

I am writing to thank Firefighter Fernando Juarez for the outstanding presentation he gave to our club. Firefighter Juarez gave the presentation on fire safety and prevention to the R.C.I. Social Club on Monday, August 19th.

We all learned many lessons about preventing fires and protecting ourselves and our homes from fire. Firefighter Juarez's knowledge and presentation skills made it very easy to ask questions and to understand the importance of fire prevention. He stayed after the presentation and talked individually with anyone who had a question.

He is a fine representative for the San Francisco Fire Department.

Thank you,

President, R.C.I. Social Club

Re : Tour of Third Street Corridor
(Potrero Police District)

It was a pleasure to meet both of you yesterday. We appreciate your taking the time to tour the area and see firsthand some of the problems we are having in our police district as it relates to poorly maintained real estate properties and the associated safety and fire hazards they pose. Would you be so kind as to provide us with a brief report of your findings and recommendations. This information will be shared with the community at our upcoming community-police forum on September 5. It is most reassuring to know that the San Francisco Fire Department is taking an active role in fire safety and prevention in our neighborhood.

Dear Chief Demmons:

I have just completed the Neighborhood Emergency Response Team (NERT) training put on by the San Francisco Fire Department and I am writing to tell you how much I appreciate the program. The program recognizes an important need in educating people and preparing the City for an emergency. The experience of the SFFD is very valuable and they are doing an excellent job in giving the members of the public who are interested and able, who recognize a responsibility to the community, pertinent information covering many aspects of emergency preparedness.

This training program is a first-class example of advance planning and I am sure that it will result in saving of the City lives and damage. The NERT training team is to be commended and I believe they are successful in meeting their goal of doing the most good for the most people. Several of our staff here at the ANA Hotel have attended the training and we have others who would benefit and whom we would like to send. I hope that this program will continue, I am sure that it will prove to be to everyone's benefit.

Yours sincerely,

/s/ STEVE TYGIELSKI
Assistant Chief Engineer

Dear Chief Demmons:

The City of Palo Alto is in the beginning stages of developing a neighborhood disaster preparedness program. To aid in the development of this program, Chief George McDonald and I attended a Neighborhood Emergency Response Team (NERT) "Train the Trainer" course in Monterey from July 30, 1996 through August 1, 1996.

The information in this course, taught by members of the San Francisco Fire Department, was extremely useful and we will be incorporating much of it into our program. The instructors were very knowledgeable and enthusiastic which made the classes enjoyable to attend. We appreciate the time and effort that was put into teaching this course and would like to commend the instructors: Captain Vincent Nolan, Lieutenants George Artemoff, Rudolph Erler, Michael Hennigan, Richard Lauer, Alfred Rizotto, Anthony Smerdel, and Firefighter Dale Scott. We hope that other jurisdictions will have the opportunity to benefit from this program, in the future, as much as we did last month.

If I can elaborate any further, please feel free to contact me at (415) 329-2665.

Regards,

/s/ TANYA DAVIS

Chief of Department

Commissioner Nakajo moved and Commissioner Soulis seconded.

Commissioner Nakajo asked for a status report on the recruitment process and the distribution of candidates. Chief Demmons asked Assistant Chief James Cavellini to respond. Assistant Chief Cavellini said that the sign ups were on August 16 and 17 and there were close to 5,600 applications. The numbers were down from two years ago but the percentages by ethnic makeup and gender were remarkably close. The week of November 11th is the schedule for the exam. The exam unit is now in the process of developing the data base from the sign ups, eliminating some people by their addresses. Commissioner Nakajo commented that in the process of when the exam comes, the candidates take the exam and then turn it in. Assistant Chief Cavellini said that there would be two sessions, morning and afternoon. There will be sufficient accommodations and the candidates will be given a lot of room to work when they take the exam. They will be given verbal directions and tested on that; and given video directions and tested on that also. Commissioner Nakajo commented that there was a recruitment in Oakland and there was tremendous response from the general public. About 15,000 said Assistant Chief Aaron Stevenson. Assistant Chief Cavellini said the reason for that was that they do not limit applicants to residents of Oakland. It is open up to everybody. Assistant Chief Stevenson said that applicants were drawn from a 30-mile radius. Commissioner Nakajo commented that there are many people seeking the fire department as a challenging job and an opportunity to serve the public.

Commissioner Nakajo commended the members of the Fire Department who rescued the window washer who was dangling from a broken scaffold at the side of a high-rise building.

There were no further questions or discussion and the monthly report of Chief of Department was adopted.

C) City Attorney

Communication received from Deputy City Attorney Owen Clements, dated August 20, 1996, submitting for Fire Commission's adoption Board of Supervisors' Ordinance authorizing settlement of the following action:

> ANDREA JOHNSON, in the amount of $32,500. Claim arises out of personal injuries occurring on August 6, 1993, at 655 Presidio Avenue (Station 10), and is a settlement of Superior Court Action No. 963-945.

Commissioner Nakajo moved and Commissioner Soulis seconded.

There were no questions or discussion and the proposed Ordinance authorizing settlement of above claim was adopted on the opinion of City Attorney's Office and recommendation of Chief of Department.

D) Public Comment

Deputy Chief Gamble noted that the Fire Department has a Coro intern for about five weeks and introduced Sean Riley, who is from the Washington, D.C area. Mr. Riley will be spending five weeks with the Department working on projects directly for Deputy Chief Gamble. Mr. Riley has been talking to staff and people around the Department. He has also requested an opprtunity to talk to the President of the Fire Commission at some point, and Deputy Chief Gamble said he would try to facilitate that.

President Fernandez-Ruel welcomed Mr. Riley and indicated that he could talk to her at any time. She mentioned that she was a Coro graduate from the City a few years ago. Mr. Riley indicated that he looked forward to talking to her. President Fernandez-Ruel said that she was really glad that the Department has a Coro intern. It is a fabulous program. She was happy that she had experienced it and she thought that Mr. Riley would be happy for the opportunity to experience it as well. Both the staff and the Commission are very interested in serving the public here in San Francisco at a time when there are a lot of other issues before us regarding affirmative action. She again welcomed him and said that he should feel free to call her.

D) Public Comment (Continued)

Meeting Adjournment

Chief Demmons advised the Commission that he learned with regret of the death on September 10th of Mr. Peter Brennan, a laborer with the Fire Department's Auxiliary Water Supply System since August 1992. Mr. Brennan was assigned to Support Services.

President Fernandez-Ruel indicated that it would be appropriate to adjourn tonight's meeting out of respect to the memory of Mr. Brennan.

5. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

6:18-8:00 p.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned at 8:01 p.m. out of respect to the memory of Mr. Brennan.

Commissioner Nakajo moved and Commissioner Roeca seconded.

Commissioner Nakajo made a general inquiry concerning Item 3B) - Monthly Report - Div.of FP&I.

Because he did not specifically request to remove the item from the Consent Calendar, the remarks are typed below.

Commissioner Nakajo commended Assistant Chief Stevenson, Fire Marshal, for the clarity and comprehensiveness of his monthly report. He was impressed with the pie chart and the emphasis on revenue generating activities. He asked if reference to the R-1 program was the matter that was discussed previously at a Fire Commission meeting. Assistant Chief Stevenson said the R-1 program deals with living units that the State mandates the Department to inspect. This issue was featured earlier in several newspaper articles and was discussed during an earlier Fire Commission meeting. There are approximately 6,000 R-1 buildings in San Francisco. Assistant Chief Stevenson said one of the purposes of the new, expanded report format was to give the Fire Commission the ability

3. CONSENT CALENDAR

(Continued)

to analyze the report in greater detail and ask questions. He also said the Bureau is focusing on the revenue generating programs.

President Fernandez-Ruel asked Assistant Chief Stevenson if he was issuing any reports to the State regarding the Department's compliance with the R-1 inspections. Deputy Chief Condon said the Bureau only reports on any buildings required to be inspected by the high rise ordinance. That is because if we do not inspect them then the State will. We send no report to the State on the R-1 buildings. President Fernandez-Ruel inquired if the Commission receives copies of these reports. Chief Demmons replied that currently the Commission does not receive such reports but they could be provided, if requested.

There were no further questions or discussion and Items "A" through "M" on the Consent Calendar were adopted or ordered filed as appropriate.

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meetings of 07-11-96, 08-08-96 & 08-22-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on July 3, 1996, against Firefighter Curtis L. Givens, charging him with violation of Section 3912.3 of the Rules and Regulations (Intoxicants/Drugs).

6:27-7:15 p.m.

Deputy City Attorney Helen Kwak represented the Fire Department. Firefighter Curtis Givens was not present. President Fernandez-Ruel directed that the hearing be closed.

Deputy City Attorney Kwak summarized the correspondence and telephone conversations that have occurred since the Fire Commission meeting of August 8, 1996, and responded to questions from members of the Commission.

By a vote of 4-0 the Commission directed that the disciplinary charges be stayed pending resolution of Firefighter Givens' separation certification.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

5. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation

Submitted 13 letters (four for NERT) commending members of the Department for response to requests for assistance, emergencies, or Neighborhood Emergency Response Team.

Commissioner Nakajo stated that he knows that all members of the Commission read the letters of commendation received from the public. He wanted to pass the message to the rank and file that it makes him feel good to know how deeply involved the members of the department are in the community they serve.

President Fernandez-Ruel directed that these letters be acknowledged and incorporated in the minutes of today's meeting.

Dear Chief Demmons:

This is just a simple letter to thank you and your department's excellent response to the fire at 201 Roanoke Street.

We were amazed and very impressed that your firemen and women, in the midst of the fire, managed to collect all our valuables within the living room, including artwork on the walls, and cover them with a tarp. We were also thankful at their attitudes, even in attending to our requests to find a pet that remained in the building, and who was ultimately found unharmed.

Great work!

Sincerely,

A) Letters of Commendation (Continued)

September 6, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

Around 8:15 a.m., on Sunday, August 25, 1996, I sustained what appeared to be a heart attack. Upon calling 911, we received an immediate response from Engine 23.

Upon their arrival, it was determined that I had "O" Blood Pressure, and "O" Pulse. As they commenced their emergency treatment, they were immediately followed by the Paramedics. With their combined efforts and utilizing the paddles, leidocane, valium, etc., they were able to get my vitals back onto a stretcher, navigate a difficult flight of steps (turn) and then finally down the front steps to the ambulance, where I was rushed off to U.C. Emergency.

I believe those on duty that morning were Temporary Lieutenant George Schnapp, Firefighters Gene Bottorff, William Magee and Terence Woo.

I wish to convey my deep appreciation to all of them as well as the Paramedics who all were extremely professional and helpful not only to me, but also to my family at that very stressful time. As a native San Franciscan (since 1923), I am proud to say there are none better. You have a great team.

After four days in Intensive Care, I was released from Kaiser Hospital. My diagnosis was Ventricular Tachycardia. With the application of the proper medicine, I am doing very well.

Thanks to the promptness of the Fire Department and the Paramedics, I was home in time to celebrate 73 years on September 2, 1996.

Please extend my sincerest appreciation to all involved.

Gratefully yours,

/s/ DAVID S. COSTELLO, SR.

Re: Commendation for Engine 17, Battalion 10

Dear Chief Demmons:

On July 27, 1996, at 2150 hours, C-MED received a call for service to 1649 Revere. An ambulance (Unit 1-H-95-A) was dispatched as well as Engine 17. Upon the paramedics arrival they found a 15 year-old boy who was in severe respiratory distress. The patient was on oxygen and the engine company was performing a medical assessment. The scene was chaotic, the family was very upset and there was a language barrier. This patient was critically ill and the combined efforts of the Paramedics and Engine 17 were instrumental in saving this person's life. The paramedics wanted to pass on the fact that Engine 17 provided outstanding assistance with this call (as well as many others in the past).

The outstanding performance of Engine 17 reflects highly on the company, Battalion 10, the San Francisco Fire Department, and the City and County of San Francisco's Emergency Medical Services as a whole.

Sincerely,

/s/ CAPTAIN KARL HILLYARD, MICP 632

Re: Commendation for Rescue 2 Firefighter (Name Unknown)

Dear Chief Demmons:

On June 19, 1996, paramedics Michael Tragesser and Thomas Van Der Ree responded with Rescue 2 on a Code Three stabbing. They arrived to find a distraught young Hispanic male who spoke no English. He presented with a through-and-through penetrating (gun shot?) wound to the forearm. He also has a laceration and contusion on his scalp.

A firefighter from Rescue 2 fluent in Spanish stepped forward to gather the history of the incident, interpreting for the paramedics. They learned that the patient was attacked by a group of males with weapons. The firefighter was very dignified and respectful. His manner calmed the victim and facilitated the interviews for paramedics and police.

Despite the difficulties imposed by the victim's agitated state of mind and the distractions posed by disruptive bystanders, this rescuer's calm, professional, demeanor was instrumental in gathering the medical interview that enabled the paramedics to provide appropriate care to the victim, as well as the initial police report that enabled the attacker's description to be broadcast on police radio channels.

We would like to commend the firefighter on Rescue 2 who translated for the paramedics and police. Please relay our appreciation to him for a job well-done in an inhospitable atmosphere. Thank you.

Sincerely,

/s/ EHRHARDT GROOTHOFF
Chief Paramedic

Dear Chief Demmons:

I am writing to commend the firefighters who participated in our 1996 Miss El Salvador-California Pageant held on Sunday, August 25, 1996. This year's pageant was a success in raising money for the organization that helps needy and homeless children of El Salvador.

Firefighters Charles Crane, Fernando Juarez, Michael Orlando, and Anthony Rivera served as escorts during our evening gown portion of the pageant. They were resplendent in their dress uniforms and I was impressed by their professional composure which lent an aura of elegance to the evening.

Firefighter Edward Londono participated as a judge for the competition and once again he did an outstanding job. I have had the pleasure of working with Firefighter Londono on community events before. He is always pleasant and tireless during these volunteer functions.

I feel that these firefighters serve as excellent role models for our community and our young people. The San Francisco Fire Department should be proud to have these firefighters in their ranks. On behalf of the Le Glamour Productions, I would like to extend my appreciation to them for their participation in our pageant.

Sincerely,

Dear Chief Demmons:

On Labor Day I inadvertently locked my brand new bike to a lamp post in the Marina District and found that I had left the key for my new lock at home in Walnut Creek. Your fire department people on Greenwich in the Marina were friendly enough to come to my aid and help me cut the lock. They saved me from losing an expensive new bike. I was very impressed by their friendliness and willingness to help me, a fellow civil servant. Their friendliness exemplifies the charm that makes San Francisco one of the world's great cities.

Even though the officer in charge emphasized more than once that no payment was necessary, I wish to express my appreciation for their saving my bike by donating thirty dollars to the San Francisco Fire Fighters Toy Program and I enclose a corresponding check.

Dear Chief Demmons:

Following San Francisco's example, the City of San Luis Obispo is creating its own version of the Neighborhood Emergency Response Team (NERT). The skills taught within this program are important tools for members of our community and will better prepare them for a significant disaster.

To initiate the program, eight employees from your Fire Department traveled to San Luis Obispo. They were: Captain Vincent Nolan, Lieutenants Rudolph Erler, Michael Hennigan, Henry Larkin, Alfred Rizotto, Anthony Smerdel, Firefighters Frank Lucier and Theresa Williams.

For three days they trained our employees and offered us tremendous support in developing our program. Speaking for the City of San Luis Obispo, I want to thank you for sending us these fine examples of your Fire Department. Their assistance is much appreciated.

SUPPLEMENTAL CALENDER

E) Personal Services Contract

Submitted proposed Personal Services Contract in the amount of $73,755 for 90 days - October 1, 1996 through December 31, 1996 - between the San Francisco Fire Department and the Lockheed Martin Training and Technical Services, Chesapeake, Virginia, to maintain the Treasure Island Firefighting School in an operational status. Sole source waiver has been approved by Frank Anderson, Acting Director, Human Rights Commission.

Vice President Roff moved and Commissioner Roeca seconded.

Vice President Roff commented that the Treasure Island facility will be a wonderful asset to the City, and he congratulated everyone who worked on it. He noted that he had talked to Captain Michael McKinley about this project; that it is a splendid resource, and congratulations to everyone are in order. Commissioner Roeca echoed those remarks. This relates to what Commissioner Nakajo said about the letters of commendation which point that San Francisco has a first rate fire department which is recognized across the country and this new facility will enhance that reputation. President Fernandez-Ruel noted that the record will include ther waiver that was granted by the Human Rights Commission to enter into a "sole source contract" with Lockheed Martin Training and Technical Services.

Chief Demmons commented that he wanted to recognize Captain McKinley, Deputy Chief Gamble and a lot of other people who worked hard on this project. He also wanted to thank Vice President Roff for his assistance.

President Fernandez-Ruel commented that the Commission was ready to adjourn and to go into closed session on the formal hearing (Item 4A) as well as the closed session related to the Consent Decree (Item 6) USA vs. CCSF.

Meeting Adjournment

President Fernandez-Ruel commented that the Fire Commission has learned with regret of the death on September 7, 1996, of Alvin Marriweather, a member of the San Francisco Fire Department's Fire Reserve for two years, a long time volunteer with the American Red Cross and an active participant in the San Francisco Fire Fighters Toy Program.

She next noted that Vice President Roff wanted to make some comments. Vice President Roff reported with great personal sorrow the death of Frank Quinn,

vice president of the Fire Commission from 1988-1992. He was a remarkable figure in the City over many, many years. He was a strong supporter of the struggle for civil rights and justice, and truly a remarkable person. I ask that the Commission adjourn in his memory.

President Fernandez-Ruel asked for a moment of silence to honor Frank Quinn and Alvin Marriweather.

6. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

2. Progress Report and Update on the Recommendations for Optimizing the Configuration of San Francisco's Emergency Medical Services; and Consideration of a Resolution to Transfer the Department of Public Health's Paramedic Division into the Fire Department. (ACTION ITEM)

President Edward A. Chow, Health Commission, called the meeting to order. Roll call was taken and a quorum of both Commissions was present. Dr. Chow asked Dr. Sandra Hernandez to make some opening remarks.

Dr. Hernandez briefly stated the purpose of this follow-up joint meeting of the Health and Fire Commissions and asked Acting Chief of Department Richard Condon if he wanted to make some remarks pending the arrival of Chief Demmons. Acting Chief Condon commended the Fire Department employees for all the work they did on the plan. The task that we gave them was very difficult and they came up with an excellent plan. He deferred further comments until the arrival of Chief Demmons.

Dr. Hernandez then asked Dr. Mitch Katz, EMS Agency Medical Director and Convenor of the Steering Committee, to bring the Commissions up-to-date. For the next 34 minutes, Dr. Katz reviewed Phase II of the final report entitled "Optimizing the Configuration of San Francisco's Emergency Medical Services." (Fire-based response and transportation system).

Dr. Katz began by referencing the joint meeting that was held on May 7, 1996, and that the Commissions directed the Steering Committee to return with a follow-up report for a fire-based response and transportation system. A seven-member Steering Committee was asked to develop an implementation plan. The implementation plan includes a timetable, an operations plan, an organizational chart, a budgetary analysis, and an integration plan for staff, quality assurance, and communications. Attached to these minutes is a copy of the seven-page Executive Summary (Attachment A). The entire Phase II report was 151 pages.

Dr. Chow acknowledged the presence of the Steering Committee members and thanked them for their work. Members of the Commissions applauded Dr. Katz and his Steering Committee members for a wonderful report.

Acting President Hadley Roff, Fire Commission, commented that it was clear that an enormous amount of excellent work has gone into this plan. Major questions remain such as the Consent Decree, meet and confer process, consolidation of the communication systems. These are issues which will come back to the two Commissions at a joint meeting. The thoroughness of the work is truly impressive and establishes a splendid foundation for future efforts. Acting President Roff proposed the addition of another RESOLVED clause for the Resolution under consideration.

> RESOLVED, that the Department work with the City Attorney's Office to ensure that all changes are appropriate in light of the current Consent Decree case, USA v. CCSF, et al., USDC No. C 84-7089 MHP (May 20, 1988).

2. (Continued)

Dr. Chow indicated that at the time the Resolution (Attachment B) is being considered for adoption this RESOLVED clause will be added.

Dr. Chow opened up the meeting for public comment and the following 20 speakers addressed the Joint Commission. The public speaking phase lasted from 5:48 to 6:45 p.m.

Public Speakers

Lieutenant James Connors, San Francisco Fire Department (SFFD)
Arthur Hsieh, S.F. Paramedic Association
Michael Harris, Lawyers Committee for Civil Rights

Steve Ager, DPH Paramedic
Andrew Birkhoff, SFFD/Paramedic
Russ McCallion, Paramedic

Dr. Chow asked and received a motion to include Acting President Roff's earlier amendment into the body of the Resolution.

Acting President Roff suggested that the Resolution should be amended to indicate that the two Commissions would reconvene by the end of the year. Dr. Chow recognized Dr. Hernandez for comments. Dr. Hernandez commented that there are a number of issues that should be addressed, we need to get into meet and confer discussions. She suggested that a joint meeting be convened by the end of the year to provide, at the minimum, a status report. This would allow us to engage in discussions concerning Consent Decree issues raised in writing and at today's public hearing, meet and confer issues, and to revisit the issues surrounding the Basic Life Support (BLS) tier.

Dr. Chow welcomed Chief Demmons to the meeting and asked if he wished to make any comments. Chief Demmons indicated that he heard the last part of the public testimony and he feels that we need to focus on the citizens; that is why we all have a job. We have Commissions, firefighters, and paramedics and doctors, all to provide a service to the citizens. We should always put them first. I have heard a lot of concerns expressed today, and I have questions

2. (Continued)

myself, but I think that we need to move forward as quickly as possible and to address all the concerns. We can't wait until 100 percent of the questions are answered. There are going to be questions even after the transfer takes place. There are going to be changes, as well, to improve the service. I concur with Dr. Hernandez and believe it would be helpful to have a meeting before the end of the year. A lot of the questions, particularly some of the Consent Decree questions I have heard previously. There are questions in many areas - labor, etc. But we should be moving toward the targeted date.

Dr. Chow indicated that another RESOLVED clause could be added requesting that a joint meeting be held before year's end.

Commissioner Roeca thought it made good sense to establish another meeting date within the next three months. This will help us press forward and do the things we want to do. I think we should have an amendment to this Resolution to establish another joint meeting. Commissioner Roeca's amendment was seconded.

Dr. Chow summarized the previous comments as follows: He referenced the WHEREAS and RESOLVED clauses; the Steering Committee would continue with its process; the meet and confer process would continue; the Consent Decree issues and other legal issues would be reviewed and clarified; and there would be a report back to the two Commissions within three months. He stated that the Steering Committee should review where the private providers stand in the sense of the MOU that the EMS is apparently going to take up. Another issue is the role of the EMS for the CCSF; that is a missing part of the document.

Commissioner Barnes thanked everyone for the wonderful job, including the members of the Steering Committee and the subcommittees. It is an excellent historic plan to improve the delivery of medicine to San Franciscans, and to also increase our response time. It is a provocative plan, and as such there are a lot of opinions on how we should proceed. She was impressed with the spirit of togetherness demonstrated in Phase I and Phase II. She commented that one of the speakers brought up a very good point: Are we giving enough time to the Paramedics to decide on the rest of their lives, in terms of their careers? Is three months enough time?

Commissioner Guy commented that she thinks there is an assumption around meet and confer; it doesn't necessarily mean that organized labor as a stakeholder will be sitting at the table, which is where she heard a criticism of Phase II. She just doesn't know. She wants to make sure that the ciritcism of Locals 790, 250 about sitting at the table in the next phase are approached and integrated in the process.

Acting President Roff commented that it is clear that the unions would be directly involved at the table on these issues. That would be the whole meet and confer process.

2. (Continued)

Commissioner Nakajo commented that he wanted to echo the comments from the Commissioners from Fire and Health in terms of the preparation of the presentation, particularly the video on the EMS Configuration Study, and all of the work that has gone into this effort. We hear clearly the concerns being expressed. We appreciate all of the hard work.

Commissioner Eades commented that he would like to acknowledge that it was pretty much a unanimous opinion from this whole group that this is a good thing; this is a necessary thing. To all those involved, and for all your hard work, keep it up. Working toward consensus is really difficult. My experience in communtiy working is that it ends up a much better project for all concerned. For everyone who has put in all those hours, congratulations.

The Resolution as amended was unanimously adopted (8-0).

## EXECUTIVE SUMMARY

At the Joint meeting of the Health and Fire Commissions on May 7, 1996 , the Commissions heard a report on the San Francisco Emergency Medical Services Configuration plan. The plan, based on a consensus process, called for a Fire-based response and transportation system. The Commissions supported this recommendation and asked that the Fire and Health Departments form a seven member Steering Committee to develop an implementation plan. The plan would include a timetable, an operations plan, an organizational chart, a budgetary analysis, and an integration plan for staff, quality assurance, and communications. The implementation plan is attached.

To develop the implementation plan, the Steering Committee established six subcommittees. They are:

1 Operations
2. Administration and Staffing
3 Training
4 Labor
5 Medical Oversight
6 Budget

The Steering Committee appointed members representing a balance of Fire and Health Department employees from both management and rank and file. When specific subject expertise was required, others were invited to participate. A complete listing of the subcommittee members is included in Appendix D.

To begin the process, two All Subcommittee Meetings were held. Participants learned the operations of the Fire Department, adopted action plans, and identified resource lists and work products. Subcommittees met between twice a week and every two weeks depending on the committee. There were a total of 64 subcommittee meetings for a total of more than 174 hours of planning.

Subcommittee meetings were open only to Steering Committee appointed members. To get broader input for the plan, all members of the EMS community were invited to attend three Town Hall meetings. Unfortunately, the first Town Hall meeting was not well advertised and only 35 persons attended. Since this meeting was held early in the process, not much progress had yet been made by the subcommittees. However, by the second Town Hall meeting, which 81 persons attended, much of the basic material had been worked out. Participants, working in small groups, made recommendations to the Subcommittee and Steering Committee presenters. Many of the recommendations were incorporated into the final document. Prior to the third Town Hall meeting, written materials and a video were widely distributed. By providing the materials ahead of time we were able to focus the third Town Hall on suggestions and comments from participants. In addition to the Town Hall meetings, the EMS agency prepared and distributed seven bulletins about the process, established voice mail information lines, and produced and distributed over 80 copies of a video explaining the proposed implementation plan. To supplement the process, the EMS agency facilitated a meeting with women paramedics and firefighters and a meeting with private ambulance providers in San Francisco. In addition, the Fire Department established a 13-member implementation team to provide input into the subcommittee meeting process via meetings and updates. The Paramedic Division

also had a reconfiguration workgroup which included all paramedic subcommittee members and other interested paramedics. The group met weekly. In addition, the Paramedic Division and the Fire Department held two of its own Town Hall meetings to keep staff fully informed about the plan and enable them to provide input into the plan.

The final plan you have before you was reviewed and unanimously adopted by the Steering Committee. The proposed plan would be implemented in Phases 3 through 7.

Phase 3 - Cross Training and Preparation for the Transfer of Function (Oct. 96-June 97)
Phase 4 - Deployment of Increased Number of Ambulances (July 97-May 98)
Phase 5 - ALS Engine Deployment/ Deploy BLS transport when necessary (June 98 -Feb 99)
Phase 6 - One Paramedic/One FF-EMT Ambulance Trial (March 99-Nov. 99)
Phase 7 - Full Deployment (Dec. 99)

Time lines are approximate as initiation of each phase is contingent on completion of the prior phase.

The major policy issues before you in this report are:

1. A transfer of function of paramedic services from the Health Department to the Fire Department.

2. The creation of a SFFD EMS Training Academy; this academy will develop and conduct the cross training programs for paramedics and fire fighters.

3. The creation of a new administrative structure for the delivery of EMS services within the Fire Department. This structure will provide a single integrated chain of command. The plan recommends an additional 13 Fire/Paramedic Captains to increase field supervision as well as fulfill increased training and quality assurance activities. There will also be four Paramedic Captains on duty at any one time for field supervision. This compares to our current staffing of only one field supervisor on duty at any one time.

4. The creation of two new uniform employee classifications:
   a) fire rescue paramedics;
   b) fire fighter paramedics.

   Currently employed paramedics, if they choose, will be given specific training and granted status as fire rescue paramedics if they so choose. Paramedics who do not wish to become fire rescue paramedics will remain in their same class. The fire fighter paramedic will be available for paramedics and firefighters who are fully crosstrained.

5. This plan includes a transition budget (one time request only) which covers all the personnel, operating, and capital expenses of the start-up. This transition budget will be prepared as a supplemental budget request if this plan were to be adopted. Also, included is a budget projection based on this plan for the FY 97-98. These costs are estimated based upon the administrative and staffing positions recommended in this report. Salaries and benefits may change as the respective collective bargaining units meet and confer over the specific wage recommendations. The plan does not call for any layoffs. There may be a need for reassignment of supply clerks if their current classification is not suitable for jobs in the new organization.

6. The major features of the operational design of the new EMS system are:
   a) increases in the available ALS ambulances (Phase 4);
   b) ALS Engine deployment (Phase 5);
   c) Trial of one paramedic/ one EMT ambulance (Phase 6);
   d) Final determination of best EMS deployment (Phase 7) based on experience gained in Phases 4-6.

7. The dispatch functions of the Fire Department and the Paramedic Division will be combined at a common site. This decision will be based on the logistics of moving one of the centers in concert with the parallel planning for the new consolidated 911 dispatch center.

8. The new integrated EMS services will have enhanced medical oversight with 1.5 FTE positions for Medical Directors who will provide prospective, on line, and retrospective quality improvement. Medical oversight of the new system also includes a comprehensive quality improvement program and a research component.

## GENERAL CONSIDERATIONS:

### Phase 2 Process

At the Town Hall meetings, as well as in informal discussions, some EMS community members expressed concern that Phase 2 was not conducted as an open, consensus process, in the way that Phase 1 was conducted. Although information was widely disseminated, there remained fears that things were being said in the subcommittee meetings that were not being openly shared. The Steering Committee considered having meetings be completely open, but felt that it was not possible to deliver a complicated, operational plan, in a relatively short time line, in a completely open process. The feeling of the Committee was that having had an open process to determine the type of configuration San Francisco should have, the actual implementation details were primarily administrative issues. To incorporate the spirit of Phase 1, front line paramedics and firefighters were involved in the subcommittee work. Many excellent ideas emanated from these front line personnel. Nonetheless, those persons who were not members of a subcommittee felt ignored. Efforts to include them in other forums, such as Town Hall meetings, did not change their views because they felt they were not included in the subcommittee meetings.

Related to this, there is a perception among some EMS community members that their input has not been listened to It is true that the Steering Committee did not always change the plan in response to suggestions that were made. As is always true with complex decisions, changes which would meet with the approval of some would cause disapproval of others. The Steering Committee took its job of listening to and considering input very seriously. Ultimately, the Steering Committee weighed the plusses and minuses of different options. The plan is designed to improve patient care, with the use of existing resources, without diminishing fire suppression capability. Other options, besides the ones in this plan, were considered and will undoubtedly be raised in the public comment at the Joint Commission meeting, but were not chosen by the Steering Committee because they were not deemed to be in the best interest of the San Francisco community.

## Labor Issues

All changes from one classification to another classification will be voluntary on the part of all staff members. For example, 2532s (Health Department paramedics) will have the choice to remain in their current classification or to become fire rescue paramedics. Similarly, fire fighters and fire rescue Paramedics will have the choice of staying in their classifications or applying to become fully crosstrained Fire Fighter Paramedics.

All of the personnel recommendations in this plan will be implemented consistent with Civil Service Commission rules and collective bargaining contracts. Proposed changes which will impact wages, hours, and terms and conditions of employment within the scope of representation will require meet and conferral with the appropriate union organizations.

In our plan it was necessary to estimate the salaries of persons in new classifications in order to provide the Commissions with an estimate of what the cost would be of our new configuration. The Commissions should be aware, however, that these are only estimates. Determination of the actual compensation depends on the Civil Service Regulations and the results of collective bargaining agreements.

We have sought the counsel of the City Attorney on the question of whether the training and duties of the proposed classification of fire rescue paramedic would qualify this position as a uniform classification. It is the opinion of the City Attorney that it would. This determination is important because our plan assumes a 24-hour shift for fire rescue paramedics. This shift was chosen because it is the shift that the rest of the Fire Department works on and thereby facilitates coordinated response. However, if fire rescue paramedics did not qualify as a uniform classification, fair labor standards would prevent their working on this shift.

Although the Steering Committee has attempted to meet informally with representatives of the major unions involved, these meetings have been awkward. Part of the awkwardness is that the Steering Committee has felt uncomfortable negotiating with Union representatives without first having policy approval from the Health and Fire Commissions. We have detailed in the Labor section of the report the issues that are likely to be raised as part of meet and confer. This section has been reviewed by the City Attorney's Office and the City's Human Resources Department. Labor representatives have attended Town Hall meetings, been briefed about the plan, and have had an opportunity to raise their concerns about the plan. We recognize that we have not been able to resolve all of the issues that have been raised by Union leaders. If we receive policy approval to proceed, we will work to do so.

## Consent Decree

As both Commissions are aware, hiring within the Fire Department is governed by the consent decree. If this plan for transfer of function is approved by the two Commissions, we will need to obtain court approval as well.

We believe that we have an excellent case for court approval of the plan. Since our plan is a transfer of function, it does not change the overall composition of the City's workforce. In addition, we believe the plan will further the goals of the consent decree. Currently, paramedics are disproportionately white and male. The reason is that the graduates of EMT-P programs have historically been disproportionately white and male. By creating a paramedic academy

within the Fire Department we will be able to train existing fire fighters who have an EMT certificate for firefighter paramedic position. Since firefighters with an EMT certificate within the Fire Department are more diverse than paramedics, the effect of the overall plan will be to increase diversity within the ranks of City paramedics.

**The absence of a BLS transport tier**

Our Phase 1 plan assumed a BLS transport tier (an ambulance staffed with two EMTs, rather than paramedics). We favored a BLS tier because our goal was to tailor our response to the needs of the patient. Since about half of our calls do not require ALS resources, it seemed sensible to have a less trained BLS tier that could respond to these calls. In the early development of the operations plan we realized that a BLS transport tier would not work well for San Francisco, given our current staffing. The reasons we have not recommended a BLS transport tier are:

1) BLS transport tiers can result in under triage errors, calls where ALS services are required but BLS units are dispatched. Although criteria based dispatch, which we are currently implementing, decreases the number of under triage errors due to incorrect BLS dispatch, the possibility still exists that under triage errors may occur.

2) BLS tiers make the most sense in communities where there are few paramedics. For example, Seattle has a very successful EMS system, which has a large, privately contracted, BLS transport tier. However, Seattle has significantly fewer paramedics than we do (they have about 80 paramedics, compared to our current 160, for approximately the same call volume). Since we have a large number of paramedics, there is no compelling reason to send someone at a lower level of skill. We sought to increase, not decrease, the availability of ALS resources.

3) BLS tiers are usually adopted by communities to save money, because paramedics earn significantly more than EMTs. However, in our proposed consolidated system, currently employed EMTs do not earn significantly less because they are firefighters and thus are compensated for their other skills as well. Thus the pay differential between a paramedic and an EMT firefighter is small.

4) If BLS units are staffed by current EMT firefighters (and they are not replaced) it could harm fire suppression and violate the city's MOU agreement concerning staffing requirements for fire engines and trucks. While some would recommend replacing those firefighters with fully crosstrained paramedics, it is unclear who would staff the ambulances while the paramedics were in fire college.

5) If BLS units replace ALS units, we run the risk that ALS resources in a particular part of the city could be rapidly depleted. In other words, with a BLS tier you would have the same number of ambulances, but fewer of them would be ALS trained.

6) If the system is overwhelmed, we will have the ability, as we do now, to call on the three private ALS providers. The role of the private providers is governed by the Integrated Response Plan and their involvement in our city is protected by the Bronzon Act.

Some small elements of the BLS tier will be implemented. Certain easily identifiable calls, such as putting patients who have fallen out of bed back into bed, will be dispatched with a BLS engine response only. To help at times that ALS units are depleted because of heavy call volume, we do intend to deploy BLS transport units from some fire stations. This will begin in Phase 5.

**Role of SFGH**

Many concerns were expressed, during Phase 1, about the vital role played by San Francisco General Hospital in the City's emergency medical service delivery network. Physicians, registered nurses, and other health care professionals from many specialties either directly participated in Phase 1 workgroups or acted behind the scenes as evaluators and commentators on the products of the workgroups.

During Phase 2, SFGH participants included leaders from Risk Management, Quality Management, Finance/Accounting, Emergency Services, Base Hospital, Education & Training, and UCSF Dean's Office/Physician's Risk Management. Participants included physicians, nurses, an attorney and other health professionals. Regular briefings on the progress of the re-configuration workgroups were provided to administrative staff and physician leaders.

The role of SFGH in the new EMS Division of the Fire Department will be to provide expert consultation, support, and direction in the areas of quality and risk management, acute care, clinical education, and medical staff privileges for the Medical Directors of the SFFD EMS Division. In addition, SFGH will continue to provide all revenue collection activities and management of medical records, as well as procurement and evaluation of medical supplies, equipment, and pharmaceuticals.

Finally, it should be noted that the transfer of function will not negatively impact SFGH. SFGH will remain the sole trauma center for San Francisco, and the destination policies for bringing patients to receiving hospitals are determined by the EMS agency, not the paramedic provider.

**Budget Implications**

Our projections show that for the FY 97-98 the budget is essentially cost neutral. Any increases which may occur due to labor negotiations or other factors may be offset by first responder revenues. Although the Fire Department could bill for first responder services even if the transfer of function does not occur, the billing for first responder services is best done in concert with ambulance billing because we are already billing these calls for paramedic services. Regulations allow for non-duplicative billing the same call for both first responder services and for ambulance services.

The start-up (one-time only) budget for the transfer of function is approximately $1,900,000. This budget is primarily for additional vehicles (ambulances and field supervision). Detail is presented within the package. We are still in the process of reviewing our MIS and communications needs. The actual costs may also be affected by decisions concerning the location of an interim combined dispatch center for fire and paramedic division, and decisions about a back-up 911 center.

With the support of the Commissions, we would submit the budget to the Mayor and the Board as a supplemental request.

## CONCLUSION

This phase of the planning process has been difficult. Nonetheless, the Steering Committee is confident that we are presenting to you the best EMS plan for San Francisco. We believe it will provide a faster, better, high quality response to San Francisco's residents and visitors. We envision a dynamic system which will change over time-based on the strong evaluation component that we have built into the system. If the overall plan meets with the Commission's approval, the Steering Committee would be pleased to continue to function as the transition team and would be happy to provide regular updates on the progress of the plan.

Health Commission Resolution No. 21-96
Fire Commission Resolution No. 96-05

**TRANSFERRING THE FUNCTION OF THE PARAMEDIC DIVISION FROM THE DEPARTMENT OF PUBLIC HEALTH INTO THE SAN FRANCISCO FIRE DEPARTMENT**

WHEREAS, the Health and Fire Commissions have approved an Emergency Medical Services Reconfiguration Plan, (Phase I); and,

WHEREAS, the Health and Fire Commissions directed the Health and Fire Department to develop an implementation plan for a fire-based emergency response and transportation system; and,

WHEREAS, this plan offers the residents and visitors of San Francisco a faster and more coordinated response to emergency medical calls, multi-casualty incidents, and disasters, and,

WHEREAS, this plan increases field supervision, medical oversight, training opportunities and quality improvement activities for emergency medical services, now, therefore, be it

RESOLVED, that the Health and Fire Commissions support the recommendations of the Phase II Implementation Plan for a fire-based emergency response and transportation system, and, be it

RESOLVED, that the Health and Fire Commissions support a transfer of paramedic function from the Health Department to the Fire Department; and, be it

FURTHER RESOLVED, that the Health and Fire Commissions support a paramedic training academy for the cross-training of firefighters as paramedics, and, be it

FURTHER RESOLVED, that the Health and Fire Commissions support the proposed administrative structure for the delivery of emergency medical services the creation of two new employee classifications, Fire Rescue Paramedic and Firefighter Paramedic, and, be it

FURTHER RESOLVED, that the Departments work with the City Attorney's Office to ensure that all changes are appropriate in light of the current Consent Decree case, U S. vs. City and County of San Francisco, No. C84-7089 MHP (May 20, 1988); and, be it

# REMARKS TO THE JOINT MEETING OF THE HEALTH AND FIRE COMMISSIONS

My name is James Ahern, President of the San Francisco Fire Fighters Local 798, representing approximately 1350 men and women of the San Francisco Fire Department

I am here to address the proposed resolution that is before you for adoption today

This resolution recognizes that an opportunity exists at this time to make improvements in the delivery of emergency medical services to the citizens of San Francisco without comprising the Department's outstanding fire protection capabilities

This resolution also recognizes that the proposed method for delivery of emergency medical services will require significant changes in the wages, hours, and other terms and conditions of employment for San Francisco firefighters that must be negotiated between the City and Local 798.

Local 798 welcomes the opportunity to begin negotiations over these matters

Local 798 will participate in these discussions in good faith and fully expect that we will be able to reach an agreement that will protect the interests of our members, preserve the Department's current fire protection levels, as well as providing an improved system for the delivery of emergency medical services to the citizens of San Francisco

4. REGULAR CALENDAR - UNFINISHED BUSINESS

A) Formal Hearing (Cont'd from Meetings of 05-09-96, 06-13-96 & 07-25-96)

Formal Hearing concerning formal complaint filed by Robert L. Demmons, Chief of Department, on April 30, 1996, against Firefighter John Minnick, charging him with violation of the Rules and Regulations as follows:

Section 3811.1 - Misrepresentation as to Sickness or Injury

Section 3811.6 - Violation of Article 38 - Insubordination

Section 3905 - Unfamiliarity with Rules

Section 3935 - False Reports and False Testimony

6:08-6:25 p.m.

Deputy City Attorney Pamela Thompson represented the Department. Mr. James Ahern, President, Firefighters Local 798 represented Firefighter John Minnick, who was present.

Mr. Ahern requested closed session, which was granted by Acting President Roff.

Deputy City Attorney Thompson made an opening statement, then summarized the two-page Negotiated Settlement.

The terms of the Negotiated Settlement dealt with restitution and a 60-day suspension. The suspension is from October 24 through December 22, 1996.

Prior to voting to accept the Negotiated Settlement there was a brief pause for discussion between Deputy City Attorney John Cooper, representing the Fire Commission, and the Fire Commission; followed by a discussion between counsel for the Department and Mr. Ahern. Then, Mr. Ahern took a minute to brief Firefighter Minnick.

By a vote of 3-0 the Fire Commission agreed to the terms of the Negotiated Settlement.

Mr. Ahern made some closing remarks.

Each Commissioner directed remarks to Firefighter Minnick.

Note: Above represents summary of events.
Court reporter recorded entire proceedings.

5. REGULAR CALENDAR - NEW BUSINESS

A) Letters of Commendation

Submitted eight letters commending members of the Department for response to requests for assistance or emergencies.

Acting President Roff directed that these letters be acknowledged and incorporated in the minutes of today's meeting.

Chief Robert L. Demmons

260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

On behalf of the American Red Cross Bay Area Chapter please accept my sincere appreciation for the generous community service provided by five of your officers. In addition to their department duties Captain Bernie Lee, Lieutenant Paul Chin, Firefighters Edward Chu, Ronald Lau and Anne Tam are also American Red Cross First Aid and CPR instructors.

Our relationship with your officers began when the Bay Area Chapter received grants from the Chinese Community Health Care Association, the San Francisco Kiwanis Club and the American National Red Cross to fund CPR, First Aid and Disaster Preparedness training for monolingual Chinese residents of Chinatown.

Your officers comprise the core of a group of instructors providing these important lifesaving skills. Through their efforts, the Red Cross has trained 150 residents to respond more effectively to medical emergencies in the aftermath of a major San Francisco disaster. Through this grant we plan to reach an additional 150 persons before the end of the calendar year.

It is through the skill and generosity of volunteers such as your officers that the American Red Cross is able to help others to help themselves. Thank you.

Sincerely,

/s/ RON BISTOLFO

Dear Chief Demmons:

I wish to take the opportunity to express my thanks to you and the San Francisco Fire Department for allowing Captain Gerald Grey of the Fire Department's Hazardous Materials Unit to participate in the training this Department recently conducted.

I further wish to formally commend Captain Grey for his participation, and the manner and method in which he presented the material. Captain Grey's credentials and reputation in the HazMat community are well known and highly respected, and his abilitly to impart important knowledge onto fellow responders from Law Enforcement was excellent. His evaluation scores from 40 Police, Fire, EMS, and Private Industry Representatives were an average of 8.2 (out of possible 9), yet another indicator of his prowess.

Captain Grey is thoroughly professional, humorous without being crass or callused, and a delight to learn from.

As this Department's HazMat training Coordinator, even I learned Captain Grey's lecture. It is my express hope that he will be allowed to participate in future classes that we conduct (every March and September).

Once again, my sincere thanks and commendation to you, Captain Grey, and the San Francisco Fire Department.

Respectfully yours,

/s/ MATTHEW KRIMSKY

Dear Chief Demmons:

I am writing this letter to thank you for allowing the Fire Department to participate in the OMI's community picnic - "Celebrating Togetherness." It meant so much to the picnic attendees to see such presence and involvement from the department. Your response to my request was wonderful and I am more than impressed with your work.

Once again, thank you so much. I look forward to working with you in the future. If there is any way that I can be of assistance to you, please do not hesitate to contact me. I would be more than willing to work with you. Enclosed please find a brochure from the Neighborhood Safety Partnership along with my business cards.

Dear Chief Demmons:

I am writing this letter in response to an outstanding presentation Inspector Milton Yuen gave to our Operating Room staff. I would like to personally commend Inspector Yuen for the fine work he did on training our OR staff of the fire hazards unique to the area. His contribution was essential to the success of the training. The extra attention he gave this project was exemplary, and I appreciate his perpetual watching out for California Pacific Medical Center's safety.

Very truly yours,

Dear Chief Demmons:

I am a teacher at Rancho Elementary School in Novato, California. Captain Roland Lee visited my second grade class and did a lovely presentation on fire safety. His visit was a valuable follow-up tool after a school fire drill. Their knowledge was expanded. Children enjoy hands on activities. This is a wonderful program for children. I enjoyed having Captain Lee very much. We will review the literature he left with me for my class.

Dear Chief Demmons:

On Thursday, August 29, 1996, Firefighter Fernando Juarez, presented an outstanding fire prevention talk at our monthly safety meeting. Our safety meeting was attended by Splicing Technicians and Line Crew members. Some of our technicians have been known to get a little out of control at some of these meetings. Firefighter Juarez held them spellbound for almost one hour. Firefighter Juarez was able to answer every question, and I feel he brought his message of fire prevention home to everyone. We would like to commend him for a job well done.

Sincerely,

/s/ RICHARD J. MODOLO

Note:

On the Fire Commission Minutes of September 26, 1996, (96-30) under this item (Letters of Commendation) three letters were included without specifying the names of the officers and firefighters who were being commended. Subsequently, we have learned that:

As to the letter from the Department of Public Health dated July 27, 1996, concerning Engine 17, the following personnel were involved:

Lieutenant Edward Liggins
Firefighter John Chung
Firefighter Gregory Louie
Firefighter Terry Smerdel

As to the letter from the Department of Public Health dated August 25, 1996, concerning Rescue 2, the following personnel were involved:

T/Lieutenant Gregory Wyman
Firefighter Randall Hiro
Firefighter Anthony Rivera*
Firefighter Andrew Saitz

*provided fluency in Spanish

As to the letter from Kim Jorgensen, Las Lomas High School, dated September 13, 1996, concerning Truck 16, the following personnel were involved:

Lieutenant Frank Morino
Firefighter Dean Lundie
Firefighter Robert Mathes
Firefighter Kathleen Molloy
Firefighter Keith Onishi

Dear Chief Demmons:

A BIG THANKS to you and the Department for participating in Russian Hill Neighbors' 14th Annual Block Party on September 22nd.

Engine 28 was a great attraction to small and big kids alike. The firefighters were a credit to the Department. (Lieutenant Paul Chin, Firefighters Albert Fernandez, Michael Rice and Robert Gurman). I hope they enjoyed their time with us as much as we enjoyed having them.

Again, our thanks and I hope we will have the pleasure of the Fire Department's presence next year.

Sincerely,

/s/ SHIRLEY COSTELLO
Block Party Chair

Dear Chief Demmons:

We would like to take this opportunity to commend the performance of Rescue 1 who responded to a reported drug overdose at 57 Taylor. This patient was in full arrest when our ambulance, Medic 87, and Rescue 1 arrived. The crew of Lieutenant Anthony Smerdel and Firefighters Robert Coleman, Felix Duag and Frank Hsieh performed effective CPR with ventilations, cleared the room of dirty needles and assisted with a very difficult extrication down numerous stairs. This crew helped to make a difficult call easier with their competence and their ability to work as a team with us.

Please share our thanks and commendation with your staff.

Sincerely,

/s/ LORRIE BETH SLONSKY

Dear Chief Demmons:

I just wanted to take a moment to thank you and the many members of the San Francisco Fire Department who helped support our Mission Resource Walk on October 9.

Deputy Chief Richard Condon was most helpful over the telephone. During the event we met Battalion Chief William Miles and Chief's Aide Edward Dea. We also had Lieutenant Richard Johnson and Firefighters Richard Brown, Ernest Carrillo and Rex Hale. It was so great to have the energy and support of everyone.

The event itself was a Mission Neighborhood Resource Walk through the streets during which we give out about 600 packets of information (200 in each of three languages). We ended up back at Mission Playground for dinner, information sharing, and getting our blood pressure taken. Everyone's pressure was probably up a few points after we ate the fried chicken dinners.

The firefighters were all great. They came with enthusiasm and real interest in the folks there - adults and kids alike. We truly appreciate the San Francisco Fire Department's involvement in the event.

Thank you again.

Sincerely,

/s/ ROBIN BARNETT
Program Director

October 11, 1996

Chief Robert L. Demmons
San Francisco Fire Department

San Francisco, CA 94102

Dear Chief Demmons:

Once again, we wish to thank the San Francisco Fire Department, particularly to Lieutenant Robert Dunne, Firefighters Janet Cheney, Gary Falls and Pablo Siguenza of Engine 26 for their professional and kind response to our home on September 18, 1996, the morning that our father, Larry Lapitan, died.

We are attaching herewith a copy of our July 19, 1996, letter to you, expressing our gratitude. It will serve as background information.

When Dolores arose at the usual time, about 6:00 a.m. on that Wednesday, she discovered Dad apparently dead - his face was very cold and rigid (Dad was in the end stages of pulmonary disease). She yelled upstairs for her husband Pete and son Paul to come. We recalled Dad's DNR (Do Not Resuscitate) order. Then, on the advice of Dad's physician, who said we needed to have medical confirmation of Dad's death, we phoned 911 but asked for the Fire Department only to come, not the Paramedics (in the ambulance, for reasons which are not necessary to this letter). We were declined that request with the Operator's statement that we did not have that option; she eventually terminated that call. Dolores asked Pete to please run up to our nearby station and ask them to come to the house. The firefighters arrived immediately. They, of course, were able to confirm Dad's demise.

Your Fire Department crew reacted instantly. They arrived immediately - they know their area of responsibility like the palm of their hand. In a moment, they ascertained Dad's death and expressed regret they could do nothing for him. They extended sympathy. They did their job professionally. But, they did their job with a heart. On behalf of our family, we thank you with all our heart.

We learned that perhaps in the not-too-distant future, the Fire Department will have its own Paramedics unit attached and ready to accompany each life-threatening call. If we misunderstood, we would nonetheless wish for something like that.

You guys do a great job. Keep up the good work. God bless and keep you.

Gratefully,

/s/ M/M PETER C. DE KROON AND FAMILY

Dear Chief Demmons:

I would like to thank you for the participation of Captain Gerald Grey in the recent exercises on anti-terrorism conducted by my office. Captain Grey began working with us at the early stages of our planning in May, helping us develop an exercise design that would address the unique nature of nuclear, chemical and biological terrorist threats. Captain Grey gave an excellent presentation at our two day preparatory anti-terrorism symposium conducted on September 24 and 25 and also at the table-top exercise conducted on October 10. The information provided by Captain Grey gave the local, state and federal participants a current perspective as to the capabilities and resources that our Fire Department brings to this type of emergency.

Our City's ability to respond to these types of terrorist weapons has been enhanced by Captain Gerald Grey's efforts. I very much appreciate your providing this help from the Fire Department to the Mayor's Office of Emergency Services.

Sincerely,

/s/ MICHAEL J. GRIFFIN
Director

Dear Chief Demmons:

People for Positive Action (PPA) at the San Quentin Ranch would like to thank your organization for the enormous help and contribution it has made to the PPA Bike refurbishing program. More particularly, Firefighters John Voelker and Melissa Lerma, who have taken much of their free time to facilitate the transporting and distribution of these bikes to needy families with children.

As you may know, it is difficult to enlist volunteers; however, John and Melissa's unselfish contribution has helped accommodate many underprivileged children in providing good reconditioned bicycles that these children can call their own.

We at PPA would again like to thank you and your staff for its continuing help and support. We look forward to our continued working relationship in hopes many more children will be afforded the chance to receive a bicycle.

Dear Chief Demmons:

I want to acknowledge the excellent job Firefighter Fernando Juarez did in his presentation on earthquake awareness. Our students and staff enjoyed the presentation and learned some very important basics.

Firefighter Juarez was very thorough and was more than willing to answer all of our questions.

Thank you for all of your support.

Sincerely,

/s/ CANDY A. GRAHAM

A) Letters of Commendation (Continued)

October 8, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I write to you on this occasion to share my experience with the Neighborhood Emergency Response Team (NERT) program. Last night was my final NERT class. It would be an injustice if I did not take the time to let you know what an extremely positive experience it was. Obviously education of any type is a positive experience. Not only was the education thorough, but the method of teaching was very comfortable and it made the material easy to digest. All of the instructors made it easy to learn and stay focused. Specifically, Lieutenant Michael Hennigan's teaching style is exemplary, his humor was unparalleled and helped ease the weight of a heavy subject. He is truly an asset. I only hope he fights fires as well and I am sure he does.

In addition, the fact that the program was provided at no charge makes it one of the greatest assets that the City can offer. I hope that you may help to ensure this program continues on with the same amount of determination and professionalism that I experienced. I plan on continuing my involvement in every way that I can and will readily pass it along to others.

In closing, I would like to commend all of those involved in making this program a success. Please keep the NERT program alive, well, and affordable for all. The City can only benefit. Thank you for your time on this matter.

Sincerely,

/s/ SCOTT MC INTOSH

B) Formal Complaint

Submitted formal complaint against Firefighter Daniel G. Kelly, dated October 18, 1996, for violation of the Rules and Regulations as follows:

Section 3801.3 - Failure to obey directions of Retirement Board

Section 3811.6 - Violation or abuse of Disability Rule

Section 3929 - Recall - Maintain reliable telephone communications (Procedure Guide)

President Fernandez-Ruel directed Secretary Connors to comply with Section 4006 of the Rules and Regulations and inform Firefighter Kelly that the trial and hearing will be held November 26, 1996, at 6:00 p.m.

C) Public Comment

Deputy Chief Gamble asked to take the opportunity to introduce to the Fire Commission the Department's new Principal Administrative Analyst, Mary King-Gorwky, who will be joining the Department on Monday, November 4, 1996. She is present tonight to meet personnel and see the office space. As there was a Commission meeting tonight I asked her to stay and be introduced.

President Fernandez-Ruel welcomed Ms. King-Gorwky and indicated that the Commission is looking forward to working with her.

5. CLOSED SESSION

The Fire Commission met in closed session with the City Attorney pursuant to the State of California Government Code, Section 54956.9. Pending Litigation (a), to discuss the matter of the USA vs. CCSF, et al. (USDC No. C 84-7089 MHP).

6:15-8:45 p.m.

No action was taken.

There being no further business to come before the Commission, the meeting was adjourned at 8:46 p.m.

Dear Chief Demmons:

I would like to commend Battalion Chief John Traversaro's excellent fire prevention presentation given on Wednesday, October 23. John came to speak to all 135 of our fourth graders in a general assembly. His presentation of fire safety was simple and age-appropriate. They enjoyed all of the handouts and plastic firehats. However, the crowning moment was when John dressed one child in a fireman's outfit!

I recommend continued support of Fireflies Program in the Schools. We would like to continue working with your program and Battalion Chief John Traversaro. Please keep us informed!

Sincerely,

/s/ ANLI LIU

October 16, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

On behalf of Archbishop Riordan High School, I would like to thank you and Engine 12 (T/Captain David Sullivan, Firefighters George Petty, Richard Sarlatte, and Ricky Yee) for their presence at our Third Annual Walkathon. We appreciate your support.

Riordan's first two Walkathons raised a total of $150,000 which, along with the generous support of the foundation community, enabled us to completely renovate our 49 year old library into a state-of-the-art facility for our students. We are very proud of our boys' efforts.

This year, our students raised over $86,000 which will allow us to begin Phase I of the Science wing renovation project. We are confident that with the continued effort of our students and the support of friends such as yourself, this project will be a success. We will also be using a portion of the project towards the purchase of band uniforms for the Archbishop Riordan Marching Band, since 300 current Riordan students participate in the Band and it continues to grow in popularity and size.

Once again, thank you for your generosity.

Sincerely,

/s/ MIKE PARODI
3rd Annual Walkathon Chair

Dear Chief Demmons:

We would like to thank you for sending out firefighters and fire trucks to assist in Citicorp Center's annual fire drill on Tuesday, October 15. The firefighters from Sansome Street firehouse were extremely cooperative and of great influence in getting our tenants to participate in our relocation drills.

Please extend our appreciation to those firefighters who assisted in our drills.

Thank you.

Dear Captain de Cossio:

On behalf of St. Luke's Hospital, we would like to thank you for your participation in the "Greatest Show on Birth" Baby Faire. We had an excellent turnout for this event. It was your support and the participation of Lieutenant Fuhrman and his crew that made this event as successful as it was.

We hope to make this an annual event. We will contact you when we set the date, hoping that you will again be available to participate.

Again, thank you and your men for your enthusiasm and support for the "Greatest Show on Birth." We look forward to working with you again.

Dear Chief Demmons:

Today, we had the pleasure of having Firefighter Fernando Juarez again visit the school and demonstrate safety measures to the children.

He has been here before and each time the children talk about his visit for days and explain to adults how to be safe in a fire, so his message must be getting home to the little ones.

We had an electrical panel short out and go on fire several years ago. Due to the monthly drills conducted by your department, the children evacuated the building in seconds, proving once again that practice makes perfect.

Your efforts for the safety of children are appreciated.

Sincerely yours,

/s/ DANIEL J. BINET
Principal

D) Fire Commission Resolution

Submitted for adoption Resolution No. 96-07 accepting a donation of 43 Littman stethoscopes from the Medic One Foundation.

Dr. Eric Isaacs, Assistant Emergency Medical Services Director of the San Francisco Fire Department, indicated that tonight he was appearing as one of the medical directors of the Medic One Foundation (MOF). He introduced his fellow directors: Richard Shortall, Glenn Ortiz-Schuldt, Ed Sawicki and Art Davis. Through the reconfiguration process, of which you are more than familiar we became aware of the unique needs and characteristics of San Francisco's EMS system, and modeling ourselves after Seattle's Medic One Foundation program we wanted to find a way to address some of these needs through public participation. San Francisco's MOF was founded in February, 1996, and its mission is to improve the patient care of our out-of-hospital patients and promote the well being of the residents and visitors to San Francisco, through an improved EMS system. Our first goal is education and training. We just finished a pre-CPR training for 20 people. This weekend we will train an additional 36 without charge. We plan more targeted CPR classes for high risk and under-served communities. We are planning an injury prevention program, and the first target will be children. Injuries are the number one cause of death for children. We are promoting research through grants, and fund raising activities are planned. Seattle's MOF raises over $1 million annually, without fund raising drives. The City of Seattle, and the community of Seattle give money to the MOF because they feel that the Seattle fire department is their fire department. That is the unifying goal that we all are striving for here, to have the people of San Francisco feel that this is their fire department. Eventually, we hope to reach some fund raising goals so that we can continue our activities in the future, which brings us to tonight's presentation. Our first public activity is the donation of stethoscopes. As we train more sophisticated EMT's we have higher expectations of their skills and knowledge, and we want to provide them with more sophisticated tools. Hence, through the generous donation of 3M and the Littman Company, they have provided us with excellent quality stethoscopes which I would like to present to Chief Demmons and the firefighters of San

Francisco, on behalf of the MOF. Chief Demmons thanked Dr. Isaacs. Dr. Isaacs said that the MOF looks forward to asking for formal recognition before the joint Health/Fire Commission meeting on December 3, 1996, and for your continued support as we work for a healthier and safer San Francisco.

President Fernandez-Ruel thanked Dr. Isaacs and the MOF for its donation of 43 stethoscopes. Vice President Roff said he appreciated all the good work of the MOF. Commissioner Nakajo commented that MOF's first public donation was exciting. Your expressed goals make a lot of sense. As a representative of senior organizations I want to let you know that for years most of our staff has had great difficulty trying to get CPR training because the Red Cross does not allow it ... it is just the way things are. I would like you to consider the senior community of San Francisco in this endeavor, beyond that I wanted to thank you for the donation. Commissioner Soulis thanked Dr. Isaacs and said he would be happy to help them in any way in the fund raising, and when you reach that point we can all actively assist.

There were no further questions or discussion and Resolution No. 96-07 was adopted on recommendation of Chief of Department.

E) Fire Commission Resolution

Submitted for adoption Resolution No. 96-08 accepting a donation of $8,850 from the Rathmann Family Foundation for the Neighborhood Emergency Response Team training program.

Commissioner Nakajo moved and Vice President Roff seconded.

President Fernandez-Ruel commented that this generous donated from the Rathmann Family Foundation really helps our program, particularly in times of budgetary constraints. It is wonderful to have donations so that we can continue our work in the community, because this is what the Department is all about, not only in protecting the lives and property of its citizens, but reaching out with preventive programs like the Neighborhood Emergency Response Team (NERT).

Chief Demmons commented that as he visits different places around the City he receives many compliments about the job that all the firefighters do, a lot of compliments about the NERT program, people are excited about that program. People outside the City compliment the Department as well on this program. Lieutenant Frank Lucier, who was sworn in last night, started the program, and there are a lot of volunteers. We recently had open houses in the fire stations and reports on the results were very positive. One of the stations

had over 500 visitors in one day. We are looking to establish a program prior to Christmas stressing Christmas tree safety. Chief Demmons just wanted to say for the record and pass on the compliments that he receives verbally, as to the great job being done by the firefighters of San Francisco.

There were no further questions or discussion and Resolution No. 96-08 was adopted on recommendation of Chief of Department.

F) Christmas Lights for Fire Stations

Accepted a gift from the Friends of the San Francisco Fire Department of 150 strings of lights for illuminating fire stations during the holiday season.

Mr. Robert Begley, President, Friends of the San Francisco Fire Department (Friends of SFFD), commented that as a youngster many of us remember the lights that adorned the firehouses. Friends of SFFD which have been very close to the fire department over the years are very happy and proud to present lights to Chief Demmons and hoped that the firefighters will enjoy decorating the fire stations again, this year and in the future.

Chief Demmons thanked Mr. Begley and noted that recently Friends of SFFD had a fund raising dinner, attended by Commissioner Nakajo among others, where more money was raised for future contributions to the fire department. We certainly appreciate your efforts. When we had our retreat earlier this year Friends of SFFD donated money to offset some of the costs.

Commissioner Soulis was reminded when his family and friends would pile into two or three cars and view all the firehouses illuminated for the Holidays. It is a great tradition to restore. Commissioner Nakajo said he was very impressed with the spirit, support and generosity of Friends of SFFD. Mr. Begley commented that on a personal basis, he is in the hotel industry and we have had a close association with the fire department. Friends of SFFD are helpful in any way they can be. We know that from time to time there are items that are not budgeted, and we work closely with the Chief to assist in these situations.

President Fernandez-Ruel thanked Mr. Begley for enhancing the holiday spirit through the generous donation. It is a great community service.

Deputy Chief Gamble introduced Captain Joseph Carlomagno who is very active in the department's community-based workgroup. Captain Carlomagno said he is standing in tonight for Assistant Chief Stevenson. One of the goals concerning

this donation was to make the firehouses more visible to the neighborhood and we thought what better way to do this than through the display of Christmas lights. It has a very positive impact on the neighborhood that the firehouse serves.

There was some general discussion among the Commission about competition and prizes for the best decorated firehouse, based on judges' review. Commissioner Soulis indicated this is what happened in the past. Captain Carlomagno commented that one thing that was discussed in the workgroup was that there were some negative sides to having a competition. In the past some of the firehouses spent a great deal of money and it created some ill will. One thing we did not want to get into was a real competition. President Fernandez-Ruel commented that maybe they can do it without spending money.

G) Public Comment

James Ahern, President, Firefighters Local 798, commented that on behalf of Local 798 he wanted to thank Chief Demmons and the members of the Fire Commission for their support of Proposition "D," the measure that passed on November 5th that eliminated two inequities: it improved the retirement benefits for Tier II officers and firefighters, and changed the maximum benefit for a disabled firefighter from 50 percent to a range of between 50 and 90 percent, depending upon the severity of the disability. The officers and firefighters appreciate this change. As you know, if there is a disparity of benefits among workers who work side by side it creates a morale problem. Our message of fairness and equity was accepted by the voters.

Galileo High School

Ms. Jane Kennedy, a teacher at Galileo High School, addressed the Commission on a matter involving Galileo High School. She referenced a letter from Inspector Kaan Chin to Superintendent of Schools, Walderman Rojas, written October 28, 1996, as follows:

> Complaints have been filed and violations have been issued against Galileo High School for chaining and locking exit doors. San Francisco Fire Code Section 1207.3 prohibits the chaining and locking of exit doors. Please notify all School District personnel that the chaining and locking of exit doors while the school is occupied will not be tolerated.

4. REGULAR CALENDAR - NEW BUSINESS

G) Public Comment (Continued)

She indicated that she has been unable to verify if the letter was received by the Superintendent or if he has distributed any communication to the employees of the school district so that they know what to expect about the chaining and locking of doors during school hours. There is "grapevine" message to those working in the schools that this particular code is going to be given a variance, or perhaps ignored in the case of school houses in order that younsters stay in school all day long. She wanted to know what happens when a citizen writes a letter of complaint to the Superintendent. Do they expect to get something back in writing. She wondered what the paper trail on such a thing is.

Deputy Chief Condon indicated that the referenced code is a State Code, and the City has no authority to waive its requirements. When he was the Fire Marshal he spoke personally to Superintendent Rojas about this and he understands that doors were not to be chained while school is in session. Sometimes we get responses to this type of letter and sometimes we don't. If we wanted to assure a response we would include the appropriate language in our letter. The referenced letter is alerting the Superintendent that this is the code and its requirements. He then needs to take the action steps to inform his principals. President Fernandez-Ruel inquired what happens if the Superintendent does not take the required actions by informing the principals. Deputy Chief Condon replied that if the fire department receives a complaint we will dispatch someone immediately. I believe on this complaint we sent the nearest Battalion Chief. If it is chained we will issue a violation. The referenced letter is in response to a complaint. He indicated that he talked to the principal of Galileo High School and she told him that the custodian unlocks all the doors before school begins and she feels that he missed one. She assured me that it was just an oversight. President Fernandez-Fuel asked if there were any further inquiries to corroborate the principal's statements. Deputy Chief Condon said we depend on our records, if the complaint is recurring then we have to take the necessary steps. He said that high schools are inspected on a monthly basis. These inspections are unannounced. When I was Fire Marshal we cited principals and they must appear in court. Commissioner Soulis said it was the safety issue that concerned him. Ms. Kennedy commented on the political situation called "closed campus" which is gathering momentum in San Francisco. It is very hard to close the campus of some schools without chaining the youngsters inside. Galileo High School is not a closed campus. She repeated that she was present tonight to bring to the Commission a safety problem. Chief Demmons commented that since he has been Chief he has not received any instructions or requests to make a variance in any codes. Ms. Kennedy said it would help if Superintendent Rojas could promulgate a policy about locked and chained doors in the school system, as suggested in Inspector Chin's October 28th letter.

4. REGULAR CALENDAR - NEW BUSINESS

G) Public Comment (Continued)

Deputy Chief Condon suggested that Lieutenant Ernest Li, who is in charge of the specialist inspectors, make some remarks concerning this issue. Lieutenant Li said he had discussed this issue with Inspector Chin. We have experienced the problem of chained and locked doors throughout the system and they are addressed immediately either by a Battalion Chief or an inspector. The Fire Marshal's position is that although we notify the principals we still have a problem, which we feel is an internal problem in the schools. We have had strategy meetings on this issue. We want to make some suggestions. Inspector Chin today visited Lowell High School and disucssed with the principal options to get the students involved, and accountable. One of the suggestions we made was that directors of the ROTC program use their members to patrol the school. We also discussed issuing identification badges for all students. President Fernandez-Ruel asked if those suggestions could be made at the higher level; i.e., a letter from the Chief of Department to Superintendent Rojas. It might lead to a uniform policy district wide, rather than one school doing it one way and others differently. Vice President Roff said he had some reservations about that approach. He thought that suggestions could be made as to possible remedies, but basically those decisions and those policies have to be set by the school district. He agreed that a letter from Chief of Department to Superintendent Rojas about the nature of the violations and codes was appropriate, without referencing solutions, and indeed if it is a common practice it has to stop. President Fernandez-Ruel said that the schools need to be in compliance at all times, and how they get there is their choice. Commissioner Nakajo commented that the schools should be advised as to what the district policy is concerning this issue. He thought the Fire Commission should not be involved in discussing the issue between closed and open campuses, and that fire safety should not be part of this issue. He didn't think we should get involved in suggesting the participation of the ROTC in the issue of locked or chained exit doors.

Chief Demmons commented that recently he received a complaint from a citizen about the lack of clarity as to what he needed to do to conform the code. Chief Demmons thought that there has been a problem as to codes (State and local) because there are a lot of variables in interpreting codes and the more we focus on the language of the codes, and its interpretation the better off we will be. It is not that I want to discourage initiative and suggestions, but the more we follow the chain of command to ensure the proper review at the Deputy Chief levels the better able we will be to communicate policy. It shouldn't come from the Inspectors' level because it creates more confusion than is out there now. I have discussed with the Deputy Chiefs and the Fire Marshal ways to bring clarity to the process so that business people will know what they need to do to achieve compliance with our codes. In the future what I would like everyone to do is to be clear as possible and focus on the areas for which we are responsible and accountable. This is not to say that we shouldn't continue to think about ways to improve our procedures. But, I think

4. REGULAR CALENDAR - NEW BUSINESS

G) Public Comment (Continued)

the citizens will be better served if we follow the chain of command, otherwise we can get into a situation where people are trying to conform to the code and other suggestions are raised which confuses things. Then we start to hear that "the fire department said this .. or that." This can cause friction and confusion. He commented that one of the participants in the Mayor's summit on business earlier this year commented that she moved her small business out of the City because of conflicting information from different agencies as to what constituted compliance. (tape turned ...).

Lieutenant Li commented that in the real world, the code is inanimate but security problems, as in Galileo High School situation, are animate. It could happen daily. In accord with my discussion with the Fire Marshal and going along with the community-based concept that Chief Demmons has begun, we want to make sure that we project a customer based problem solving approach. We want to project that we understand that the customer has a problem and by just saying that "this is the code, you must do it," we know that may not be reasonable either, we must reach out further to find out ways to solve the problem. That is what we were going for.

President Fernandez-Ruel said she applauds Lieutenant Li's description of Chief Demmons' community-based concept. She indicated that in her agency - Housing and Urban Development - there is a similar program called "community first," and it is customer based. Maybe there is some way that Chief Demmons, Deputy Chief Condon, Fire Marshal Stevenson and his staff can approach a situation where non-compliance is a continuing problem. It did not seem to her that it takes a lot of effort to sit down and think of alternatives to number one, being in compliance, and number two addressing the security issues. Although it is not our job we can certainly suggest in some higher level that there are alternatives. Bottom line is compliance. That's what we are here for, but there are creative alternatives to solving this problem. She thought that involving students was a good approach. She told Lieutenant Li that she really applauded his efforts. We have a duty to respond to the non-compliance issue. If it means citing the principal or another letter to the Superintendent then we have to do it. If we don't do it then we are as equally liable as the school district and the principal.

Lieutenant Li said we really feel strongly that the Bureau of Fire Prevention has been taking direct action with regard to the physical building, as far as how the code reads. Along with community-based concept we want to involve the people in the building. He thanked Ms. Kennedy for raising the issue and we will come to a solution.

Commissioner Nakajo said he appreciated Lieutenant Li's comment about "the real world." Because he wants to know what is happening.

4. REGULAR CALENDAR - NEW BUSINESS

G) Public Comment (Continued)

Chief Demmons commented that he wanted to make sure that Lieutenant Li understood what he said. We do want initiative and problem solving but it must be done in a structured way otherwise you will have inspectors going out saying all kinds of things. The community-based workgroup is a place where that suggestion would be discussed and dealt with.

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I would like to take this opportunity to express my appreciation for volunteering an Engine Strike Team to support the protection of structures at Hetch Hetchy and Camp Mather during the Ackerson Complex of Fires that occurred this summer in Yosemite National Park.

These fires proved to be an extremely difficult set of fires during the most extreme fire conditions of the 1996 season. The San Francisco Strike Team performed a valuable function in bringing portable hydrant systems which were set up throughout these housing areas. Had the fires actually made runs into these facilities, there would have been an excellent chance of saving most all of the structures.

I would like to acknowledge the services of Captain Thomas Siragusa who brought Strike Team SFR 2250A to Yosemite. His ability to communicate and coordinate with the wildland operation allowed the strike team to be deployed fairly rapidly.

Sincerely,

/s/ B. J. GRIFFIN (Ms.)
Superintendent

November 4, 1996

Hon. Willie L. Brown, Jr.
Mayor of San Francisco
401 Van Ness Avenue, Room 336
San Francisco, CA 94102

Dear Mayor Brown:

I would like to offer my sincere appreciation to the City of San Francisco for helping me out in a moment of need.

I am the Senior Property Manager of 100 First Plaza, a 27-story high rise building located on the corner of First and Mission Streets. Last Friday afternoon (November 1, 1996) while a contractor replaced a shattered window on the 23rd floor, the tempered glass pane started to buckle. This created a hazardous situation endangering pedestrian traffic below. Our contractor informed us that the glass could not be secured and at any time the glass might give way and fall to the street. We cordoned off the area directly below the window and contacted the San Francisco Police Department. Within five minutes, both the San Francisco Police Department and Fire Department arrived on the scene to assist. After sending one of his people to observe the condition of the window, the Fire Chief authorized the Police Department to block off all potential traffic during the window removal process. Witnessing the event, I cringed at the thought of human life being exposed to the danger of this falling glass.

This may seem to be a trivial incident, but our confidence in the City of San Francisco as a service provider has been elevated to the highest level. Not one minute was wasted. Cooperation between the departments was incredible. The courtesy and concern extended to 100 First Plaza during what we considered a crises situation had a tremendous calming effect. The professionalism and composure of the people involved should be commended.

On behalf of the staff and ownership of 100 First Plaza, I would like to thank you for the service we received from the City of San Francisco during this incident. Thanks to the efforts of all those involved, no one was hurt and

San Francisco Fire Department
Medical Services

November 4, 1996

Chief Robert L. Demmons
San Francisco Fire Department
260 Golden Gate Avenue
San Francisco, CA 94102

Dear Chief Demmons:

I am writing you to commend the efforts of the members of the Department who assisted in the management of a multi-casualty incident which occurred early in the morning of November 2, 1996. At the intersection of 10th and Howard Streets, at approximately 0400 hours four cars were involved in a serious motor vehicle accident requiring emergency response from both the San Francisco Fire Department and the Department of Public Health Paramedic Division. Seven patients were critically injured and one patient required a prolonged extrication in emergency medical management prior to being transported to the Trauma Center at San Francisco General Hospital.

From my direct observations at the scene, it is my conclusion that the actions performed by the members of the Department with regard to their rescue/extrication and emergency medical care functions were performed rapidly, appropriately and professionally. It is my strong belief that thanks, in part, to their swift and competent actions, all patients involved in this extremely serious accident survived.

I would also like to take this opportunity to say how grateful I am personally that you and Deputy Chief Condon were present at the scene. I believe this sends a significant message not only to members of the Department but to those of the Department of Public Health Paramedic Division. It is actions such as these that can only strengthen our standing within the EMS community. I hope you will pass along my commendation to the officers and firefighters involved in the management of this incident.

Sincerely,

/s/ S. MARSHAL ISAACS, M.D.
EMS Medical Director

Chief Robert L. Demmons
San Francisco Fire Department

Dear Chief Demmons:

I am writing to congratulate you and your department on the wonderful Christian spirit I witnessed at the scene of an accident on Fulton Avenue on Friday, October 25, 1996, around 4:30 p.m.

The accident involved a young man on a motorcycle and an elderly woman. The lady turned left in the path of the motorcycle and the young man had no choice but to run right into her vehicle. He was thrown up in the air and landed on his knees. Those of us at the scene tried to make him comfortable until the EMS people arrived in a fire truck. The men on the truck were wonderfully kind to the injured man and to the old lady who was very shaken but not injured. That afternoon was cold and windy with a strong wind blowing in from the ocean. One of your men, a short, rather thin, African American, showed a lot of concern for the lady. He noticed that she was shivering and took off his jacket to put it around her shoulders then he asked her to move around the corner where the wind was not blowing. This young man was in short sleeves with no protection from the cold. I mentioned this to him and he said something like, "That's OK she needs it more than I do."

In this day and age when people do this kind of service to society they rarely get any recognition. I hope you will recognize this young man for his totally unselfish behavior as well as the other members of the team who were unbelievably kind in their interaction with the injured man. Their actions spoke volumes to me and as a newcomer to San Francisco I was greatly impressed to see that the spirit of Saint Francis does exist among its public servants! Unfortunately, I did not get their names or the number of the fire truck. But I am sure if you check the records you will be able to track them down so that they can be commended.

Sincerely,

/s/ SISTER M. ANTONIO HEAPHY, PBVM

To: Robert L. Demmons, Chief of Department
Richard E. Condon, Deputy Chief, Operations
Paul L. Fuhrman, Lieutenant, Chief's Office

Thank you very much for sending Station 31 to our Neighborhood Block Party at 15th Avenue on Sunday, October 13, 1996. Lieutenant Joseph Douglass, Firefighters Gardner Cole and Glen Kojimoto were very informative, professional and courteous to all the children and adults at our event. We were pleased that these firefighters could be with us.

Firefighter Kojimoto put on all his gear (with Scott Air Pak and face piece) and Lieutenant Douglass explained to the children not to be afraid if they saw a firefighter wearing all that gear at an emergency situation. They talked to us about fire safety and answered all our questions. Battalion Chief Paul Jones and Chief's Aide Kenneth Klemme even came to our neighborhood event. We were very happy and honored they were all there. They passed out firehats and pamphlets on fire safety. We feel the children and adults learned a lot about fire safety and also had fun learning it!

Please express our appreciation to Engine 31 and Battalion 7. Thank you very much!

Respectfully yours,

Re: Jack's Restaurant

Dear Deputy Chief Condon:

I would like to take a moment to give some positive feedback to the work of Lieutenant Mario Ballard and Captain Thomas Harvey on this unique project.

This is a small three story, 4,750 sq. ft. building, parts of which have been around since 1864. It stands rather uniquely alone in the midst of modern financial district office blocks. From the beginning meetings four months ago, Lieutenant Ballard has kept a keen eye on fire safety while listening to the needs of the project. In the end, following a thorough site inspection with him and Captain Harvey, we were able to work together to create a safe structure that will hopefully be around another 150 years, while still maintaining much of its historical charm.

The manner of both men has been professional and communicative in working with this project. I thought you should know.

Sincerely,

/s/ ROBERT BROCKOB

Dear Chief Demmons:

Thank you for your department's participation in the annual relocation drills held for the tenants at Embarcadero Center.

Most recently, Inspector Mary Boucher assisted with the drill at Three Embarcadero Center, and Firefighter Fernando Juarez assisted with the drill at Four Embarcadero Center. Their presence, interest, and interaction with the tenants certainly helps us promote the importance of drill participation and tenant emergency preparedness.

We again thank you, Inspector Boucher and Firefighter Juarez for your support in helping us maintain a safe workplace for the tenants at Embarcadero Center.

Dear Firefighter Juarez:

On behalf of the Golden Gate Chapter, California Council of the Blind, I wish to express my sincere thanks and appreciation to you for speaking before our group on Saturday, November 2, 1996. Your discussion of earthquakes and earthquake preparedness was of tremendous value to our members. Your handouts are valuable information, though provoking and of interest to us all. I hope you would be willing to make another guest appearance during 1997. Again, our heartfelt thanks.

2. Update and Progress Report on the San Francisco Emergency Medical Services Reconfiguration Plan.

Dr. Mitch Katz, representing the EMS Steering Committee, reported that the Steering Committee has been meeting weekly to implement the Reconfiguration Plan.

Captain Richard Shortall of the San Francisco Fire Department reported the following progress:

... Paramedic Training Program has been developed.

.. Dr. Marshal Isaacs has been selected as Medical Director.

.. Paramedic Captain Jane Smith has been selected as Course Director.

.. Course curriculum was developed and approved by the EMS Agency and Dr. Katz. A site survey by Dr. Katz was also passed.

.. The training opportunities were advertised in the fire department and 113 firefighters applied for the paramedic trainng program. Chief Demmons selected 24 firefighters and six alternates for the first class. Orientation sessions were held for the first class participants and he noted, with pride, the first class began training on Monday, December 2, 1996. To his knowledge, San Francisco is the only fire department in the United States that has its own paramedic training program.

... Meetings were held with attorneys for the Plaintiff/Intervenors regarding issues surrounding the Consent Decree and the paramedic training program.

... Meet and confer sessions were held with Firefighters Local 798, specifically regarding the paramedic training program.

... Talks have been held with the staff of the Mayor's Budget office regarding the budget necessary for the merger. Hopefully, very soon this supplemental budget will be prepared for the Chief's review and approval and submission to the Fire Commission for adoption.

... Studies were done quite some time ago to evaluate placement of ambulances in the system so that the workload of these ambulances would be reasonable and the system would be reasonably managed. We have made great progress in this area.

Dr. Katz reported the following progress in the Department of Public Health:

... The EMS Agency has approved the curriculum of the Paramedic Training Program. We expect this to become a national model for fire departments.

... San Francisco General Hospital, under the leadership of Chris Wachsmuth and Erhardt Groethoff, have been developing the MIS systems, budget, and

2. (Continued)

personnel issues to ease the transition. Our goal has been to transfer the functions as of July 1, 1997. To meet that goal a number of details have to be worked out on both sides.

... Meet and confer sessions will begin with Local 790. This is a critical part of our plan. We met first with Local 790 because of the importance of the training issues (the first training class began December 2nd). Local 790 needed to elect their representatives, which now has been done. A number of details need to be worked out in the next few months and we would very much like to come back to a joint Commission meeting to keep you apprised of progress.

Dr. Hernandez emphasized the need to continue with the meet and confer process over the next few months. We have a very capable team from labor relations and legal counsel to help us with the process. Tonight we need to hear some public testimony to formally receive some feedback from the public and labor organizations as to how they think the process is working. She indicated that she was confident that this remains the right thing to do and we are making reasonable progress to achieve it. Dr. Hernandez continues her commitment to the Reconfiguraton Plan.

Chief Demmons expressed his appreciation to Dr. Katz and all the other members of task force, and instructors for all their efforts. He applauded those members of the Fire Department who have volunteered to become paramedics. He commended the foresight of Dr. Hernandez and others who saw this as an opportunity to better serve the citizens. It is a very exciting time for all San Franciscans. It is a very exciting time for him as Chief of Department to witness so many people willing to serve the people. He thanked members of the City Attorney's office who have spent a lot of time and energy in this process. He thanked Firefighters Local 798 for their support of the process, although questions and issues remain.

Public Speakers

Jon Meade, DPH Paramedic
Jano Oscherwitz, Local 790
Lonnie Beth Slonsky, Paramedic, and Vice President, Local 790

Dr. Hernandez stated that she wished to clarify one or two points regarding the public testimony. Both Commissions should realize that back in September, we did request to begin meet and confer sessions with Local 790. They indicated that they did not wish to meet until after the November election. Thus, there are good reasons why the meet and confer process has not begun. Obviously, you can't meet and confer unless and until both parties are ready to come to the table. We are looking at the issue of release time for Paramedics. We think it is appropriate. Perhaps the Fire Department is able to dedicate persons to the process while on duty without negatively impacting services. That is not the case in the Paramedic Division. If we take paramedics off the ambulance for release time we need to provide personnel to respond to 911 medical calls.

2. (Continued)

We are anxious to begin the meet and confer process with Local 790. She indicated that she was committed to meeting with the elected officials of Local 790 and getting their proposals dealt with in a fair and appropriate way.

Chief Demmons stated he wished to clarify one concern. That is the paramedic training. It takes three to four times as long to train a firefighter to become a paramedic as it does to train a paramedic to become a firefighter. That is why the Fire Department began its first class on December 2nd. We are not ignoring the training for paramedics . The training for both skills will overlap and at the end of the process both will be cross trained.

President Fernandez-Ruel noted that there are a lot of issues about meet and confer and she hoped dates have been set with Firefighters Local 798. The Fire Department also has other issues regarding the Consent Decree.

President Fernandez-Ruel, with concurrence from Dr. Chow, President, Health Commission, proposed another progress report be presented at a Joint Commission Meeting in 60 days (in February, 1997). Dr. Hernandez and Chief Demmons agreed to this time line.

Note: These minutes represent summary of events.
Tape recording of the proceedings is available
in the office of the Secretary, Fire Commission.

There being no further business to come before the Commission, the meeting was adjourned at 5:40 p.m.

Dear Chief Demmons:

On behalf of the Bay Area Community and the Irwin Memorial Blood Center, I would like to thank San Francisco Firefighters Local 798 for again generously donating a life-saving commodity - blood!

At the San Francisco Firefighters Local 798 blood drive on November 6-8, 1996, 146 people registered to donate, and 139 units were collected. I have enclosed a list of those who registered for your reference.

The units collected at your blood drive are a substantial help to us in meeting the continuous need for blood in the community, and your personal commitment in this regard has been invaluable. Special thanks to Robert Arzave, the long-time coordinator, and his assistants: Romelia Scott, James McCoy and Mark Sikora.

Your next blood drive is scheduled for early 1997. I'm looking forward to working with you again, and I'll be in touch as the date approaches to discuss details.

Again, thank you for your support.

Dear Chief Demmons:

This is a letter of commendation for the outstanding performance demonstrated by the San Francisco Fire Department in meeting the City's requirements for drug and alcohol testing under the auspices of the Department of Transportation (DOT). Captain William Carey, in his capacity as the primary contact for the Fire Department's program, met the demands of both the DOT's regulations and the City's policy and procedures. During an October 1996 audit of the City's DOT centralized files, the Fire Department's records were complete and no additional documents were needed. This accomplishment is evidence of the fine work of Captain Carey and Lieutenant Robert Evans, his backup contact.

The Fire Department has significantly contributed to the successful management of this complex program under the Department of Human Resources by fully complying with the City's program requirements.

I express my appreciation to you and your department for your staff's exceptional performance in meeting all the requirements of this federally-mandated program.

Dear Chief Demmons:

Recently, a relative of mine, the youngest Battalion Chief in the Munich (Germany) fire department, visited California and expressed an interest to visit a fire station. Through the efforts and coordination of Firefighter Daniel Yonts, this was effected at the Buckingham Station in Stonestown, with a visit and tour of equipment and facilities given him by Firefighters William Madsen and William Landivar. We were highly impressed with their genuine professionalism, pride, and enthusiasm for their work and colleagues, and with the organization and readiness of the station.

We would like to thank these gentlemen for their time and efforts, and to bring to your attention our compliments to Firefighters Yonts, Madsen and Landivar for the professionalism and enthusiastic manner in which they treated my guest from Germany.

By their courteous and professional example, these gentlemen have contributed to the continued esteem and veneration in which the public holds the San Francisco Fire Department.

We would appreciate it if you would inform these gentlemen of our thanks and appreciation for their efforts.

Chief Robert L. Demmons

Dear Chief Demmons:

I just wanted to send you a letter commending some men in the San Francisco Fire Department. We were having a roof put on our house on November 26. For one reason or another, the roofers were not able to come out on November 27 to finish. This left us with no roof. On Thanksgiving morning, November 28, we woke up at 5:15 a.m. to the sound of drops of water dropping on our ceilings. It was a heavy mist and then turned into a light rain. Without a roof, even the lightest rain could be a problem.

We called our roofer several times and left messages for him on his answering machine. Then the water started making its way into our house through light fixtures. Then it started coming in through cracks in the ceiling. We called our insurance company, Allstate, and were told there was nothing they could do for us either. I called my dad to see if he could come up and help, and he suggested I call the fire department. He mentioned that in Pacifica they sometimes come out and help. We called the fire department and they sent out a truck (Truck 18). The people were: T/Lieutenant Kai Aspelin, Firefighters Benjamin Canedo, Donald Crivello, William DeLucchi, Thomas Rucker and Maurice Thouvenin. They were wonderful. They were sympathetic and went right to work! They covered our roof with some salvage tarps and roof covers. They even had to call another truck to come out and bring some more roof covers. They covered our beds in our rooms with plastic covers. They checked around the house to be sure all was safe. I was very upset. It was Thanksgiving morning and I was cooking! Anybody we had turned to that morning had turned the other way. It was nice to finally meet some people who took an interest in what was happening to us.

They deserve to be commended and I want to express my gratitude to them. Please let their superiors know what a great job they did for us and how appreciative we were to have them. If they are typical of the San Francisco Fire Department, then I know we are in good hands. Thanks to all of them!!

Dear Chief Demmons:

On Thursday, November 21, 1996, Firefighter Fernando DeAlba gave a presentation on fire safety to the children of Foster City Children's Center. The ages ranged from two through five. The presentation was age-appropriate because Firefighter DeAlba was able to get all the children involved. They especially like the STOP, DROP, and ROLL. The children will remember this presentation on fire safety.

The children took home the materials on fire safety. They are still wearing their fire hats to school. This is an indication that they loved it.

We enjoyed having this presentation at our school. We do look forward to have this presentation on an annual basis. This is a very good program.

The staff and I would like to "thank you" for having the Firefighters in the Schools Program.

Dear Chief Demmons:

On October 24, 1996, Alvarado Elementary School gave its first Health and Safety Fair. We invited firefighters to demonstrate fire safety and display their Engine for the students. Due to a small driveway and the Engine needing to leave it called, it did not make an appearance. However, three firefighters did, and they ranked "#1" booth of the fair. Their demonstrations and message were the children's favorite of all.

All of us at Alvarado wish to thank you for giving your O.K. to visit our school! A very special thanks to Firefighter Eli Payton of Battalion 2 for giving me names and phone numbers of contact people and for following up for me, to Lieutenant Paul Fuhrman for his part in getting Engine 24 and its firefighters to the school site, and many many thanks to temporary Lieutenant Peter Gallagher, Firefighters Donald Peoples and Michael Murphy for two hours of impressive demonstrations and speaking to children in Kindergarten through the fifth grade. They were GREAT!

Again, thank you.

Chief Robert L. Demmons

Dear Chief Demmons:

I am writing to commend Inspector Kaan Chin for his interaction with students at Lowell during an inspection this fall.

As he and I went through the building, a number of students in the classrooms asked Inspector Chin his purpose for being there. He always answered in a positive, genial way that sometimes elicited further questions. In one room, the question was raised "... do you fight a fire (if you have the means) or do you leave?" His answer was thoughtful as he put the solution in the contexts of home or school. Another student asked about fire detectors. Inspector Chin fully answered his question, placing the answer in context that could be readily appreciated by those listening.

In all, Inspector Chin not only inspected the building, but provided a human and informed presence for all firefighters by his demeanor and his willingness to personalize the inspection.

Very truly yours,

/s/ JOHN F. MAHONEY
Asst. Principal, Admin.

Dear Chief Demmons:

Thanks for allowing Firefighter Fernando Juarez to present fire safety information to our recent training group for the San Francisco Coalition for Healthy Sex on November 9, 1996.

His presentation was professional and engaging. Additional information on earthquake preparedness was very thought-provoking.

We expect to ask for your assistance in planning for future such staff trainings.

Sincerely,

Dear Chief Demmons:

I visited the San Francisco Fire Department recently to take a look at your Neighborhood Emergency Response Team program. Under the leadership of Program Coordinator, Lieutenant Frank Lucier, it appears that you have made great strides in developing a strong community relations program with the residents. Frank was kind enough to set up a meeting with Captain Vincent Nolan. Vince set aside whatever time was required to allow me to look at your operation. He also extended an invitation to us to attend the Train-the-Trainer program that will be offered in Monterey. We will probably take him up on the offer.

Both officers were very gracious in fulfilling my requests, returning phone calls, and putting a package of information together. Please extend my thanks to both of them. If I can return the favor, please give me a jingle.

The best to you and your Department during the holidays.

Yours truly,

/s/ RICHARD L. MINOR
Fire Chief

Commissioner Roeca moved and Vice President Roff seconded.

Commissioner Nakajo commented that he visited Fort Mason last month during the testing for H2 Firefighter candidates to check out the process. He was quite amazed at how many individuals participated and how well the test was coordinated. He congratulated Alan Wong and his staff on the outstanding effort. The process was handled in a sensitive and professional manner.

There were no further questions or discussion and the monthly report of Chief of Department was adopted.

C) Fire Commission Resolution

Submitted for adoption Resolution No. 96-09 accepting a 26-foot trailer, valued at $3,000, from Carlin Company for use by the San Francisco Fire Fighters Toy Program.

Commissioner Nakajo moved and Commissioner Roeca seconded.

Chief Demmons invited Mr. Kevin Cronin to come forward to receive a heartfelt expression of deep appreciation from members of the Commission and Chief of Department. Chief Demmons commented that he visited one of the schools in San Francisco while Santa's Workshop on Wheels was present. It was a big hit with the school children. The principal and teachers alike enjoyed the visit as well. He commended everyone responsible for brightening the lives of San Francisco's children; such as, Carlin Company, Firefighter John Voelker, Pacific Bell and Santa Claus.

There were no further questions or discussion and Resolution No. 96-09 was adopted on recommendation of Chief of Department.

D) Fire Commission Resolution

Submitted for adoption Resolution No. 96-10 authorizing the Friends of the San Francisco Fire Department to strike a gold badge for their members.

Commissioner Roeca moved and Vice President Roff seconded.

Chief Demmons invited Mr. Robert Begley, President, Friends of the San Francisco Fire Department, to come forward. A photo of the new FRIENDS badge was taken and Mr. Begely thanked the Commission and Chief of Department. Chief Demmons stated that the members are truly friends of the Fire Department. They supply a lot of needs and financial support that we are unable to get through the budget process. Vice President Roff commented that the fire stations look beautiful illuminated. Commissioner Nakajo echoed those remarks and commented that he feels good and proud when he drives by the illuminated fire stations. He congratulated the Chief and firefighters for their efforts and spirit in displaying the lights during this holiday season.

There were no further questions or discussion and Resolution No. 96-10 was adopted on recommendation of Chief of Department.
